## Alerian Announces Real-Time Launch of the Alerian Size Indices

3/21/2016

DALLAS, March 21, 2016 /PRNewswire/ -- Alerian announced today the real-time launch of the Alerian Size Indices, composed of the Alerian Large Cap MLP Index (AMLI), Alerian Mid Cap MLP Index (AMMI), and Alerian Small Cap MLP Index (AMSI). The three indices, which will be disseminated real-time on a price-return basis and on a total-return basis, will capture more than 99% of total energy Master Limited Partnership (MLP) market capitalization.

"With the number of energy MLPs more than doubling and their collective market capitalization quintupling over the past 10 years, interest in grouping these securities in different ways has also taken off," said Alerian President and CEO Kenny Feng. "In the same way that the Energy MLP Classification Standard (EMCSSM) enables stakeholders to better evaluate sector exposure, the Alerian Size Indices will provide investors, management teams, and analysts with an additional research and assessment tool based on company size."

## About Alerian

Alerian equips investors to make informed decisions about Master Limited Partnerships (MLPs) and energy infrastructure. Its benchmarks, including the flagship Alerian MLP Index (AMZ), are widely used by industry executives, investment professionals, research analysts, and national media to analyze relative performance. As of December 31, 2015, over \$14 billion was directly tied to the Alerian Index Series through exchange-traded funds and notes, separately managed accounts, and structured products.
