NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE A. FINANCIAL STATEMENTS - BASIS OF PRESENTATION

These financial statements include Williams-Sonoma, Inc. and its wholly owned subsidiaries (“we,” “us” or “our”). The Condensed Consolidated Balance Sheets as of August 4, 2019 and July 29, 2018, the Condensed Consolidated Statements of Earnings, the Condensed Consolidated Statements of Comprehensive Income, and the Condensed Consolidated Statements of Stockholders’ Equity for the thirteen weeks and twenty-six weeks then ended and the Condensed Consolidated Statements of Cash Flows for the twenty-six weeks then ended, have been prepared by us, without audit. In our opinion, the financial statements include all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position at the balance sheet dates and the results of operations for the thirteen and twenty-six weeks then ended. Intercompany transactions and accounts have been eliminated. The balance sheet as of February 3, 2019, presented herein, has been derived from our audited Consolidated Balance Sheet included in our Annual Report on Form 10-K for the fiscal year ended February 3, 2019.

The results of operations for the thirteen and twenty-six weeks ended August 4, 2019 are not necessarily indicative of the operating results of the full year.

Certain information and footnote disclosures normally included in the annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) have been omitted. These financial statements should be read in conjunction with the Consolidated Financial Statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended February 3, 2019.

New Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-02, *Leases*, which requires lessees to recognize a right-of-use asset and an operating lease liability for virtually all leases. This ASU, as amended, was effective for us beginning in the first quarter of fiscal 2019. The adoption of this ASU resulted in an increase in total long-term assets and total liabilities of approximately \$1.2 billion, which includes an increase in liabilities for lease obligations of approximately \$1.4 billion, a decrease in deferred rent and deferred lease incentives of approximately \$0.2 billion, and an increase in right-of-use assets of approximately \$1.2 billion on the first day of fiscal 2019. We also recorded an approximate \$3.3 million, net of tax, reduction to the opening balance of retained earnings resulting from the impairment of certain long-lived assets upon adoption of this ASU. We have elected to apply the provisions of this ASU at the adoption date, instead of to the earliest comparative period presented in the financial statements. We have elected the package of practical expedients upon adoption, which permits us not to reassess whether existing contracts are or contain leases, the lease classification of existing leases, or initial direct costs for existing leases. We have also elected not to separate lease and non-lease components for all of our leases and not to recognize a right-of-use asset and a lease liability for short-term leases. The adoption of this ASU did not materially impact our Condensed Consolidated Statement of Earnings.

In August 2017, the FASB issued ASU 2017-12, *Derivatives and Hedging: Targeted Improvements to Accounting for Hedging Activities (Topic 815)*, which expands and refines hedge accounting for both non-financial and financial risk components and aligns the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. The guidance also makes certain targeted improvements to simplify the application of hedge accounting guidance and ease the administrative burden of hedge documentation requirements and assessing hedge effectiveness. Entities should apply the guidance to existing cash flow and net investment hedge relationships using a modified retrospective approach with a cumulative effect adjustment recorded to opening retained earnings on the date of adoption. The guidance also provides transition relief to make it easier for entities to apply certain amendments to existing hedges where the hedge documentation needs to be modified. This ASU was effective for us in the first quarter of fiscal 2019. The adoption of this ASU did not have a material impact on our financial condition, results of operations or cash flows.

In August 2018, the FASB issued ASU 2018-15, *Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract*. This ASU aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. Accordingly, the amendments require an entity in a hosting arrangement that is a service contract to follow the guidance in Subtopic 350-40 to determine which implementation costs to capitalize as an asset related to the service contract and which costs to expense. This ASU is effective for us in the first quarter of fiscal 2020. We do not expect the adoption of this ASU to have a material impact on our financial condition, results of operations or cash flows.

NOTE B. BORROWING ARRANGEMENTS
Credit Facility

We have a credit facility, which provides for a \$500,000,000 unsecured revolving line of credit (the “revolver”) and a \$300,000,000 unsecured term loan facility (the “term loan”). The revolver may be used to borrow revolving loans or request the issuance of letters of credit. We may, upon notice to the administrative agent, request existing or new lenders to increase the revolver by up to \$250,000,000, at such lenders’ option, to provide for a total of \$750,000,000 of unsecured revolving credit. The revolver matures on January 8, 2023, at which time all outstanding borrowings must be repaid and all outstanding letters of credit must be cash collateralized. We may, prior to January 8, 2020, elect to extend the maturity date for an additional year, subject to lender approval.

During the second quarter and for year-to-date fiscal 2019, we had borrowings of \$ 60,000,000 under the revolver (at a year-to-date weighted average interest rate of 3.42%), all of which was outstanding as of August 4, 2019. During the second quarter and for year-to-date fiscal 2018, we had no borrowings under the revolver. Additionally, as of August 4, 2019, \$12,400,000 in issued but undrawn standby letters of credit was outstanding under the credit facility. The standby letters of credit were issued to secure the liabilities associated with workers’ compensation and other insurance programs.

As of August 4, 2019, we had \$300,000,000 outstanding under our term loan (at a year-to-date weighted average interest rate of 3.57 %). The term loan matures on January 8, 2021, at which time all outstanding principal and any accrued interest must be repaid.

The interest rates under the credit facility are variable, and may be elected by us as: (i) the London Interbank Offer Rate plus an applicable margin based on our leverage ratio ranging from 0.91% to 1.775% for a revolver borrowing, and 1.0% to 2.0% for the term loan; or (ii) a base rate as defined in the credit facility plus an applicable margin ranging from 0% to 0.775% for a revolver borrowing, and 0% to 1.0% for the term loan.

As of August 4, 2019, we were in compliance with our financial covenants under the credit facility and, based on current projections, we expect to remain in compliance throughout the next 12 months.

Letter of Credit Facilities

We have three unsecured letter of credit reimbursement facilities for a total of \$70,000,000. The letter of credit facilities contain covenants that are consistent with our credit facility. Interest on unreimbursed amounts under the letter of credit facilities accrues at a base rate as defined in the credit facility plus an applicable margin based on our leverage ratio. As of August 4, 2019, an aggregate of \$7,356,000 was outstanding under the letter of credit facilities, which represents only a future commitment to fund inventory purchases to which we have not taken legal title. On August 23, 2019, we renewed all three of our letter of credit facilities for an aggregate of \$70,000,000 and extended each of these facilities’ maturity dates until August 23, 2020. The latest expiration possible for any future letters of credit issued under the facilities is January 20, 2021.

NOTE C. STOCK-BASED COMPENSATION
Equity Award Programs

Our Amended and Restated 2001 Long-Term Incentive Plan (the “Plan”) provides for grants of incentive stock options, nonqualified stock options, stock-settled stock appreciation rights (collectively, “option awards”), restricted stock awards, restricted stock units (including those that are performance-based), deferred stock awards (collectively, “stock awards”) and dividend equivalents up to an aggregate of 36,570,000 shares. As of August 4, 2019, there were approximately 5,345,000 shares available for future grant. Awards may be granted under the Plan to our officers, employees and non-employee members of the board of directors of the company (the “Board”) or any parent or subsidiary. Shares issued as a result of award exercises or releases are primarily funded with the issuance of new shares.

Option Awards

Annual grants of option awards are limited to 1,000,000 shares on a per person basis and have a maximum term of seven years. The exercise price of these option awards must not be less than 100% of the closing price of our stock on the day prior to the grant date. Option awards granted to employees generally vest evenly over a period of four years for service-based awards. Certain option awards contain vesting acceleration clauses which are triggered upon certain events including, but not limited to, retirement, or a merger or similar corporate event.

Stock Awards

Annual grants of stock awards are limited to 1,000,000 shares on a per person basis. Stock awards granted to employees generally vest evenly over a period of four years for service-based awards. Certain performance-based awards, which have variable payout conditions based on predetermined financial targets, generally vest three years from the date of grant. Certain stock awards and other agreements contain vesting acceleration clauses which are triggered upon certain events including, but not limited to, retirement, or a merger or similar corporate event. Stock awards granted to non-employee Board members generally vest in one year. Non-employee Board members automatically receive stock awards on the date of their initial election to the Board and annually thereafter on the date of the annual meeting of stockholders (so long as they continue to serve as a non-employee Board member).

Stock-Based Compensation Expense

During the thirteen and twenty-six weeks ended August 4, 2019, we recognized total stock-based compensation expense, as a component of selling, general and administrative expenses, of \$16,872,000 and \$35,401,000, respectively. During the thirteen and twenty-six weeks ended July 29, 2018, we recognized total stock-based compensation expense, as a component of selling, general and administrative expenses, of \$ 13,637,000 and \$ 26,526,000 , respectively.

Restricted Stock Units

The following table summarizes our restricted stock unit activity during the twenty-six weeks ended August 4, 2019:

	Shares
Balance at February 3, 2019	3,012,923
Granted	1,000,469
Granted, with vesting subject to performance conditions	238,786
Released ¹	(954,327)
Cancelled	(299,687)
Balance at August 4, 2019	2,998,164
Vested plus expected to vest at August 4, 2019	3,158,678

¹ Excludes 105,436 incremental shares released due to achievement of performance conditions above target.

