FORWARD-LOOKING STATEMENTS

Some of the statements in this presentation constitute "forward-looking statements" about Sunoco LP ("SUN", "we", "our, and "us") that involve risks, uncertainties and assumptions, including, without limitation, the expected future performance of SUN (including expected results of operations and financial guidance), and SUN's future financial condition, operating results, strategy and plans. These forward-looking statements generally can be identified by use of phrases such as "believe," "plan," "expect," "anticipate," "intend," "forecast" or other similar words or phrases in conjunction with a discussion of future operating or financial performance. Descriptions of SUN's and its affiliates' objectives, goals, targets, plans, strategies, costs, anticipated capital expenditures, expected cost savings, potential acquisitions and related financial projections are also forward-looking statements.

These statements represent present expectations or beliefs concerning future events and are not guarantees. Such statements speak only as of the date they are made, and we do not undertake any obligation to update any forward-looking statement.

We caution that forward-looking statements involve risks and uncertainties and are qualified by important factors that could cause actual events or results to differ materially from those expressed or implied in any such forward-looking statements. For a discussion of these factors and other risks and uncertainties, please refer to SUN's filings with the Securities and Exchange Commission (the "SEC"), including those contained in SUN's 2017 Annual Report on Form10-K and Quarterly Reports on Form10-Q which are available at the SEC's website at www.sec.gov.

This presentation includes certain non-GAAP financial measures as defined under SEC Regulation G. A reconciliation of those measures to the most directly comparable GAAP measures is provided in this presentation. Adjusted EBITDA is defined as earnings before net interest expense, income taxes, depreciation, amortization and accretion expense, allocated non-cash compensation expense, unrealized gains and losses on commodity derivatives and inventory fair value adjustments, and certain other operating expenses reflected in net income that we do not believe are indicative of ongoing core operations, such as gain or loss on disposal of assets and non-cash impairment charges. We define Distributable Cash Flow, as adjusted, as Adjusted EBITDA less cash interest expense, including the accrual of interest expense related to our long-term debt which is paid on a semi-annual basis, Series A Preferred distribution, current income tax expense, maintenance capital expenditures and other non-cash adjustments.

KEY INVESTMENT HIGHLIGHTS

1 Attractive Fuel Distribution Sector

2 Significant Economies Of Scale

3 Portfolio Of Stable Income Streams

4 Lean Capital And Expense Structure With A Disciplined Financial Strategy

5 Runway Of Diversified Growth

1 & 2 SIGNIFICANT ECONOMIES OF SCALE TO THRIVE IN AN ATTRACTIVE FUEL DISTRIBUTION SECTOR

- **Fuel distribution sector remains robust**
  - Fuel distribution margins have been attractive and stable
  - 2016 and 2017 U.S. gasoline demand was highest on record at 9.3 MBD [(1)]
- **SUN is well positioned to capitalize on sector opportunities**
  - Scale: ~8 billion gallons a year
    - Purchase the majority of fuel at bulk and sell at branded prices
  - Brand Power and Options: Continue to sign up new Sunoco-branded dealers and distributors
    - One of largest distributors of Exxon, Chevron and Valero brands in U.S.
- **SUN's fuel distribution business is a compelling investment in a rising, flat or declining fuel demand environment**
  - Rising
    - Higher fuel demand equates to more gallons sold and more opportunities
  - Flat or Declining
    - Increasing U.S. refining capacity provides support for fuel distribution…SUN remains a large buyer in a well-supplied market
    - SUN's scale provides synergistic acquisition opportunities to further increase our market share

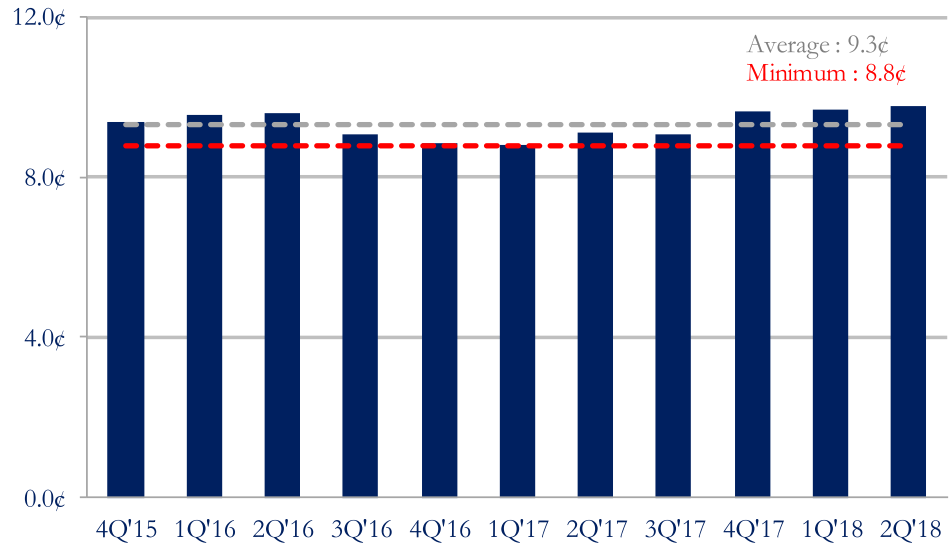
3 PORTFOLIO OF STABLE INCOME STREAMS

Fuel Income

- Historically stable profit margins achieved through:
  - Optimization of margin/volume mix
  - Diversified channels of distribution
    - 7-Eleven: 15-year take or pay
    - Distributors
    - Dealers
    - Commercial accounts
    - Commission agents
    - Other fuel sales (Aloha, turnpikes, transmix)

Historical Trailing Twelve Months Fuel Margins(1)



Stable fuel margins over the last ~3 years

Rental Income

- Stable, long-term income of ~$140 million per year generated through the lease, or sublease, of 940 locations to third-party operators

Other Income

- Includes merchandise income, credit card services, ethanol processing, franchise revenue, and terminals

(1) Fuel margins prior to 2Q'18 are adjusted for impact of 7-Eleven divestment, 7-Eleven fuel supply agreement and the West Texas commission agent agreement

4 LEAN CAPITAL AND EXPENSE STRUCTURE WITH A DISCIPLINED FINANCIAL STRATEGY

Maintain Disciplined Leverage Profile	Distribution Coverage	Balanced Financing Strategy	Capital And Overhead Light Model	Liquidity
Target ~4.5x – 4.75x Leverage Ratio	**Target ~1.1x Distribution Coverage**	**Invest In Projects That Support Leverage And Coverage Targets**	**Maintain Cost Efficient Model Through Growth**	**Maintain Credit Facility Availability And Secured Capacity**
• Manage leverage within the target range on a go forward basis	• Expect to maintain current distribution level	• Projects evaluated using ~50/50 capital structure • Will optimize capital structure on a case-by-case basis and to account for current market conditions	• Right-sized capital and overhead model to allow for modest increases through M&A and organic growth	• Monitor credit facility capacity and access to capital markets • Up to $750 million of additional liquidity through credit facility accordion • Reduced reliance on secured debt provides greater financing flexibility
