FORWARD LOOKING INFORMATION

Cautionary Note Regarding Forward-Looking Statements

Certain statements and information contained in this presentation constitute “forward-looking statements” within the meaning of applicable U.S. securities laws and “forward-looking information” within the meaning of applicable Canadian securities laws, which we refer to collectively as “forward-looking statements”. Forward-looking statements are statements and information regarding possible events, conditions or results of operations that are based upon assumptions about future conditions and courses of action. All statements and information other than statements of historical fact may be forward looking statements. In some cases, forward-looking statements can be identified by the use of words such as “seek”, “expect”, “anticipate”, “budget”, “plan”, “estimate”, “continue”, “forecast”, “intend”, “believe”, “predict”, “potential”, “target”, “may”, “could”, “would”, “might”, “will” and similar words or phrases (including negative variations) suggesting future outcomes or statements regarding an outlook.

Forward-looking statements in this presentation include, but are not limited to statements in respect of: the Company’s anticipated gold production in 2020; the sources of the Company’s gold production in 2020; the Company’s expectations with respect to operating, production, capital, exploration and other costs in 2020; the mineral reserves and resources at the AGM; the estimated mine life of and total production at, the AGM; the Company’s ability to increase and/or replace reserves and resources at the AGM through exploration and development; the Company’s anticipated cash position and cash management practices, including the benefits of its share buy-back program, the Company’s ability to generate free cash flow and the Company’s ability to maintain a strong balance sheet; the Company’s expectations and plans with respect to cost reduction, including the magnitude by which the Company expects to reduce costs; the Company’s production, operating and exploration plans, including its ability to replace depletion, locate alternative mining sources and identify transformational targets; the completion of Nkran Cut 2 and the commencement of Nkran Cut 3; the Company’s ability to create and maintain a sustainable business; the Company’s name change to Galiano Gold Inc.; the Company’s ability to create and sustain long-term value for shareholders; and the Company’s approach to environmental and social governance, including statements with respect to the Company’s ability to minimize and remediate its environmental impact, the Company’s impact on the community, and the nature of the Company’s governance and business practices. Such forward-looking statements are based on a number of material factors and assumptions, including, but not limited to: the ability of the AGM to continue to operate during the COVID-19 pandemic; that gold production and other activities will not be curtailed as a result of the COVID-19 pandemic or otherwise; that the AGM will be able to continue to ship doré from the AGM site to be refined; that the doré produced by the AGM will continue to be able to be refined at similar rates and costs to the AGM, or at all; that the other current or potential future effects of the COVID-19 pandemic on the Company’s business, operations and financial position, including restrictions on the movement of persons (and in particular, the AGM’s workforce), restrictions on business activities, including access to the AGM, restrictions on the transport of goods, trade restrictions, increases in the cost of necessary inputs, reductions in the availability of necessary inputs and productivity and operational constraints, will not impact its 2020 production and cost guidance; that the Company’s and the AGM’s responses to the COVID-19 pandemic will be effective in continuing its operations in the ordinary course; that gold will be produced at the AGM at the rates and in the manner projected by the Company; the accuracy of the estimates and assumptions underlying the Mineral Resource and Mineral Reserve estimates, including future gold prices, cut-off grades and production and processing estimates; the discovery and successful development of new mineral resources and reserves by the Company; the successful operation of the AGM in the manner projected by management and the successful completion of development and exploration projects, planned expansions or other projects within the timelines anticipated and at anticipated production levels; that existing mineral resources can be developed as planned; that the Company’s relationship with joint venture partners will continue to be positive and beneficial to the Company; interest and exchange rates; that required financing and permits will be obtained; the success of the Company’s capital management and cost reduction strategies and that the impacts of such capital management strategies will be effective; general economic conditions; that labour disputes or disruptions, flooding, ground instability, geotechnical failure, fire, failure of plant, equipment or processes to operate are as anticipated and other risks of the mining industry will not be encountered; that contracted parties provide goods or services in a timely manner; that there is no material adverse change in the price of gold or other metals; competitive conditions in the mining industry; title to mineral properties; costs; taxes; the retention of the Company’s key personnel; changes in laws, rules and regulations applicable to Galiano; and that shareholders will approve the Company’s name change to Galiano Gold Inc. and that the Company will be able to successfully implement the name change.