NOTE D. EARNINGS PER SHARE

Basic earnings per share is computed as net earnings divided by the weighted average number of common shares outstanding for the period. Diluted earnings per share is computed as net earnings divided by the weighted average number of common shares outstanding and common stock equivalents outstanding for the period. Common stock equivalents consist of shares subject to stock-based awards with exercise prices less than or equal to the average market price of our common stock for the period, to the extent their inclusion would be dilutive.

The following is a reconciliation of net earnings and the number of shares used in the basic and diluted earnings per share computations:

<i>In thousands, except per share amounts</i>	Net Earnings	Weighted Average Shares	Earnings Per Share
Thirteen weeks ended August 4, 2019			
Basic	\$ 62,648	78,488	\$ 0.80
Effect of dilutive stock-based awards		982	
Diluted	\$ 62,648	79,470	\$ 0.79
Thirteen weeks ended July 29, 2018			
Basic	\$ 51,713	82,342	\$ 0.63
Effect of dilutive stock-based awards		825	
Diluted	\$ 51,713	83,167	\$ 0.62
Twenty-six weeks ended August 4, 2019			
Basic	\$ 115,304	78,586	\$ 1.47
Effect of dilutive stock-based awards		1,047	
Diluted	\$ 115,304	79,633	\$ 1.45
Twenty-six weeks ended July 29, 2018			
Basic	\$ 96,881	82,867	\$ 1.17
Effect of dilutive stock-based awards		652	
Diluted	\$ 96,881	83,519	\$ 1.16

Stock-based awards of 5,259 and 16,813 were excluded from the computation of diluted earnings per share for the thirteen and twenty-six weeks ended August 4, 2019, respectively, as their inclusion would be anti-dilutive. Stock-based awards of 17,179 and 15,986 were excluded from the computation of diluted earnings per share for the thirteen and twenty-six weeks ended July 29, 2018, respectively, as their inclusion would be anti-dilutive.

NOTE E. SEGMENT REPORTING

We identify our operating segments according to how our business activities are managed and evaluated.

Prior to fiscal 2019, we managed e-commerce merchandise strategies, which included the results of Williams Sonoma, Pottery Barn, Pottery Barn Kids, West Elm, Pottery Barn Teen, Williams Sonoma Home, Rejuvenation and Mark and Graham, separately from our retail business. Because these merchandising strategies shared similar economic and other qualitative characteristics, they had been aggregated into the e-commerce reportable segment. Also, prior to fiscal 2019, we managed retail merchandise strategies, which included the results of our retail stores for Williams Sonoma, Pottery Barn, Pottery Barn Kids, West Elm and Rejuvenation, separately from our e-commerce business. Because these merchandising strategies shared similar economic and other qualitative characteristics, they had been aggregated into the retail reportable segment.

Beginning in fiscal 2019, due to the convergence of our e-commerce and retail businesses and to better align with how we manage our omni-channel business, we have combined the results of our e-commerce and retail merchandise strategies at the overall brand level. Each of our brands are operating segments. Because they share similar economic and other qualitative characteristics, we have aggregated our operating segments into a single reportable segment.

The following table summarizes our net revenues by brand for the thirteen and twenty-six weeks ended August 4, 2019 and July 29, 2018. We have updated fiscal 2018 results to conform with the current year presentation.

Long-lived assets by geographic location are as follows:

Total	\$ 2,311,662	\$ 1,130,485

NOTE F. COMMITMENTS AND CONTINGENCIES

We are involved in lawsuits, claims and proceedings incident to the ordinary course of our business. These disputes, which are not currently material, are increasing in number as our business expands and our company grows. We review the need for any loss contingency reserves and establish reserves when, in the opinion of management, it is probable that a matter would result in liability, and the amount of loss, if any, can be reasonably estimated. In view of the inherent difficulty of predicting the outcome of these matters, it may not be possible to determine whether any loss is probable or to reasonably estimate the amount of the loss until the case is close to resolution, in which case no reserve is established until that time. Any claims against us, whether meritorious or not, could result in costly litigation, require significant amounts of management time and result in the diversion of significant operational resources. The results of these lawsuits, claims and proceedings cannot be predicted with certainty. However, we believe that the ultimate resolution of these current matters will not have a material adverse effect on our Condensed Consolidated Financial Statements taken as a whole.

NOTE G. STOCK REPURCHASE PROGRAM AND DIVIDENDS

Stock Repurchase Program

During the thirteen weeks ended August 4, 2019, we repurchased 635,526 shares of our common stock at an average cost of \$60.24 per share for a total cost of approximately \$ 38,283 ,000. During the twenty-six weeks ended August 4, 2019, we repurchased 1,228,622 shares of our common stock at an average cost of \$58.71 per share for a total cost of approximately \$ 72,131 ,000 . As of August 4, 2019, there was \$651,685,000 remaining under our current stock repurchase program. As of August 4, 2019, we held treasury stock of \$ 974 ,000 that represents the cost of shares available for issuance that is intended to satisfy future stock-based award settlements in certain foreign jurisdictions.

During the thirteen weeks ended July 29, 2018, we repurchased 2,409,437 shares of our common stock at an average cost of \$ 56.90 per share for a total cost of approximately \$ 137,105,000 . During the twenty-six weeks ended July 29, 2018, we repurchased 3,141,367 shares of our common stock at an average cost of \$ 55.65 per share for a total cost of approximately \$ 174,818,000 . In addition, as of July 29, 2018, we held treasury stock of \$ 258 ,000 that represents the cost of shares available for issuance that is intended to satisfy future stock-based award settlements in certain foreign jurisdictions.

Stock repurchases under our program may be made through open market and privately negotiated transactions at times and in such amounts as management deems appropriate. The timing and actual number of shares repurchased will depend on a variety of factors including price, corporate and regulatory requirements, capital availability and other market conditions.

Dividends

We declared cash dividends of \$ 0.48 and \$0.43 per common share during the thirteen weeks ended August 4, 2019 and July 29, 2018, respectively. We declared cash dividends of \$0.96 and \$0.86 per common share during the twenty-six weeks ended August 4, 2019 and July 29, 2018, respectively. Our quarterly cash dividend may be limited or terminated at any time.

NOTE H. DERIVATIVE FINANCIAL INSTRUMENTS

We have businesses in Canada, Australia and the United Kingdom, and operations throughout Asia and Europe, which expose us to market risk associated with foreign currency exchange rate fluctuations. Substantially all of our purchases and sales are denominated in U.S. dollars, which limits our exposure to this risk. However, some of our foreign operations have a functional currency other than the U.S. dollar. To mitigate this risk, we hedge a portion of our

foreign currency exposure with foreign currency forward contracts in accordance with our risk management policies. We do not enter into such contracts for speculative purposes. The assets or liabilities associated with these derivative financial instruments are measured at fair value and recorded in either other current or long-term assets or other current or long-term liabilities. As discussed below, the accounting for gains and losses resulting from changes in fair value depends on whether the derivative financial instrument is designated as a hedge and qualifies for hedge accounting in accordance with Accounting Standards Codification (“ASC”) 815, *Derivatives and Hedging*.

Cash Flow Hedges

We enter into foreign currency forward contracts designated as cash flow hedges (to sell Canadian dollars and purchase U.S. dollars) for forecasted inventory purchases in U.S. dollars by our Canadian subsidiary. These hedges have terms of up to 18 months. All hedging relationships are formally documented, and the forward contracts are designed to mitigate foreign currency exchange risk on hedged transactions. We record the effective portion of changes in the fair value of our cash flow hedges in other comprehensive income (“OCI”) until the earlier of when the hedged forecasted inventory purchase occurs or the respective contract reaches maturity. Subsequently, as the inventory is sold to the customer, we reclassify amounts previously recorded in OCI to cost of goods sold. Changes in the fair value of the forward contract related to interest charges (or forward points) are excluded from the assessment and measurement of hedge effectiveness and are recorded in cost of goods sold. Based on the rates in effect as of August 4, 2019, we expect to reclassify a net pre-tax gain of approximately \$130,000 from OCI to cost of goods sold over the next 12 months.

We also enter into non-designated foreign currency forward contracts (to sell Australian dollars and British pounds and purchase U.S. dollars) to reduce the exchange risk associated with our assets and liabilities denominated in a foreign currency. Any foreign exchange gains or losses related to these contracts are recognized in selling, general and administrative expenses.

[Table of Contents](#)

As of August 4, 2019 and July 29, 2018, we had foreign currency forward contracts outstanding (in U.S. dollars) with notional values as follows:

<i>In thousands</i>	August 4, 2019	July 29, 2018
Contracts designated as cash flow hedges	\$ 6,000	\$ 20,800
Contracts not designated as cash flow hedges	\$ —	\$ 6,600

Hedge effectiveness is evaluated prospectively at inception, on an ongoing basis, as well as retrospectively using regression analysis. Any measurable ineffectiveness of the hedge is recorded in selling, general and administrative expenses. No gain or loss was recognized for cash flow hedges due to hedge ineffectiveness and all hedges were deemed effective for assessment purposes for the thirteen and twenty-six weeks ended August 4, 2019 and July 29, 2018.

