The repurchase program will be funded out of existing cash resources.

The share repurchase program will extend from December 3, 2021 unless and until discontinued by the Board or the date when the R160 million limit is exhausted. Share repurchases may be made by the Company from time to time in open market transactions at prevailing market prices and in accordance with the Company's insider trading policy. In accordance with JSE Listings Requirements, repurchases effected on the JSE will be at a price not greater than 10% above the volume weighted average trading price of the Company's shares on the JSE over the five business days immediately preceding any particular repurchase. All repurchases will be undertaken without any prior arrangement between the Company and the counter-party.

The Board, having considered the effect of the share repurchase program and having made due and careful enquiry as to the working capital requirements of the Company and its subsidiaries for the twelve months following the date of implementation of the share repurchase program, confirm that the solvency and liquidity tests required by the South African Companies Act 71 of 2008 have been complied with.