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to differ materially from those anticipated in such forward-looking statements. The Company believes the expectations reflected in such forward-looking statements are reasonable, but no assurance can be given that these expectations will prove to be correct and you are cautioned not to place undue reliance on forward-looking statements contained herein. Some of the risks and other factors which could cause actual results to differ materially from those expressed in the forward-looking statements contained in this presentation, include, but are not limited to: the Company’s and/or the AGM’s operations may be curtailed or halted entirely as a result of the COVID-19 pandemic, whether as a result of governmental or regulatory law or pronouncement, or otherwise; that the doré produced at the AGM may not be able to be refined at expected levels, on expected terms or at all; that the Company and/or the AGM will experience increased operating costs as a result of the COVID-19 pandemic; that the AGM may not be able to source necessary inputs on commercially reasonable terms, or at all; the Company’s and the AGM’s responses to the COVID-19 pandemic may not be successful in continuing its operations in the ordinary course; mineral reserve and resource estimates may change and may prove to be inaccurate; life of mine estimates are based on a number of factors and assumptions and may prove to be incorrect; AGM has a limited operating history and is subject to risks associated with establishing new mining operations; sustained increases in costs, or decreases in the availability, of commodities consumed or otherwise used by the Company may adversely affect the Company; actual production, costs, returns and other economic and financial performance may vary from the Company’s estimates in response to a variety of factors, many of which are not within the Company’s control; adverse geotechnical and geological conditions (including geotechnical failures) may result in operating delays and lower throughput or recovery, closures or damage to mine infrastructure; the ability of the Company to treat the number of tonnes planned, recover valuable materials, remove deleterious materials and process ore, concentrate and tailings as planned is dependent on a number of factors and assumptions which may not be present or occur as expected; the Company’s operations may encounter delays in or losses of production due to equipment delays or the availability of equipment; the Company’s operations are subject to continuously evolving legislation, compliance with which may be difficult, uneconomic or require significant expenditures; the Company may be unsuccessful in attracting and retaining key personnel; labour disruptions could adversely affect the Company’s operations; the Company’s business is subject to risks associated with operating in a foreign country; risks related to the Company’s use of contractors; the hazards and risks normally encountered in the exploration, development and production of gold; the Company’s operations are subject to environmental hazards and compliance with applicable environmental laws and regulations; the Company’s operations and workforce are exposed to health and safety risks; unexpected costs and delays related to, or the failure of the Company to obtain, necessary permits could impede the Company’s operations; the Company’s title to exploration, development and mining interests can be uncertain and may be contested; the Company’s properties may be subject to claims by various community stakeholders; risks related to limited access to infrastructure and water; the Company’s exploration programs may not successfully expand its current mineral reserves or replace them with new reserves; the Company’s common shares may experience price and trading volume volatility; the Company’s revenues are dependent on the market prices for gold, which have experienced significant recent fluctuations; the Company may not be able to secure additional financing when needed or on acceptable terms; Company shareholders may be subject to future dilution; risks related to changes in interest rates and foreign currency exchange rates; changes to taxation laws applicable to the Company may affect the Company’s profitability and ability to repatriate funds; the Company’s primary asset is held through a joint venture, which exposes the Company to risks inherent to joint ventures, including disagreements with joint venture partners and similar risks; risks related to the Company’s internal controls over financial reporting and compliance with applicable accounting regulations and securities laws; the carrying value of the Company’s assets may change and these assets may be subject to impairment charges; the Company may be liable for uninsured or partially insured losses; the Company may be subject to litigation; the Company may be unsuccessful in identifying targets for acquisition or completing suitable corporate transactions, and any such transactions may not be beneficial to the Company or its shareholders; the Company must compete with other mining companies and individuals for mining interests; and risks related to information systems security threats.