The effect of derivative instruments in our Condensed Consolidated Financial Statements during the thirteen and twenty-six weeks ended August 4, 2019 and July 29, 2018, pre-tax, was as follows:

	Thirteen Weeks Ended				Twenty-six Weeks Ended

Derivatives not designated as hedging instruments	\$ —	\$ 24	\$ —	\$ 1,183	\$ —	\$ 18	\$ —	\$ 3,943

The fair values of our derivative financial instruments are presented below according to their classification in our Condensed Consolidated Balance Sheets. All fair values were measured using Level 2 inputs as defined by the fair value hierarchy described in Note I.

<i>In thousands</i>	August 4, 2019	July 29, 2018

Derivatives designated as cash flow hedges:			
Other current assets	\$	142	\$ 690
Other long-term assets	\$	—	\$ 57
Derivatives not designated as hedging instruments:			
Other current assets	\$	—	\$ 5

We record all derivative assets and liabilities on a gross basis. They do not meet the balance sheet netting criteria as discussed in ASC 210, *Balance Sheet*, because we do not have master netting agreements established with our derivative counterparties that would allow for net settlement.

NOTE I. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

We determine the fair value of financial and non-financial assets and liabilities using the fair value hierarchy established by ASC 820, *Fair Value Measurement*, which defines three levels of inputs that may be used to measure fair value, as follows:

- Level 1: inputs which include quoted prices in active markets for identical assets or liabilities;

11

[Table of Contents](#)

- Level 2: inputs which include observable inputs other than Level 1 inputs, such as quoted prices in active markets for similar assets or liabilities; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability; and
- Level 3: inputs which include unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the underlying asset or liability.

The fair values of our cash and cash equivalents are based on Level 1 inputs, which include quoted prices in active markets for identical assets.

Long-term Debt

As of August 4, 2019, the fair value of our long-term debt approximates its carrying value and is based on observable Level 2 inputs, primarily market interest rates for instruments with similar maturities.

Foreign Currency Derivatives and Hedging Instruments

We use the income approach to value our derivatives using observable Level 2 market data at the measurement date and standard valuation techniques to convert future amounts to a single present value amount, assuming that participants are motivated but not compelled to transact. Level 2 inputs are limited to quoted prices that are observable for the assets and liabilities, which include interest rates and credit risk ratings. We use mid-market pricing as a practical expedient for fair value measurements. Key inputs for foreign currency derivatives are the spot rates, forward rates, interest rates and credit derivative market rates.

The counterparties associated with our foreign currency forward contracts are large credit-worthy financial institutions, and the derivatives transacted with these entities are relatively short in duration, therefore, we do not consider counterparty concentration and non-performance to be material risks at this time. Both we and our counterparties are expected to perform under the contractual terms of the instruments. None of the derivative contracts entered into are subject to credit risk-related contingent features or collateral requirements.

Long-lived Assets

We review the carrying value of all long-lived assets for impairment, primarily at an individual store level, whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. We measure property and equipment at fair value on a nonrecurring basis using Level 3 inputs as defined in the fair value hierarchy. We measure right-of-use assets on a nonrecurring basis using Level 2 unobservable inputs that are corroborated by market data. Where Level 2 inputs are not readily available, we use Level 3 inputs. Fair value of these long-lived assets is based on the present value of estimated future cash flows using a discount rate commensurate with the risk.

There were no transfers between Level 1, 2 or 3 categories during the thirteen and twenty-six weeks ended August 4, 2019 or July 29, 2018.

NOTE K. ACQUISITION OF OUTWARD, INC.

On December 1, 2017, we acquired Outward, Inc., a 3-D imaging and augmented reality platform for the home furnishings and décor industry. Outward's technology enables applications in product visualization, digital room design and augmented and virtual reality. Of the \$112,000,000 contractual purchase price, approximately \$80,812,000 was deemed to be purchase consideration, \$26,690,000 is payable to former stockholders of Outward over a period of four years from the acquisition date, contingent upon their continued service during that time, and \$4,498,000 primarily represents settlement of pre-existing obligations of Outward with third parties on the acquisition date. Certain key employees of Outward may also collectively earn up to an additional \$20,000,000, contingent upon achievement of certain financial performance targets, and subject to their continued service over the performance period. Both of these contingent amounts will be recognized as post-combination compensation expense as they are earned.

The purchase consideration has been allocated based on estimates of the fair value of identifiable assets acquired and liabilities assumed, as set forth in the table below.

Working capital and other assets	\$ 718,000
Property and equipment, net	2,049,000
Intangible assets	18,300,000
Liabilities	(6,886,000)
Total identifiable net assets acquired	\$14,181,000
Goodwill	66,631,000
Total purchase consideration	\$80,812,000

Intangible assets acquired primarily represent 3-D imaging data and core intellectual property, which are being amortized over a useful life of four years. Goodwill is primarily attributable to expected synergies as a result of the acquisition, which include the leverage of acquired technology and talent to drive improved conversion, cost savings and operating efficiencies. None of the goodwill will be deductible for income tax purposes.

Outward, Inc. is a wholly-owned subsidiary of Williams-Sonoma, Inc. Results of operations for Outward have been included in our Condensed Consolidated Financial Statements from the acquisition date.

NOTE L. REVENUE

The majority of our revenues are generated from sales of merchandise to our customers through our e-commerce websites, our direct mail catalogs, or at our retail stores and include shipping fees received from customers for delivery of merchandise to their homes. The remainder of our revenues are primarily generated from sales to our franchisees and other wholesale transactions, breakage income related to stored-value cards, and incentives received from credit card issuers in connection with our private label and co-branded credit cards.

We recognize revenue as control of promised goods or services are transferred to our customers. We record a liability at each period end where we have an obligation to transfer goods or services for which we have received consideration or have a right to consideration. We exclude from revenue any taxes assessed by governmental authorities, including value-added and other sales-related taxes, that are imposed on and are concurrent with revenue-generating activities. Our payment terms are primarily at the point of sale for merchandise sales and for most services.

See Note E for a discussion of our net revenues by operating segment.

Merchandise Sales

Revenues from the sale of our merchandise through our e-commerce websites, at our retail stores, as well as to our franchisees and wholesale customers are, in each case, recognized at a point in time when control of merchandise is transferred to the customer. Merchandise can either be picked up in our stores or delivered to the customer. For merchandise picked up in the store, control is transferred at the time of the sale to the end customer. For merchandise delivered to the customer, control is transferred when either delivery has been completed, or we have a present right to payment which, for certain merchandise, occurs upon conveyance of the merchandise to the carrier for delivery. We have elected to account for shipping and handling as fulfillment activities, and not as a separate performance obligation.

Table of Contents

Revenue from the sale of merchandise is reported net of sales returns. We estimate future returns based on historical return trends together with current product sales performance. As of August 4, 2019 and July 29, 2018, we recorded a liability for expected sales returns of approximately \$28,778,000 and \$30,432,000 within other current liabilities and a corresponding asset for the expected net realizable value of the merchandise inventory to be returned of approximately \$10,685,000 and \$11,036,000 within other current assets in our Condensed Consolidated Balance Sheet.

Stored-value Cards

We issue stored-value cards that may be redeemed on future merchandise purchases. Our stored-value cards have no expiration dates. Revenue from stored-value cards is recognized at a point in time upon redemption of the card and as control of the merchandise is transferred to the customer. Revenue from estimated unredeemed stored-value cards (“breakage”) is recognized in a manner consistent with our historical redemption patterns over the estimated period of redemption of our cards of approximately four years, the majority of which is recognized within one year of the card issuance. Breakage revenue is not material to our Condensed Consolidated Financial Statements.

Credit Card Incentives

We enter into agreements with credit card issuers in connection with our private label and co-branded credit cards whereby we receive cash incentives in exchange for promised services, such as licensing our brand names and marketing the credit card program to end customers. Services promised under these agreements are interrelated and are thus considered a single performance obligation. Revenue is recognized over time as we transfer promised services throughout the contract term.

Customer Loyalty Programs

We have customer loyalty programs which allow members to earn points for each qualifying purchase. Points earned enable members to receive certificates that may be redeemed on future merchandise purchases. This customer option is a material right and, accordingly, represents a separate performance obligation to the customer. The allocated consideration for the points earned by our loyalty program members is deferred based on the standalone selling price of the points and recorded within gift card and other deferred revenue within our Condensed Consolidated Balance Sheet. The measurement of standalone selling prices takes into consideration the discount the customer would receive in a separate transaction for the delivered item, as well as our estimate of certificates expected to be redeemed, based on historical redemption patterns. This measurement is applied to our portfolio of performance obligations for points earned, as all obligations have similar economic characteristics. We believe the impact to our Condensed Consolidated Financial Statements would not be materially different if this measurement was applied to each individual performance obligation. Revenue is recognized for these performance obligations at a point in time when certificates are redeemed by the customer. These obligations relate to contracts with terms less than one year, as our certificates generally expire within 6 months from issuance.

