# Safe Harbor Statement

This presentation contains statements that are forward-looking, as that term is defined by the Securities and Exchange Commission in its rules, regulations and releases. Applied intends that such forward-looking statements be subject to the safe harbors created thereby. Forward-looking statements are often identified by qualifiers such as “expect,” “outlook,” “guidance,” “will” and derivative or similar expressions. All forward-looking statements are based on current expectations regarding important risk factors including trends in the industrial sector of the economy, the effects of the health crisis associated with the COVID-19 pandemic on our business operations, results of operations, and financial condition, and other risk factors identified in Applied's most recent periodic report and other filings made with the Securities and Exchange Commission, many of which risks are amplified by circumstances arising out of the COVID-19 pandemic. Accordingly, actual results may differ materially from those expressed in the forward-looking statements, and the making of such statements should not be regarded as a representation by Applied or any other person that the results expressed therein will be achieved. Applied assumes no obligation to update publicly or revise any forward-looking statements, whether due to new information, or events, or otherwise.

**Non-GAAP Financial Measures**

This presentation sets forth certain non-GAAP financial measures - Adjusted Gross Margin; EBITDA; Adjusted EBITDA; Adjusted EBITDA Margin; Free Cash Flow; Net Leverage Ratio - which are presented as supplemental disclosures to Net Income; Cash from Operations; Total Debt Outstanding; and reported results. Management believes these measures are useful indicators for normalizing earnings for non-routine items and facilitating effective evaluation of operating performance. A presentation of the most directly comparable GAAP measure and reconciliations of Adjusted Gross Margin, EBITDA, Adjusted EBITDA, Adjusted EBITDA Margin, Free Cash Flow, and Net Leverage Ratio are set forth in the appendix to this presentation.

# Investor Discussion Points – Q1 FY22

| Discussion Point | Update | Detail |
|---|---|---|
| **1. Supply Chain** | • *Industry-wide bottlenecks presenting challenges and uncertainty; direct impact to Applied remains manageable to date reflecting industry position, geographic footprint, and internal execution* | • *October organic sales up by a mid-teens percent YoY to date; F1Q22 EBITDA margins up 89 bps YoY; U.S. operational inventories up 6% YTD* |
| **2. End-Market Trends** | • *Sales growth and underlying demand remains broadly positive; rate of sales improvement and growth accelerated across heavy industrial and later-cycle end markets during F1Q22* | • *25 of top 30 industry verticals up YoY in F1Q22; strongest YoY trends across technology, chemicals, mining, lumber & wood, paper, aggregates, and machinery* |
| **3. Inflation & Pricing** | • *Price actions and channel execution balancing supplier product inflation; LIFO expense running higher than expected YTD; further price actions expected going forward* | • *Price / cost impact immaterial to gross margins YoY during F1Q22; LIFO expense of $3.6M represents a 25 bps YoY headwind to reported gross margins in F1Q22* |
| **4. Underlying Demand** | • *Order volumes remain healthy; industry-wide supply chain disruptions having a limited impact on sales flow-through near term; intermediate demand outlook remains favorable* | • *Booking trends across Service Center network remain positive; fluid power and automation backlog expanding; secular and company-specific growth tailwinds remain firmly intact* |
| **5. Operating Costs** | • *Productivity gains and operational focus helping balance higher employee-related expenses YTD, lapping of prior-year temporary cost actions, and normalizing medical expense* | • *F1Q22 incremental margins at 15.5% inclusive of a negative 170 bps impact from higher LIFO expense YoY; EBITDA margins up 89 bps YoY including a negative 25 bps impact from LIFO expense* |
| **6. Capital Deployment** | • *Balance sheet and liquidity in solid position to support growth initiatives and shareholder returns; M&A remains primary focus with active pipeline across automation, flow control, and fluid power* | • *Deployed $36M in F1Q22 toward M&A, debt paydown, dividends, and share buybacks; balance sheet net leverage at 1.7x with $247M of cash on hand at the end of F1Q22* |
| **7. Automation Expansion** | • *Seeing solid organic growth and order momentum across automation platform YTD; remains a key M&A priority* | • *Demand positively influenced by labor and production bottlenecks industry-wide; acquired R.R. Floody Company in F1Q22* |