Although the Company has attempted to identify important factors that could cause actual results or events to differ materially from those described in the forward-looking statements, you are cautioned that this list is not exhaustive and there may be other factors that the Company has not identified. Furthermore, the Company undertakes no obligation to update or revise any forward-looking statements included in, or incorporated by reference in, this presentation if these beliefs, estimates and opinions or other circumstances should change, except as otherwise required by applicable law.

All numbers presented for the AGM on 100% basis, unless otherwise stated. The AGM is 50:50 Joint Venture with Gold Fields, Galiano is the operator. All dollar amounts US\$ unless otherwise stated.

CREATING A SUSTAINABLE BUSINESS – GALIANO GOLD¹

Unlocking the full value of the Asanko Gold Mine

Delivering responsible gold production in West Africa

Building a strong corporate brand to empower resource sector

Generating FCF and maintaining solid balance sheet

Underpinned by cost reduction initiative and conservative capital structure

Refreshed Board and Management

Building on a strong ESG foundation

On Track to Meet 2020 Guidance

(1) Name change approved by shareholders at the Annual General and Special Meeting of Shareholders on April 30, 2020

GALIANO AT A GLANCE

ESG APPROACH

VISION

Creating a sustainable business capable of long-term value creation for our stakeholders

ENVIRONMENT

Managing, minimizing and mitigating our environmental impact and remediating any disturbances caused by operations

- Maximize our energy efficiency
- Lower our GHG emissions
- Minimize water use

SOCIAL

Engaging and respecting our local communities to create self-sustaining legacies

- Improve healthcare services
- Strengthen literacy
- Broaden access to finance
- Improve community sanitation

GOVERNANCE

Practicing sound corporate governance and ethical business

- Ethical Business Conduct
- Occupational Health & Safety
- Diversity
- Refreshing Board of Directors
- Performance driven compensation

Asanko Gold Ghana
2018 & 2019 Winner
Mining Company of the Year
Ghana Mining Industry Awards

BUILDING CASH WITH NO DEBT OUTSTANDING

- **Asanko Gold Mine Joint Venture (AGM JV) (100%)**
 - Free cash flow continuously improved over 2019
 - Distributed \$65M cash to JV partners over last two quarters
 - Increased working capital in Q1 2020 of \$19.5M
 - Investment in critical inventory in response to COVID-19, stockpiles and receivables
- **Galiano – strong balance sheet, building cash, no debt**
 - Received final \$20M payment from Gold Fields in 2019
 - Distributions from JV:
 - Q4 2019 \$10.0M
 - Q1 2020 \$22.5M
- **Return of capital through share buy-back – investment option with risk-adjusted return**
 - Commenced a normal course issuer bid in Nov. 2019
 - Ability to buy back up to 5% of outstanding common shares
 - Re-purchased 3.5M shares (value \$3.0M) as of Mar. 31, 2020 at an average price of \$0.84 per share

AGM JV (100%) – Cash Flow from Operations and Free Cash Flow⁽²⁾

Galiano Cash & Receivable Balance

(1) Refer to Appendix A for non-GAAP financial measures

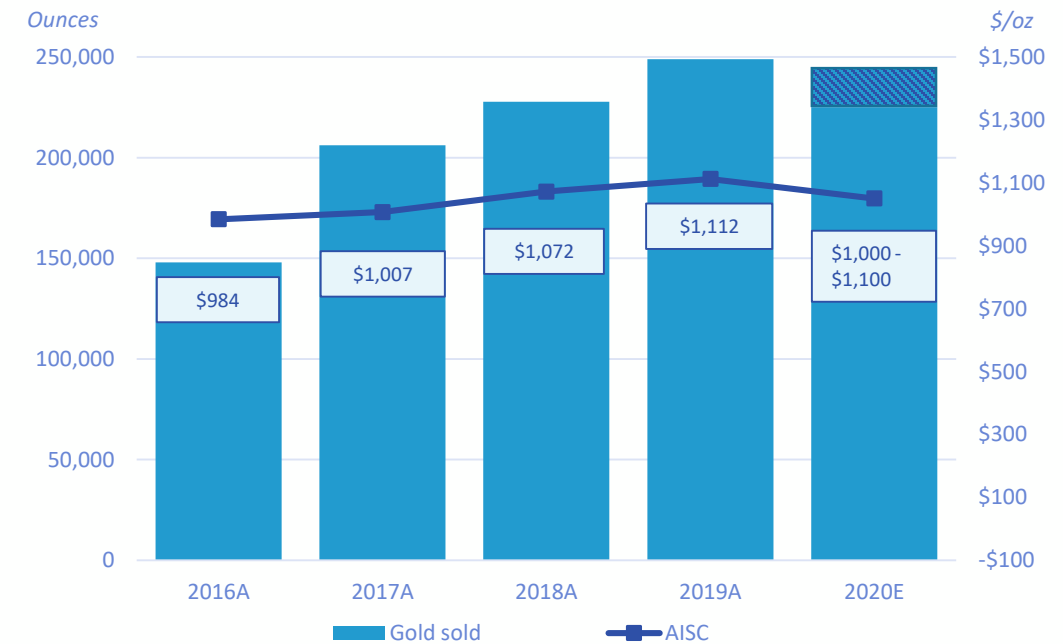

(2) Unaudited cash and receivable balance as of Mar. 31, 2019, Jun. 30, 2019, Sep. 30, 2019 and Mar. 31, 2020