Deferred Revenue

We defer revenue when cash payments are received in advance of satisfying performance obligations, primarily associated with our stored-value cards, merchandise sales, and incentives received from credit card issuers. As of August 4, 2019, we held \$288,564,000 in gift card and other deferred revenue on our Condensed Consolidated Balance Sheet, substantially all of which will be recognized as revenue within the next 12 months.

NOTE M. LEASES

We lease store locations, distribution and manufacturing facilities, corporate facilities, customer care centers and certain equipment for our U.S. and foreign operations with initial terms generally ranging from 2 to 22 years. We determine whether an arrangement is or contains a lease at inception by evaluating whether an identified asset exists that we control over the term of the arrangement. Lease commencement is determined to be when the lessor provides us access to, and the right to control, the identified asset.

The rental payments for our store leases are typically structured as either: minimum rent; minimum rate with stated increases or increases based on a future index; rent based on a percentage of store sales; or rent based on a percentage of store sales if a specified store sales threshold or contractual obligation of the landlord has not been met. We consider lease payments that cannot be predicted with reasonable certainty upon lease commencement to be variable lease payments, which are recorded as incurred each period and are excluded from our calculation of lease liabilities. Our variable lease payments include: rent payments that are based on a percentage of sales; contingent payments until the resolution of the contingency is reasonably certain; and rent increases based on a future index.

[Table of Contents](#)

Upon lease commencement, we recognize the lease liability measured at the present value of the fixed future minimum lease payments. We have elected the practical expedient to not separate lease and non-lease components. Therefore, lease payments included in the measurement of the lease liability include all fixed payments in the lease arrangement. We record a right-of-use asset for an amount equal to the lease liability, increased for any prepaid lease costs and initial direct costs and reduced by any lease incentives. We remeasure the lease liability and right-of-use asset when a change to our future minimum lease payments occurs. Key assumptions and judgements included in the determination of the lease liability include the discount rate applied to present value the future lease payments, and the exercise of renewal and termination options.

Many of our leases contain renewal options and early termination options. The option periods are generally not included in the lease term used to measure our lease liabilities and right-of-use assets upon commencement as exercise of the options is not reasonably certain. We remeasure the lease liability and right-of-use asset when we are reasonably certain to exercise a renewal or early termination option.

Discount Rate

Our leases do not provide information about the rate implicit in the lease. Therefore, we utilized an incremental borrowing rate to calculate the present value of our future lease obligations. The incremental borrowing rate represents the rate of interest we would have to pay on a collateralized borrowing, for an amount equal to the lease payments, over a similar term and in a similar economic environment.

The components of lease costs for the thirteen and twenty-six weeks ended August 4, 2019 are as follows:

Memphis-Based Distribution Facility

In fiscal 2015, we entered into an agreement with a partnership comprised of the estate of W. Howard Lester, our former Chairman of the Board and Chief Executive Officer, and the estate of James A. McMahan, a former Director Emeritus and significant stockholder and two unrelated parties to lease a distribution facility in Memphis, Tennessee through July 2017. In fiscal 2017, we exercised the first of two one-year extensions available under the lease to extend the term through July 2018. Subsequently, in fiscal 2017, we amended the lease to further extend the term through July 2020. The amended lease provides for two additional one-year renewal options. Rental payments under this agreement including applicable taxes, insurance and maintenance expenses were not material to us for the thirteen or twenty-six weeks ended August 4, 2019 or July 29, 2018.

OVERVIEW

Williams-Sonoma, Inc. is a specialty retailer of high-quality products for the home. These products, representing distinct merchandise strategies – Williams Sonoma, Pottery Barn, Pottery Barn Kids, West Elm, Pottery Barn Teen, Williams Sonoma Home, Rejuvenation, and Mark and Graham – are marketed through e-commerce websites, direct-mail catalogs and 623 stores. These brands are also part of The Key Rewards, our free-to-join loyalty program that offers members exclusive benefits across the Williams-Sonoma family of brands. We operate in the U.S., Puerto Rico, Canada, Australia and the United Kingdom, offer international shipping to customers worldwide, and have unaffiliated franchisees that operate stores in the Middle East, the Philippines, Mexico and South Korea, as well as e-commerce websites in certain locations. In December 2017, we acquired Outward, Inc., a 3-D imaging and augmented reality platform for the home furnishings and décor industry.

The following discussion and analysis of financial condition, results of operations, and liquidity and capital resources for the thirteen weeks ended August 4, 2019 (“second quarter of fiscal 2019”), as compared to the thirteen weeks ended July 29, 2018 (“second quarter of fiscal 2018”) and the twenty-six weeks ended August 4, 2019 (“year-to-date fiscal 2019”), as compared to the twenty-six weeks ended July 29, 2018 (“year-to-date fiscal 2018”), should be read in conjunction with our Condensed Consolidated Financial Statements and the notes thereto. All explanations of changes in operational results are discussed in order of magnitude.

Second Quarter of Fiscal 2019 Financial Results

Net revenues in the second quarter of fiscal 2019 increased by \$95,640,000, or 7.5%, compared to the second quarter of fiscal 2018, with comparable brand revenue growth of 6.5%. This growth was primarily driven by West Elm, Pottery Barn and Pottery Barn Kids and Teen. Net revenue growth included an 8.7% increase in international revenue primarily related to our franchise operations.

West Elm had a strong quarter with comparable revenue growth accelerating to 17.5%, on top of 9.5% in the second quarter of fiscal 2018. These results were driven by strong execution across all our key growth strategies. In Pottery Barn, comparable revenue growth accelerated to 4.2% and continued to be led by furniture, with strength in our proprietary upholstery business. In Pottery Barn Kids and Teen, comparable revenue growth was 3.7%. Our baby business continues to be an important growth initiative, and during the quarter, we saw significant growth across our back-to-school offerings and

foundational furniture categories. Our emerging brands, Rejuvenation and Mark & Graham drove another quarter of solid growth. In the Williams Sonoma brand, while we are disappointed with the 1.1% comparable revenue decline this quarter, we did have comparable revenue growth in our full-price business and new introductions were solid. However, they weren't strong enough to overcome the clearance volume, misses in tabletop and the very successful launch of Instant Pot last year. In the second quarter of fiscal 2019, diluted earnings per share was \$0.79 (which included a \$0.07 impact related to Outward, Inc., and a \$0.01 impact from employment-related expenses) versus \$0.62 in the second quarter of fiscal 2018 (which included a \$0.05 impact related to Outward, Inc., a \$0.05 impact related to impairment and early lease termination charges, a \$0.03 impact associated with tax expense from U.S. Tax Reform, and a \$0.02 impact from employment-related expenses). We also returned \$76,868,000 to our stockholders through dividends and stock repurchases.

Operationally during the second quarter of fiscal 2019, we also made progress across our strategic initiatives of driving growth through cross-brand initiatives and improving the customer experience through technology innovation and operational improvements.

A key driver of our accelerated growth this quarter was the focus on our portfolio of brands. The Key continues to be an impactful driver of customer engagement and revenue growth as total membership continued to grow during the quarter. Our cross-brand Business-to-Business division also delivered strong growth this quarter and we are aggressively working to put in place the cross-brand, cross-functional infrastructure to support our growth, as well as expanding our large-scale project pipeline with more strategic partnerships across industry verticals.

Also, during the quarter, we made substantial progress on our ongoing efforts to improve the customer experience. In technology innovation, we have significantly expanded our technology experimentation agenda with the launch of many new capabilities over the last six months, across each of our brands, to deliver more engaging, content-rich customer experiences. In our supply chain this quarter, we launched furniture delivery scheduling capability which gives customers the option to schedule their delivery on their mobile devices. We added further enhancements such as email and mobile notifications to our order tracking capability launched in the first quarter. And, in the second quarter, we successfully opened our West Elm West Coast distribution center in Fontana, California, which we expect to be fully operational in September. And finally, our in-house manufacturing operation continues to be a strategic advantage for us, where shipments are up 30% year-over-year as we continue to drive operational improvements to enable more domestic production, which helps to mitigate the impact of the China tariffs.

[Table of Contents](#)

For the remainder of fiscal 2019 we plan to drive cross-brand initiatives that leverage our platform, and we plan to bring technology innovation and continued improvement in customer experience. We have a strong foundation to support the execution of our initiatives throughout the remainder of fiscal 2019 and beyond, as well as to deliver long-term shareholder value.

NET REVENUES

Net revenues primarily consist of sales of merchandise to our customers through our e-commerce websites, direct mail catalogs, and at our retail stores and include shipping fees received from customers for delivery of merchandise to their homes. Our revenues also include sales to our franchisees and wholesale customers, breakage income related to our stored-value cards, and incentives received from credit card issuers in connection with our private label and co-branded credit cards.

Net revenues in the second quarter of fiscal 2019 increased by \$95,640,000, or 7.5%, compared to the second quarter of fiscal 2018, with comparable brand revenue growth of 6.5%. This growth was primarily driven by West Elm, Pottery Barn and Pottery Barn Kids and Teen. Net revenue growth included an 8.7% increase in international revenue primarily related to our franchise operations.