# Fiscal 2022 Guidance *(as of October 27, 2021)*

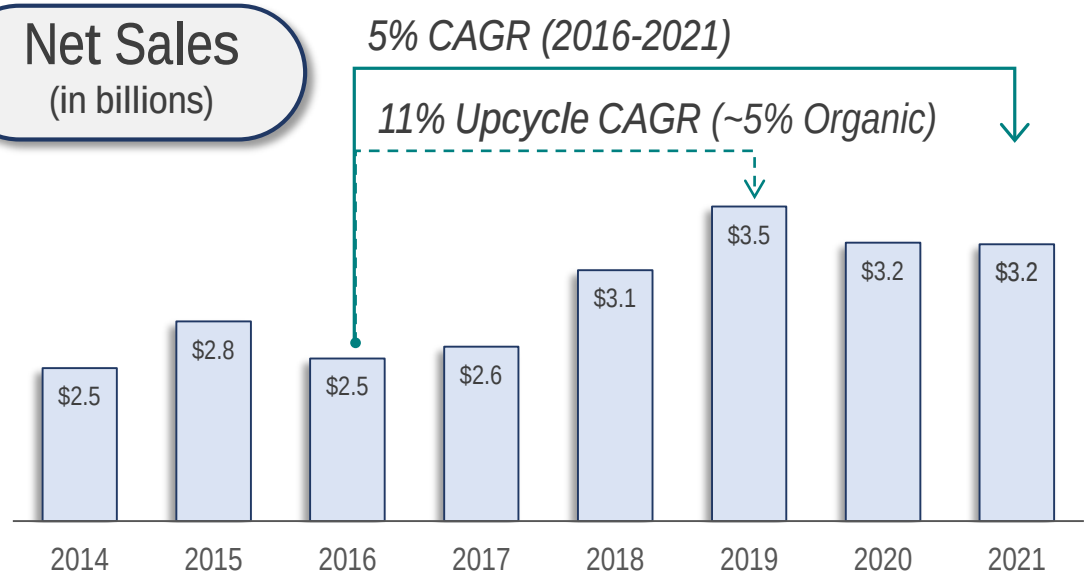

| | Fiscal 2022 Guidance | | |
|---|---|---|---|
| **Total Sales - YoY % change** | **8%** | **-** | **10%** |
| Organic - YoY % change | 7% | - | 9% |
| **EBITDA Margin** | **9.7%** | **-** | **9.9%** |
| YoY bps change | (10) | - | 10 |
| **Diluted EPS** | **$5.00** | **-** | **$5.40** |
| YoY % change | 5% | - | 14% |
| **Additional Assumptions:** | | | |
| Depreciation & amortization expense | $52 | - | $53 |
| Interest & other expense | $31 | - | $32 |
| Effective tax rate | 22% | - | 23% |

## Updated Considerations:

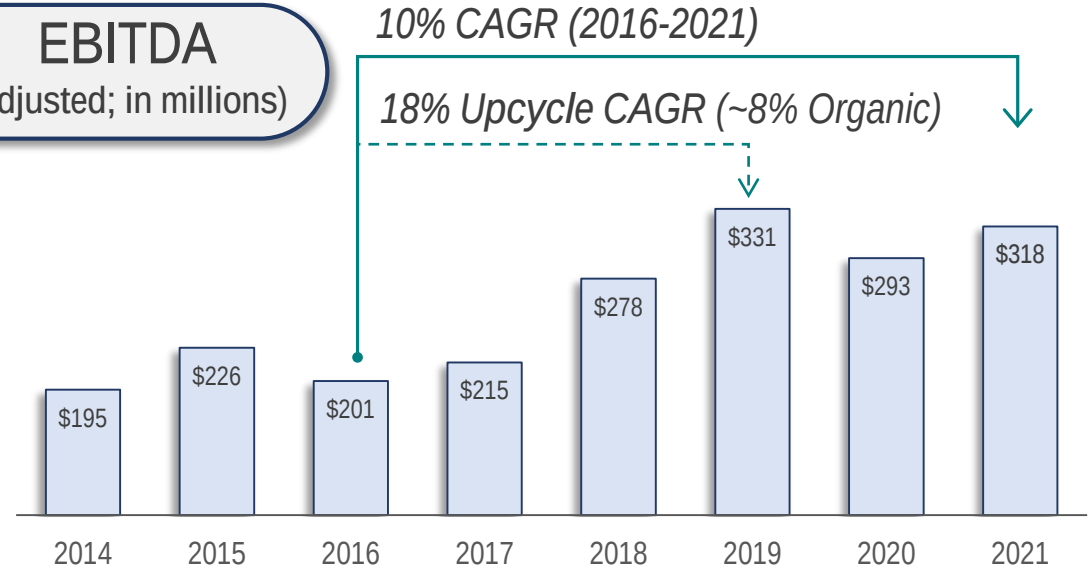

- Maintain FY2022 sales, EBITDA margin, and EPS guidance established in mid-August 2021
- Ongoing uncertainty given industry-wide industrial supply chain and inflationary issues
- LIFO expense higher than expected in F1Q22
  - If a similar level of LIFO expense sustains for the balance of FY2022, would expect a ~40 bps YoY impact on FY2022 EBITDA margins vs. initial expectation of 20-30 bps
- F2Q22 assumptions:
  - Organic daily sales up by a low double-digit to low teen percent
  - Gross margins down slightly vs. F1Q22
  - SD&A expense flat to up slightly vs. F1Q22
