

ORGANIGRAM'S LICENSE CAPACITY INCREASED BY HEALTH CANADA

Moncton, New Brunswick, September 22, 2016 – OrganiGram Holdings Inc. (TSX-V: OGI, OTCQB: OGRMF) (the “Company” or “OrganiGram”) is pleased to announce that it has successfully amended its Health Canada licensed sales capacity of dried marijuana to 1,200kg per annum. Additionally, Health Canada also increased OrganiGram’s licensed production and sales capacity for cannabis oils to 500kg per annum.

“OrganiGram has worked cooperatively with patients, physicians, and the regulators to ensure that our clients and counterparties can continue to rely on OrganiGram for the quantity and variety of high quality organic cannabis and cannabis oil products that the market requires. We have made significant recent investments in our team, our facilities, and our product offerings to position the Company for incremental growth and we are pleased that Health Canada has recognized this progress and awarded the increase to our license,” says Denis Arsenault, Chief Executive Officer.

As previously disclosed, OrganiGram is also near completion of its fully funded build out in the existing Moncton facility for up to 3,500 kg of production capacity, which is expected to come online in early November. The Company also recently announced the acquisition of the adjacent property to its existing facility which will provide for significant production and processing infrastructure for the next phase of our expansion. This transaction remains pending and is expected to close before the end of September.

“The Company has formulated an aggressive expansion strategy that will be executed in phases to optimize our production growth, reduce our operating risks, and to deploy capital more efficiently for our shareholders,” says Arsenault.