Net revenues for year-to-date fiscal 2019 increased by \$133,772,000, or 5.4%, compared to year-to-date fiscal 2018, with comparable brand revenue growth of 5.1%. This growth was primarily driven by West Elm, Pottery Barn and our franchise operations. Net revenue growth included an 8.8% increase in international revenue primarily related to our franchise operations.

Comparable Brand Revenue

Comparable brand revenue includes comparable store sales and e-commerce sales, including through our direct mail catalogs, as well as shipping fees, sales returns and other discounts associated with current period sales. Comparable stores are defined as permanent stores where gross square footage did not change by more than 20% in the previous 12 months and which have been open for at least 12 consecutive months without closure for seven or more consecutive days. Outlet comparable store net revenues are included in their respective brands. Sales to our international franchisees are excluded from comparable brand revenue as their stores and e-commerce websites are not operated by us. Sales from certain operations are also excluded until such time that we believe those sales are meaningful to evaluating their performance. Additionally, comparable brand revenue growth for newer concepts is not separately disclosed until such time that we believe those sales are meaningful to evaluating the performance of the brand.

¹ Includes total occupancy expenses of \$176,814,000 and \$170,798,000 for the second quarter of fiscal 2019 and the second quarter of fiscal 2018, respectively, and \$350,667,000 and \$344,283,000 for year-to-date fiscal 2019 and year-to-date fiscal 2018, respectively.

Cost of goods sold includes cost of goods, occupancy expenses and shipping costs. Cost of goods consists of cost of merchandise, inbound freight expenses, freight-to-store expenses and other inventory related costs such as shrinkage, damages and replacements. Occupancy expenses consist of rent, depreciation and other occupancy costs, including common area maintenance, property taxes and utilities. Shipping costs consist of third-party delivery services and shipping materials.

Our classification of expenses in cost of goods sold may not be comparable to other public companies, as we do not include non-occupancy related costs associated with our distribution network in cost of goods sold. These costs, which include distribution network employment, third-party warehouse management and other distribution related administrative expenses, are recorded in selling, general and administrative expenses.

Second Quarter of Fiscal 2019 vs. Second Quarter of Fiscal 2018

Cost of goods sold increased by \$75,721,000, or 9.3%, in the second quarter of fiscal 2019 compared to the second quarter of fiscal 2018. Cost of goods sold as a percentage of net revenues increased to 64.7% in the second quarter of fiscal 2019 from 63.6% in the second quarter of fiscal 2018. This increase was primarily driven by increased shipping costs due to a larger mix of furniture sales, the incremental impact of the implementation of the List 3 China tariffs, as well as a growing share of our business coming from franchise and trade, partially offset by the leverage of occupancy costs.

Year-to-Date Fiscal 2019 vs. Year-to-Date Fiscal 2018

Cost of goods sold increased by \$101,686,000, or 6.4%, for year-to-date fiscal 2019 compared to year-to-date fiscal 2018. Cost of goods sold as a percentage of net revenues increased to 64.5% for year-to-date fiscal 2019 from 63.8% for year-to-date fiscal 2018. This increase was primarily driven by increased shipping costs due to a larger mix of furniture sales, the incremental impact of the implementation of the List 3 China tariffs, as well as a growing share of our business coming from franchise and trade, partially offset by the leverage of occupancy costs.

Selling, general and administrative expenses consist of non-occupancy related costs associated with our retail stores, distribution and manufacturing facilities, customer care centers, supply chain operations (buying, receiving and inspection) and corporate administrative functions. These costs include employment, advertising, third party credit card processing and other general expenses.

Second Quarter of Fiscal 2019 vs. Second Quarter of Fiscal 2018

Selling, general and administrative expenses increased by \$7,920,000, or 2.0%, in the second quarter of fiscal 2019 compared to the second quarter of fiscal 2018. Selling, general and administrative expenses as a percentage of net revenues decreased to 29.0% in the second quarter of fiscal 2019 from 30.6% in the second quarter of fiscal 2018. This decrease as a percentage of net revenues was driven by the leverage of employment, advertising and general expenses driven by higher sales and the continued benefits of our cost savings initiatives across the business, as well as our overall expense discipline.

Year-to-Date Fiscal 2019 vs. Year-to-Date Fiscal 2018

Selling, general and administrative expenses increased by \$12,505,000, or 1.7%, for year-to-date fiscal 2019 compared to year-to-date fiscal 2018. Selling, general and administrative expenses as a percentage of net revenues decreased to 29.4% for year-to-date fiscal 2019 from 30.5% for year-to-date fiscal 2018. INCOME TAXES

The effective tax rate was 25.8% for year-to-date fiscal 2019, and 29.8% for year-to-date of fiscal 2018. Staff Accounting Bulletin No. 118 (“SAB 118”) issued by the SEC in December 2017 provided us with up to one year to finalize our measurement of the income tax effects of the 2017 Tax Cuts and Jobs Act (“the Tax Act”) on our fiscal year ended January 28, 2018. The year-over-year decrease in the effective tax rate was primarily due to the adjustment of the provisional transition tax and the adjustment to the re-measurement of our deferred tax liabilities under SAB 118 in the first two quarters of fiscal 2018.

LIQUIDITY AND CAPITAL RESOURCES

As of August 4, 2019, we held \$120,467,000 in cash and cash equivalents, the majority of which was held in interest bearing demand deposit accounts and money market funds, of which \$98,512,000 was held by our international subsidiaries. As is consistent within our industry, our cash balances are seasonal in nature, with the fourth quarter historically representing a significantly higher level of cash than other periods.

In fiscal 2019, we plan to use our cash resources to fund our inventory and inventory related purchases, advertising and marketing initiatives, property and equipment purchases, stock repurchases and dividend payments. In addition to our cash balances on hand, we have a \$500,000,000 unsecured revolving line of credit (“the revolver”) and a \$300,000,000 unsecured term loan facility (“the term loan”). The revolver may be used to borrow revolving loans or request the issuance of letters of credit. We may, upon notice to the administrative agent, request existing or new lenders to increase the revolver by up to \$250,000,000, at such lenders’ option, to provide for a total of \$750,000,000 of unsecured revolving credit. For year-to-date fiscal 2019, we had borrowings of \$60,000,000 under the revolver. For year-to-date fiscal 2018, we had no borrowings under the revolver. As of August 4, 2019, we had \$300,000,000 outstanding under our term loan. The term loan matures on January 8, 2021, at which point all outstanding principal and any accrued interest must be repaid. Additionally, as of August 4, 2019, a total of \$12,400,000 in issued but undrawn standby letters of credit was outstanding under the credit facility. The standby letters of credit were issued to secure the liabilities associated with workers’ compensation and other insurance programs.

As of August 4, 2019, we had three unsecured letter of credit reimbursement facilities for a total of \$70,000,000, of which \$7,356,000 was outstanding. These letter of credit facilities represent only a future commitment to fund inventory purchases to which we have not taken legal title. On August 23, 2019, we renewed all three of our letter of credit facilities for substantially similar terms.

We are currently in compliance with all of our financial covenants under the credit facility and, based on our current projections, we expect to remain in compliance throughout the next 12 months. We believe our cash on hand, in addition to our available credit facilities, will provide adequate liquidity for our business operations over the next 12 months.

Cash Flows from Operating Activities

For year-to-date fiscal 2019, net cash used in operating activities was \$26,636,000 compared to net cash provided by operating activities of \$120,123,000 for year-to-date fiscal 2018. For year-to-date fiscal 2019, net cash used in operating activities was primarily attributable to a decrease in accounts payable and an increase in merchandise inventories, partially offset by net earnings adjusted for non-cash items. Net cash used in operating activities for year-to-date fiscal 2019 compared to net cash provided by operating activities for year-to-date fiscal 2018 was primarily due to a year-over-year reduction in accounts payable due to the timing of payments.

Cash Flows from Investing Activities

For year-to-date fiscal 2019, net cash used in investing activities was \$76,719,000 compared to \$79,508,000 for year-to-date fiscal 2018, and was primarily attributable to purchases of property and equipment.

Cash Flows from Financing Activities

For year-to-date fiscal 2019, net cash used in financing activities was \$113,471,000 compared to \$257,484,000 for year-to-date fiscal 2018. For year-to-date fiscal 2019, net cash used in financing activities was primarily attributable to the payment of dividends, repurchases of common stock and tax withholdings related to stock-based awards, partially offset by borrowings under our revolver. The decrease in cash used in financing activities for year-to-date fiscal 2019 compared to year-to-date fiscal 2018 was primarily attributable to a decrease in repurchases of common stock, as well as an increase in borrowings under our revolver.

Stock Repurchase Program and Dividends

See Note G to our Condensed Consolidated Financial Statements, *Stock Repurchase Program and Dividends*, within Item 1 of this Quarterly Report on Form 10-Q for further information.

