

# Padres Pedal the Cause Hosting Recruitment Event at ResMed

ResMed geared up to pass fundraising milestone this November

**SAN DIEGO - August 30, 2018** – Padres Pedal the Cause, an annual multimillion-dollar fundraiser for cancer research, is hosting a team recruitment kickoff today from 12–1 p.m. at ResMed to attract riders, runners, volunteers and donations.

The main “Padres Pedal” fundraising event is actually made up of multiple activities, on Saturday, November 17, all taking place or concluding at Petco Park, including 25-to-100-mile bike rides, spin bike sessions and a 5K walk/run.

In the past five years, Padres Pedal the Cause has raised more than \$7.1 million to fund 42 San Diego-area cancer research collaborations at Moores Cancer Center at UC San Diego Health, Salk Institute for Biological Studies, Sanford Burnham Prebys Medical Discovery Institute, and Rady Children’s Hospital.

Every dollar raised goes directly to research, as the organization’s costs are underwritten by sponsors like ResMed, a third-year Signature-level sponsor.

In addition to its annual sponsorships, ResMed’s Padres Pedal team has raised \$97,428 since 2015, and is looking forward to passing the six-figure mark this fall.

“Cancer has affected all of us in some way, and this is our chance to affect cancer right back – and support local world-class institutions who are leading the search for a cure,” said Team ResMed Co-captain Jeff Becker.

“ResMedians are as generous as we are outgoing, so no doubt, we will respond to today’s call for help. With all the ways you can be involved in this fight against cancer, this is an incredible event and also a great way to spend the day with your loved ones.”

“Padres Pedal is thrilled that so many individuals and organizations like ResMed join us year after year to fund life-saving research happening right here in San Diego,” said Padres Pedal Executive Director Anne Marbarger. “This is a historic time of progress for cancer research, and the funds we raise this year will sustain that momentum until finally a cure is found.”
