

Tetra Bio-Pharma's Dr. Chamberland Goes to Washington!

ORLEANS, Ontario, November 26, 2018 (GLOBE NEWSWIRE) -- Tetra Bio-Pharma Inc., a leader in cannabinoid-based drug discovery and development (TSX VENTURE: TBP) (OTCQB: TBPMF), is pleased to update the market that Dr. Guy Chamberland, CEO and CSO of Tetra Bio-Pharma will be travelling to Washington, D.C. today for individual meetings with six high-ranking U.S. Senators.

The meetings, scheduled for November 26th and 27th, have a mutually beneficial purpose, namely expanding Tetra's existing work with Health Canada and the FDA in the United States as well as briefing the Senators on Tetra Bio-Pharma's unique approach which combines the traditional methods of medicinal cannabis use with the supporting scientific validation and safety data required for inclusion into the existing bio pharma industry by regulators, physicians and insurance companies.

Tetra Bio-Pharma is the only company in North America, in addition to GW Pharmaceuticals, to work with both the FDA and Health Canada on clinical trial programs investigating cannabis and cannabinoid-based products for medical use. Tetra is currently recruiting patients for several clinical trials, including advanced cancer pain and a head to head trial investigating cannabis versus fentanyl in the treatment of breakthrough cancer pain, with the ultimate goal of reducing opioid use.

About Tetra Bio-Pharma

Tetra Bio-Pharma (TSX-V: TBP) (OTCQB: TBPMF) is a biopharmaceutical leader in cannabinoid-based drug discovery and development with a Health Canada approved, and FDA reviewed, clinical program aimed at bringing novel prescription drugs and treatments to patients and their healthcare providers. The Company has several subsidiaries engaged in the development of an advanced and growing pipeline of Bio Pharmaceuticals, Natural Health and Veterinary Products containing cannabis and other medicinal plant-based elements. With patients at the core of what we do, Tetra Bio-Pharma is focused on providing rigorous scientific validation and safety data required for inclusion into the existing bio pharma industry by regulators, physicians and insurance companies.

Forward-looking statements

Some statements in this release may contain forward-looking information. All statements, other than of historical fact, that address activities, events or developments that the Company believes, expects or anticipates will or may occur in the future (including, without limitation, statements regarding potential acquisitions and financings) are forward-looking statements. Forward-looking statements are generally identifiable by use of the words "may", "will", "should", "continue", "expect", "anticipate", "estimate", "believe", "intend", "plan" or "project" or the negative of these words or other variations on these words or comparable terminology. Forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond the Company's ability to control or predict, that may cause the actual results of the Company to differ materially from those discussed in the forward-looking statements. Factors that could cause actual results or events to differ materially from current expectations include, among other things, without limitation, the inability of the Company to obtain sufficient financing to execute the Company's business plan; competition; regulation and anticipated and unanticipated costs and delays, the success of the Company's research and development strategies, including the ability to obtain orphan drug status, the applicability of the discoveries made therein, the successful and timely completion and uncertainties related to the regulatory process, the timing of clinical trials, the timing and outcomes of regulatory or intellectual property decisions, the success of the products mentioned above and other risks disclosed in the Company's public disclosure record on file with the relevant securities regulatory authorities. Although the Company has attempted to identify important factors that could cause actual results or events to differ materially from those described in forward-looking statements, there may be other factors that cause results or events not to be as anticipated, estimated or intended. Readers should not place undue reliance on forward-looking statements. While no definitive documentation has yet been signed by the parties and there is no certainty that such documentation will be signed. The forward-looking statements included in this news release are made as of the date of this news release and the Company does not undertake an obligation to publicly update such forward-looking statements to reflect new information, subsequent events or otherwise unless required by applicable securities legislation.