Critical Accounting Policies

Management's Discussion and Analysis of Financial Condition and Results of Operations is based on our Condensed Consolidated Financial Statements, which have been prepared in accordance with U.S. GAAP. The preparation of these Condensed Consolidated Financial Statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. These estimates and assumptions are evaluated on an ongoing basis and are based on historical experience and various other factors that we believe to be reasonable under the circumstances. Actual results could differ significantly from these estimates. During the second quarter of fiscal 2019, other than those discussed in Notes H, I and M to our Condensed Consolidated Financial Statements, there have been no significant changes to the critical accounting policies discussed in our Annual Report on Form 10-K for the year ended February 3, 2019.

Seasonality

Our business is subject to substantial seasonal variations in demand. Historically, a significant portion of our revenues and net earnings have been realized during the period from October through January, and levels of net revenues and net earnings have typically been lower during the period from February through September. We believe this is the general pattern associated with the retail industry. In preparation for and during our holiday selling season, we hire a substantial number of additional temporary employees, primarily in our retail stores, customer care centers and distribution facilities, and incur significant fixed catalog production and mailing costs.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks, which include significant deterioration of the U.S. and foreign markets, changes in U.S. interest rates, foreign currency exchange rate fluctuations, and the effects of economic uncertainty which may affect the prices we pay our vendors in the foreign countries in which we do business. We do not engage in financial transactions for trading or speculative purposes.

Interest Rate Risk

Our revolver and our term loan each have a variable interest rate which, when drawn upon, subjects us to risks associated with changes in that interest rate. During the second quarter of fiscal 2019, we had borrowings of \$60,000,000 under the revolver. A hypothetical increase or decrease of one percentage point on our existing variable rate debt instruments would not materially affect our results of operations or cash flows.

In addition, we have fixed and variable income investments consisting of short-term investments classified as cash and cash equivalents, which are also affected by changes in market interest rates. As of August 4, 2019, our investments, made primarily in interest bearing demand deposit accounts and money market funds, are stated at cost and approximate their fair values.

Foreign Currency Risks

We purchase a significant amount of inventory from vendors outside of the U.S. in transactions that are denominated in U.S. dollars. Approximately 1% of our international purchase transactions are in currencies other than the U.S. dollar, primarily the euro. Any foreign currency impact related to these international purchase transactions was not significant to us during the second quarter of fiscal 2019 or the second quarter of fiscal 2018. Since we pay for the majority of our international purchases in U.S. dollars, however, a decline in the U.S. dollar relative to other foreign currencies could subject us to the risks associated with increased purchasing costs from our vendors in their effort to offset any lost profits associated with any currency devaluation. We cannot predict with certainty the effect these increased costs may have on our financial statements or results of operations.

In addition, our businesses in Canada, Australia and the United Kingdom, and our operations throughout Asia and Europe, expose us to market risk associated with foreign currency exchange rate fluctuations. Substantially all of our purchases and sales are denominated in U.S. dollars, which limits our exposure to this risk. However, some of our foreign operations have a functional currency other than the U.S. dollar. While the impact of foreign currency exchange rate fluctuations was not material to us in the second quarter or year-to-date fiscal 2019 or the second quarter or year-to-date fiscal 2018, we have continued to see volatility in the exchange rates in the countries in which we do business. As we continue to expand globally, the foreign currency exchange risk related to our foreign operations may increase. To mitigate this risk, we hedge a portion of our foreign currency exposure with foreign currency forward contracts in accordance with our risk management policies (see Note H to our Condensed Consolidated Financial Statements).

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of August 4, 2019, an evaluation was performed by management, with the participation of our Chief Executive Officer ("CEO") and our Chief Financial Officer ("CFO"), of the effectiveness of our disclosure controls and procedures. Based on that evaluation, our management, including our CEO and CFO, concluded that our disclosure controls and procedures are effective to ensure that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 is accumulated and

communicated to our management, including our CEO and CFO, as appropriate, to allow for timely discussions regarding required disclosures, and that such information is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting that occurred during our most recent fiscal quarter that has materially affected, or is

reasonably likely to materially affect, our internal control over financial reporting.

**WILLIAMS-SONOMA, INC. 2001 LONG-TERM INCENTIVE PLAN
RESTRICTED STOCK UNIT AWARD AGREEMENT
FOR GRANTS TO EMPLOYEES ("AGREEMENT")**

Name:**Employee ID:****Grant Date:****Grant Number:****Number of RSUs:****Grant Date FMV:**

1. **Award.** Williams-Sonoma, Inc. (the "Company"), has awarded you the number of Restricted Stock Units indicated above ("Award"). Each Restricted Stock Unit entitles you to receive one share of Common Stock of the Company upon the terms and subject to the conditions set forth in the Company's 2001 Long-Term Incentive Plan (the "Plan") and this Award. Prior to the distribution of any shares, this Award represents an unsecured obligation, payable only from the general assets of the Company.

Except as specified herein, shares of Common Stock will be issued to you or, in case of your death, your beneficiary designated in accordance with the procedures specified by the Administrator on or shortly following the Vesting Date. If at the time of your death, there is not an effective beneficiary designation on file or you are not survived by your designated beneficiary, the shares will be issued to the legal representative of your estate or other beneficiary as determined under applicable law.

2. **Vesting.** Subject to any acceleration provisions contained in the Plan or this Agreement, the Restricted Stock Units subject to this Award will vest as follows: **[INSERT VESTING TERMS, INCLUDING ANY PERFORMANCE CONDITIONS.]**

Subject to the provisions of Sections 6, 13 and 14, shares of Common Stock will be issued in payment of the Award as soon as practicable upon or after each Vesting Date (but in each such case no later than sixty (60) days following the Vesting Date), net of shares of Common Stock withheld by the Company to satisfy the minimum statutorily required federal, state, foreign and local tax withholding obligations, as provided in Section 10. You will have no right to receive shares under this Award unless and until the Restricted Stock Units vest.

3. Termination Of Employment.

(a) If you cease to be employed due to your death or Disability (as defined below), then as of the first business day of the month following the date of termination of your employment, you will vest in the number of unvested Restricted Stock Units equal to the Pro Rata Number (as defined below). In such event, the Pro Rata Number of shares underlying the remaining Restricted Stock Units shall be delivered as of the first business day of the month following the date of termination of your employment, subject to the provisions of Sections 6, 13 and 14 below. The "Pro Rata Number" is defined as:

25% of the number of Restricted Stock Units subject to this Award multiplied by a fraction, the numerator of which is the number of full calendar months you continued employment with the Company from the most recently completed Vesting Date (or from the Grant Date for ceases of employment within twelve months of the Grant Date) through and including your termination date, and the denominator of which is 12. **[NOTE: ADJUST AS NECESSARY FOR ALTERNATIVE VESTING SCHEDULES.]**

"Disability" is defined as any one or more of the following: (i) your being unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment that can be expected to last for a continuous period of not less than twelve (12) months; (ii) you are, by reason of any medically determinable physical or mental impairment that can be expected to result in death or can be expected to last for a continuous period of not less than twelve (12) months, receiving income replacement benefits for a period of not less than three (3) months under the Company's accident and health plan covering the Company's employees; or (iii) you have been determined to be totally disabled by the Social Security Administration.

(b) If you cease to be employed due to your Retirement (as defined below), then as of the first business day of the month following the date of termination of your employment, you will become immediately vested in any Restricted Stock Units that have not previously vested. In such event, all shares underlying any remaining Restricted Stock Units shall be delivered as of the first business day of the month following the date of termination of your employment, subject to the provisions of Sections 6, 13 and 14 below.

“Retirement” is defined as your termination of employment for a reason other than Disability or death subsequent to your having attained age 70 and having been employed by the Company or one of its affiliate for at least 15 years. Notwithstanding the preceding sentence, a termination will not be considered a Retirement if you are terminated for “Cause” by the Company or one of its affiliates. For this purpose, “Cause” shall be defined as (i) embezzlement, theft or misappropriation by you of any property of any of the Company or its affiliates; (ii) your breach of any fiduciary duty to the Company or its affiliates; (iii) your failure or refusal to comply with laws or regulations applicable to the Company or its affiliates and their businesses or the policies of the Company and its affiliates governing the conduct of its employees or directors; (iv) your gross incompetence in the performance of your job duties; (v) commission by you of a felony or of any crime involving moral turpitude, fraud or misrepresentation; (vi) your failure to perform duties consistent with a commercially reasonable standard of care; (vii) your failure or refusal to perform your job duties or to perform specific directives of your supervisor or designee, or the senior officers or Board of Directors of the Company; or (viii) any gross negligence or willful misconduct by you resulting in loss to the Company or its affiliates, or damage to the reputation of the Company or its affiliates.

(c) If you cease to be employed other than due to a termination described in (a) or (b) above, and except as provided otherwise in a Company plan or individual agreement covering you, all then unvested Restricted Stock Units (including dividend equivalents, if any) awarded hereby shall immediately terminate without notice to you and shall be forfeited. For the purposes of this Agreement, termination of employment shall be considered to be the last day of your active service for the Company and its affiliates and such termination of employment date shall not be extended by any notice of termination period (or garden leave) required under applicable local law.

