Silicon Laboratories and Quintic Settle Lawsuit

AUSTIN, Texas, Aug 26, 2010 (BUSINESS WIRE) -- Silicon Laboratories Inc. (Nasdaq: SLAB) today announced the settlement of its patent infringement lawsuit against Quintic Corporation, a California semiconductor company, and its Chinese affiliate. The companies agreed to a patent licensing and royalty arrangement that provides Quintic with a limited license to Silicon Labs' international portfolio of FM radio patents.

Silicon Laboratories holds nearly 1,000 patents and patent applications related to mixed-signal ICs, and a significant number relate to RF and radio design.

Silicon Laboratories Inc.

Silicon Laboratories is an industry leader in the innovation of high-performance, analog-intensive, mixed-signal ICs. Developed by a world-class engineering team with unsurpassed expertise in mixed-signal design, Silicon Labs' diverse portfolio of highly-integrated, easy-to-use products offers customers significant advantages in performance, size and power consumption. These patented solutions serve a broad set of markets and applications including consumer, communications, computing, industrial and automotive.

Headquartered in Austin, TX, Silicon Labs is a global enterprise with operations, sales and design activities worldwide. The company is committed to contributing to our customers' success by recruiting the highest quality talent to create industry-changing innovations.
