The Company today also announced that it has amended the terms of the Offer to provide that it will pay the Full Tender Offer Consideration with respect to Notes purchased pursuant to the Offer (including Notes tendered after the Early Tender Time other than the 7.500% Notes, which the Company currently intends, but is not obligated, to redeem in full).

Tendered Notes will be accepted in the order of the acceptance priority level for such series (in numerical priority order) as set forth in the table above, with 1 being the highest acceptance priority level, and based on whether the Notes are tendered at or before the Early Tender Time or after the Early Tender Time, as described in the Offer to Purchase. Notwithstanding the acceptance priority level, if any Notes are purchased in the Offer, Notes tendered at or prior to the Early Tender Time will be accepted for purchase in priority to Notes tendered after the Early Tender Time and at or prior to the Expiration Time. Pursuant to the terms of the Offer, the amount of Notes that will be accepted for purchase is subject to the Tender Cap. Under certain circumstances, the Company will accept tendered Notes of one or more of the series on a pro rata basis as further described in the Offer to Purchase.

The Company will pay the Full Tender Offer Consideration with respect to Notes purchased pursuant to the Offer (including Notes tendered after the Early Tender Time other than the 7.500% Notes, which the Company currently intends, but is not obligated, to redeem in full). In addition, holders that validly tender Notes that are accepted for purchase by the Company will receive accrued and unpaid interest from, and including, the last interest payment date for their tendered Notes to, but not including, the settlement date for such Notes, in each case rounded to the nearest cent.

The company has paid the Full Tender Offer Consideration with respect to Notes purchased pursuant to the Offer (including Notes tendered after the Early Tender Time other than the 7.500% Notes, which the Company currently intends, but is not obligated, to redeem in full). In addition, holders that validly tender Notes that are accepted for purchase by the Company will receive accrued and unpaid interest from, and including, the last interest payment date for their tendered Notes to, but not including, the settlement date for such Notes, in each case rounded to the nearest cent.

The Withdrawal Deadline for the Offer was 5:00 p.m., New York City time, on February 21, 2018, and has not been extended for any series of Notes. The Offer will expire at 11:59 p.m., New York City time, on March 7, 2018, unless extended or earlier terminated by the Company, with respect to any or all series of Notes.

The conditions to the Offer specified in the Offer to Purchase, including the financing condition, have been satisfied.

The Company currently intends to redeem all of the 7.500% Notes that remain outstanding following the consummation of the Offer. Any such redemption would be made in accordance with the terms of the indenture governing the 7.500% Notes, which provides for a redemption price equal to the greater of (i) 100% of their principal amount and (ii) the sum
of the present values of the remaining scheduled payments of principal and interest thereon (not including any portion of such payments of interest accrued as of the date of redemption), discounted to the date of redemption on a semiannual basis at the Treasury Rate (as such term is defined in the 7.500% Notes) plus 50 basis points, plus accrued and unpaid interest to the date of redemption. The redemption price has not yet been determined and it is possible that the redemption price will be less or more than the applicable consideration for the 7.500% Notes in the Offer. However, the Company is not obligated to undertake any such redemption, and there can be no assurance that the Company will redeem any 7.500% Notes that remain outstanding after consummation of the Offer or of the timing of, or amount of any 7.500% Notes subject to, any such redemption.