4. No Employment Agreement. Neither the Award nor the delivery to you of this Agreement or any other document relating to the Restricted Stock Units will confer on you the right to continued employment with or other service to the Company or any Parent or Subsidiary. You agree that this Agreement, the transactions contemplated hereunder and the vesting schedule set forth herein do not constitute an express or implied promise of continued employment or service for the vesting period, for any period, or at all, and will not interfere in any way with your right or the right of the Company (or the Parent or Subsidiary employing or retaining you) to terminate your employment or other service relationship at any time, with or without cause or notice provided compliant with applicable local law.

5. [OPTIONAL (ADJUST SECTION REFERENCES IF DELETED): Dividend Equivalents. During the period beginning on the Grant Date as indicated above and ending on the date that the Restricted Stock Unit is settled or terminates, whichever occurs first, you will accrue cash payments based on the cash dividend that would have been paid on the Restricted Stock Unit had the Restricted Stock Unit been an issued and outstanding share of Common Stock on the record date for the dividend. Such accrued dividends will vest and become payable upon the same terms and at the same time as the Restricted Stock Units to which they relate, including any delay in payment to which the related Restricted Stock Units may be subject pursuant to Sections 6 and 13 and will be paid in cash. Dividend equivalent payments will be net of federal, state, foreign and local withholding taxes to the extent such withholding is required.

6. **Deferral.** If permitted by the Administrator, the issuance of the Common Stock issuable with respect to this Award may be deferred upon such terms and conditions as determined by the Administrator, subject to the Administrator's determination that any such right of deferral or any term thereof complies with applicable laws or regulations in effect from time to time. If you are located outside the U.S., you will not be permitted to elect to defer the settlement of your Restricted Stock Units.

7. **Nontransferable.** You may not sell, assign, pledge, encumber or otherwise transfer any interest in the Restricted Stock Units or the right to receive dividend equivalents thereon.

8. **Other Restrictions.** The issuance of Common Stock under this Award is subject to compliance by the Company and you with all applicable legal requirements applicable thereto and with all applicable regulations of any stock exchange on which the Common Stock may be listed at the time of issuance. The Company may delay the issuance of shares of Common Stock under this Award to ensure at the time of issuance there is a registration statement for the shares in effect under the Securities Act of 1933.

9. **Additional Provisions.** This Award is subject to the provisions of the Plan. Capitalized terms not defined in this Award are used as defined in the Plan. If the Plan and this Award are inconsistent, the provisions of the Plan will govern, except as specifically provided herein. Interpretations of the Plan and this Award by the Committee are binding on you and the Company.

10. **Tax Withholding.** You acknowledge that, regardless of any action taken by the Company or, if different, your employer, the ultimate liability for any or all income tax, social insurance contributions, payroll tax or other tax-related items related to your participation in the Plan and legally applicable to you ("Tax-Related Items") is and remains your responsibility and may exceed the amount withheld by the Company or your employer. You further acknowledge that the Company and/or your employer (1) make no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the Award and (2) do not commit to structure the terms of the grant or any aspect of the Award to reduce or eliminate your liability for Tax-Related Items or achieve any particular tax result. Further, if you are subject to Tax-Related Items in more than one jurisdiction between the Grant Date and the date of any relevant taxable or tax withholding event, as applicable, you acknowledge that the Company and/or your employer (or former employer, as applicable) may be required to withhold or account for Tax-Related Items in more than one jurisdiction.

You agree that the Company may satisfy such withholding by any or a combination of the following methods: (i) by requiring you to pay such amount in cash or check; (ii) by deducting such amount out of any other compensation otherwise payable to you; (iii) by the Company withholding a number of shares issuable in respect of the Award having a fair market value equal to the amount of Tax-Related Items that the Company determines it or your employer is required to withhold; and/or (iv) arranging for the Company's designated broker (if any, or any broker acceptable to the Company) to sell shares having a fair market value equal to the amount of Tax-Related Items that the Company determines it is required to withhold (and, in the case of using the Company's designated broker, you authorize such sale by accepting the terms of this Award). If the obligation for Tax-Related Items is satisfied by withholding in shares, for tax purposes, you are deemed to have been issued the full number of shares subject to the vested Award, notwithstanding that a number of the shares are held back solely for the purpose of paying the Tax-Related Items.

If the Tax-Related Items are not satisfied for any reason or if you otherwise fail to comply with your obligations in connection with the Tax-Related Items as described in this section, the Company may refuse to deliver the shares pursuant to this Award.

11. **Address for Notices.** Any notice to be given to the Company under the terms of this Agreement will be addressed to the Company, in care of its Stock Plan Administrator, at 3250 Van Ness Avenue, San Francisco, CA 94109 USA, or at such other address as the Company may hereafter designate in writing.

12. **Non-accrual of Rights.** In accepting your Award, you acknowledge that:

- the Plan is established voluntarily by the Company; it is discretionary in nature and it may be modified, amended, suspended or terminated by the Company at any time, unless otherwise provided in the Plan and this Award Agreement;

- the grant of your Award is voluntary and occasional and does not create any contractual or other right to receive future grants of awards, or benefits in lieu of awards, even if awards have been granted in the past;
- all decisions with respect to future Awards under the Plan, if any, will be at the sole discretion of the Company;
- you are voluntarily participating in the Plan;
- the Award and the shares of Common Stock subject to the Award are not intended to replace any pension rights or compensation;
- the Award and the shares of Common Stock subject to the Award, and the income and value of same, are not part of normal or expected compensation or salary for any purpose, including, but not limited to, for purposes of calculating any severance, resignation, termination, redundancy, dismissal, end-of-service payments, bonuses, long-service awards, pension or retirement or welfare benefits or similar payments;
- the future value of the shares of Common Stock subject to your Award is unknown, indeterminable and cannot be predicted with certainty;
- no claim or entitlement to compensation or damages shall arise from forfeiture of the Award resulting from the termination of your employment or other service relationship (for any reason whatsoever, whether or not later found to be invalid or in breach of employment laws in the jurisdiction where you are employed or the terms of your employment or service agreement, if any), and in consideration of the grant of the Award to which you are otherwise not entitled, you irrevocably agree never to institute any such claim against the Company or any Subsidiary, waive your ability, if any, to bring any such claim, and release the Company and all Subsidiaries from any such claim; if, notwithstanding the foregoing, any such claim is allowed by a court of competent jurisdiction, then, by participating in the Plan, you shall be deemed irrevocably to have agreed not to pursue such claim and agree to execute any and all documents necessary to request dismissal or withdrawal of such claim;
- unless otherwise provided in the Plan or determined by the Company in its discretion, the Award and the benefits evidenced by this Award Agreement do not create any entitlement to have the Award or any such benefits transferred to, or assumed by, another company nor to be exchanged, cashed out or substituted for, in connection with any corporate transaction affecting the shares of the Company; and
- you acknowledge and agree that neither the Company nor any Subsidiary shall be liable for any foreign exchange rate fluctuation between your local currency and the United States Dollar that may affect the value of the Award or of any amounts due to you pursuant to the settlement of the Award, the payment of dividend equivalents or the subsequent sale of any shares of Common Stock acquired upon settlement.

13. 409A Settlement Provisions. *Please note Sections 13 and 14 are applicable only to U.S. taxpayers.* Notwithstanding anything in the Plan or this Agreement to the contrary, if the vesting of the balance, or some lesser portion of the balance, of the Restricted Stock Units is accelerated in connection with your Retirement or other termination of employment (provided that such termination is a “separation from service” within the meaning of Section 409A, as determined by the Company), other than due to death, and if (x) you are a “specified employee” within the meaning of Section 409A at the time of such termination and (y) the payment of such accelerated Restricted Stock Units will result in the imposition of additional tax under Section 409A if paid to you on or within the six (6) month period following your termination of employment, then the payment of such accelerated Restricted Stock Units otherwise payable to you during such six (6) month period will accrue and will be paid to you on the date six (6) months and one (1) day following the date of your termination of employment, unless you die following your termination of employment, in which case, the Restricted Stock Units will be paid in shares of Common Stock to your estate as soon as practicable following your death. It is the intent of this Agreement to comply with, or be exempt from, the requirements of Section 409A so that none of the Restricted Stock Units provided under this Agreement or shares of Common Stock issuable thereunder will be subject to the additional tax imposed under Section 409A, and any ambiguities herein will be interpreted to so comply or be exempt. For purposes of this Agreement, “Section 409A” means Section 409A of the Internal Revenue Code of 1986, as amended, and any proposed, temporary or final Treasury Regulations and Internal Revenue Service guidance thereunder, as each may be amended from time to time.

14. Transactions.

(a) **Section 409A Change of Control.** In the event of a Transaction that qualifies as a change in the ownership or effective control of the Company or a change in the ownership of a substantial portion of the Company's assets, each within the meaning of Section 409A (each, a "409A Change of Control"):

(i) **Following Share Deferral.** If you have elected to defer receipt of your shares of Common Stock such that this Award is subject to Section 409A:

(x) **Vested Deferred Shares.** With respect to the then-vested but deferred shares of Common Stock subject to this Award, if the Award is not assumed or substituted for as provided in Section 17 of the Plan, your shares of Common Stock (or the per share consideration received by a majority of the holders of such Common Stock in such Transaction) payable to you in connection with this portion of the Award will be delivered to you as soon as practicable following the date on which such Transaction is consummated, within sixty (60) days of the consummation of the Transaction (or, if required for compliance with Section 409A, in accordance with the applicable deferral election and the provisions hereof that apply thereunder), subject to Section 13 hereof.

(y) **Unvested Restricted Stock Units.** With respect to then-unvested Restricted Stock Units subject to this Award, if such portion of the Award is not assumed or substituted for as provided in Section 17 of the Plan, such portion of the Award will vest 100% immediately prior to its termination pursuant to Section 17 of the Plan, and your shares of Common Stock (or the per share consideration received by a majority of the holders of such Common Stock in such Transaction) payable to you in connection with this portion of the Award will be delivered to you as soon as practicable following the date on which such Transaction is consummated, within sixty (60) days of the consummation of the Transaction (or, if required for compliance with 409A, in accordance with the applicable deferral election and the provisions hereof that apply thereunder), subject to Section 13 hereof.

If the Award is assumed or substituted for as provided in Section 17 of the Plan, such portion of the Award shall continue to vest (or remain outstanding if already vested) in accordance with the terms of this Agreement and the Plan and be delivered to you in accordance with the applicable deferral election and the provisions hereof that apply thereunder (subject to Section 13 hereof).

(ii) **Retirement Eligibility.** If this Award is subject to Section 409A by reason of your Retirement eligibility or any other reason, and you have not elected to defer receipt of your shares of Common Stock, then with respect to then-unvested Restricted Stock Units subject to this Award:

(x) If such portion of the Award is not assumed or substituted for as provided in Section 17 of the Plan, such portion of the Award will vest 100% immediately prior to its termination pursuant to Section 17 of the Plan, and all the shares of Common Stock (or the per share consideration received by a majority of the holders of such Common Stock in such Transaction) payable to you in connection with this portion of the Award will be delivered to you as soon as practicable following the date on which such Transaction is consummated, within sixty (60) days of the consummation of the Transaction (or, if required for compliance with Section 409A, on the same dates specified under the terms of this Agreement including, but not limited to, Sections 2 and 3 hereof), subject to Section 13 hereof.

(y) If such portion of the Award is assumed or substituted for as provided in Section 17 of the Plan, such portion of the Award shall continue to vest in accordance with the terms of this Agreement and the Plan and be delivered to you on the same dates specified under the terms of this Agreement (including, but not limited to Sections 2, 3 and 13 hereof).

(iii) **Following Both Share Deferral and Retirement Eligibility.** If your Award is subject to Section 409A by reason of your Retirement eligibility and you have elected to defer receipt of your shares of Common Stock, such that this Award is subject to Section 409A, the provisions of Section 14(a)(i) (“Section 409A Change of Control – Following Share Deferral”) shall apply.

(iv) **No Deferral or Retirement Eligibility.** If you are not eligible for Retirement such that your Award is not subject to Section 409A and have not elected to defer receipt of your shares of Common Stock, and this Award is otherwise exempt from Section 409A, the then-unvested Restricted Stock Units subject to this Award will be treated pursuant to Section 17 of the Plan, subject to the provisions of Section 13 hereof.

(b) **Non-Section 409A Change of Control.** In the event of a Transaction that does not qualify as a 409A Change of Control:

(i) **Following Share Deferral.** If you have elected to defer receipt of your shares of Common Stock such that this Award is subject to Section 409A:

(x) **Vested Deferred Shares.** With respect to the then-vested but deferred shares of Common Stock subject to this Award, regardless of whether such portion of the Award is or is not assumed or substituted for as provided in Section 17 of the Plan, the shares of Common Stock (or the per share consideration received by a majority of the holders of such Common Stock in such Transaction) payable to you in connection with this portion of the Award will be delivered to you on the same dates specified in your deferral election and the provisions hereof that apply thereunder (subject to Section 13 hereof).

(y) **Unvested Restricted Stock Units.** With respect to then-unvested Restricted Stock Units subject to this Award:

(1) If such portion of the Award is not assumed or substituted for as provided in Section 17 of the Plan, such portion of the Award will vest 100% immediately prior to its termination pursuant to Section 17 of the Plan, but the shares of Common Stock (or the per share consideration received by a majority of the holders of such Common Stock in such Transaction) payable to you in connection with this portion of the Award will be delivered to you on the same dates specified in your deferral election and the provisions hereof that apply thereunder (subject to Section 13 hereof), in each case regardless of any acceleration of the vesting of such Restricted Stock Units which may occur in connection with the Transaction.

(2) If such portion of the Award is assumed or substituted for as provided in Section 17 of the Plan, such portion of the Award shall continue to vest in accordance with the terms of this Agreement and the Plan and be delivered to you in accordance with the applicable deferral election and the provisions hereof that apply thereunder (subject to Section 13 hereof).

(ii) **Retirement Eligibility.** If this Award is subject to Section 409A by reason of your Retirement eligibility or any other reason, and you have not elected to defer receipt of your shares of Common Stock, then with respect to then-unvested Restricted Stock Units subject to this Award:

(x) If such portion of the Award is not assumed or substituted for as provided in Section 17 of the Plan, such portion of the Award will vest 100% immediately prior to its termination

pursuant to Section 17 of the Plan, but the shares of Common Stock (or the per share consideration received by a majority of the holders of such Common Stock in such Transaction) payable to you in connection with this portion of the Award will be delivered to you on the same dates specified under the terms of this Agreement (including, but not limited to Sections 2, 3 and 13 hereof), regardless of any acceleration of the vesting of such Restricted Stock Units which may occur in connection with the Transaction.

(y) If such portion of the Award is assumed or substituted for as provided in Section 17 of the Plan, such portion of the Award shall continue to vest in accordance with the terms of this Agreement and the Plan and, regardless of any acceleration of the vesting of such Restricted Stock Units which may occur in connection with the Transaction, be delivered to you on the same dates specified under the terms of this Agreement (including, but not limited to Sections 2, 3 and 13 hereof).

(iii) **Following Both Share Deferral and Retirement Eligibility.** If this Award is subject to Section 409A by reason of your Retirement eligibility and you have elected to defer receipt of your shares of Common Stock, such that this Award is subject to Section 409A, the provisions of Section 14(b)(i) (“Non-Section 409A Change of Control – Following Share Deferral”) shall apply.

(iv) **No Deferral or Retirement Eligibility.** If you are not eligible for Retirement such that your Award is not subject to Section 409A and have not elected to defer receipt of your shares of Common Stock, and this Award is otherwise exempt from Section 409A, the then-unvested Restricted Stock Units subject to this Award will be treated pursuant to Section 17 of the Plan, subject to the provisions of Section 13 hereof.

15. Governing Law and Venue. The Award and the provisions of this Agreement are governed by, and subject to, the laws of the State of California without regard to the conflict of law provisions, as provided in the Plan. Further, for purposes of any action, lawsuit or other proceedings brought to enforce this Agreement, relating to it, or arising from it, the parties hereby submit to and consent to the sole and exclusive jurisdiction of the courts of San Francisco County, California, or the federal courts for the United States for the Northern District of California, and no other courts, where this grant is made and/or to be performed.

16. Electronic Delivery and Acceptance. The Company may, in its sole discretion, decide to deliver any documents related to current or future participation in the Plan by electronic means. You hereby consent to receive such documents by electronic delivery and agree to participate in the Plan through an on-line or electronic system established and maintained by the Company or a third party designated by the Company.

17. Severability and Waiver. The provisions of this Agreement are severable and if any one or more provisions are determined to be illegal or otherwise unenforceable, in whole or in part, the remaining provisions shall nevertheless be binding and enforceable. Further, you acknowledge that a waiver by the Company of breach of any provision of this Agreement shall not operate or be construed as a waiver of any other provision of this Agreement, or of any subsequent breach by you or any other Plan participant.

18. Imposition of Other Requirements. The Company reserves the right to impose other requirements on your participation in the Plan, on the Award and on any shares of Common Stock acquired under the Plan, to the extent the Company determines it is necessary or advisable for legal or administrative reasons, and to require you to sign any additional agreements or undertakings that may be necessary to accomplish the foregoing.

19. No Advice. The Company is not providing any tax, legal or financial advice, nor is the Company making any recommendations regarding your participation in the Plan or your acquisition or sale of Common Shares. You are hereby advised to consult with your own personal tax, legal and financial advisors regarding your participation in the Plan before taking any action related to the Plan.

20. Language. If Employee has received this Agreement or any other document related to the Plan translated into a language other than English and if the translated version is different than the English version, the English version will control.

21. **Country-Specific Appendix.** Notwithstanding any provisions in this Agreement or the Plan, the grant of Restricted Stock Units shall be subject to any special terms and conditions as set forth in the Appendix to this Agreement for your country of residence. Moreover, if you relocate to one of the countries included in the Appendix, the special terms and conditions for such country will apply to you to the extent the Company determines that the application of such terms and conditions is necessary or advisable in order to comply with local law or facilitate the administration of the Plan. The Appendix constitutes part of this Agreement.