FOCUS ON FREE CASH FLOW GENERATION IN 2020

ASANKO GOLD MINE GUIDANCE 2020 (100%)

- **Gold production: 225,000 – 245,000 ounces**
 - Ore sourced from Cut 2 at Nkran, Esaase, Akwasiso and stockpiles
- **AISC⁽¹⁾: \$1,000 - \$1,100/oz**
 - Launched major cost reduction program targeting a reduction of costs by \$100/oz per year
 - Retendering of existing mining & haulage contracts
 - Optimization of all capital expenditures
 - Assessment of energy inputs
 - Optimizing crushing, ore re-handling and plant throughput
- **Development Capital: \$24 million**
 - Tetrem village relocation
- **Exploration Spend: \$10 million**
 - Focus on South Camp – Tontokrom-Miradani-Fromenda mineralized trend

Annual Gold Sales and AISC

(1) Refer to Appendix A for non-GAAP financial measures

AGM JV DISTRICT MINERAL RESOURCES & RESERVES⁽¹⁾⁽²⁾

- **M&I Resources of 64.1 Mt @ 1.70 g/t Au = 3.50 Moz Au**

- Measured Resources (stockpiles) of 2.3Mt @ 0.76 g/t Au = 0.06 Moz Au ; Indicated Resources of 61.7Mt @ 1.74 g/t gold = 3.45 Moz Au

- **P&P Reserves of 53.4 Mt at 1.38 g/t gold = 2.38 Moz Au**

- Proven Reserves (stockpiles) of 2.3Mt @ 0.76 g/t Au = 0.06 Moz Au; Probable Reserves of 51.1Mt @1.41 g/t gold = 2.32 Moz Au

- **Mine Life of 10 years with 2.1 Moz of gold production**

Esaase Camp

- P&P reserves⁽¹⁾ 33.6 Mt @ 1.35 g/t Au = 1.45 Moz Au
- Ore is trucked 27km via haul road to Nkran processing plant (5.4Mt/annum)

Obotan Camp (Nkran Processing Plant)

- P&P reserves⁽¹⁾ 19.7 Mt @ 1.46 g/t Au = 0.92 Moz Au
- Nkran Cut 2 depleted in Q2 2020, Cut 3 scheduled in late 2022
- 2020 exploration targeting reserve replacement through expansion at Akwasiso and Abore

South Camp

- Mining lease with no stated Reserves or Resources
- Main focus of 2020 exploration plan
- Targeting additional LOM resources from well defined high priority exploration targets

(1) Esaase Camp contains only probable reserves and the Obotan Camp contains both proven (stockpiles) and probable reserves of 2.3Mt @ 0.76 g/t gold = 0.06 Moz Au. Refer to Appendix D for full mineral resource and mineral reserve information
 (2) Mineral Resources are reported inclusive of Mineral Reserves. Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability. The Mineral Resources may be materially affected by environmental, permitting, legal, title, taxation, socio-political, marketing, or other relevant issues including but not limited to those noted under Cautionary Note Regarding Forward-Looking Statements in Appendix C.

RE-INVIGORATED EXPLORATION PROGRAM

Exploration Objectives

- 1) **Near term** – to replace depletion from mining activity in 2020 and 2021
- 2) **Medium term** – to improve the business plan for 2023 to 2026 by delineating Mineral Reserves by the end of 2022 that have superior economics (return on invested capital) to Cut 3 at Nkran
- 3) **Longer term** – to advance exploration targets +1 million ounce potential to be in production by 2027 to replace Esaase

Initial Drilling Program - 2020

- **Replacing depletion and improving five-year business plan**
 - 5 drill rigs expected to drill approximately 36,000 meters of diamond drilling and reverse circulation drilling during Q2 & Q3 2020
 - Nine high priority targets will be tested
 - Following completion additional drilling programs for Q3 & Q4 2020 will be designed based on the outcomes of the initial program

CREATING SHAREHOLDER VALUE

- Clear strategy focused on generating free cash flow and maintaining solid balance sheet
- Exploration opportunity on under-explored land package of over 21,000 hectares
- Cost reduction initiative underway to drive down costs by approximately \$100/oz
- Refreshed Board and Management
- Building on a strong ESG foundation

APPENDICES

APPENDIX A - FOOTNOTES

Note 1: Guidance projections used in this document (“Guidance”) are considered “forward-looking statements” and represent management’s good faith estimates or expectations of future production results as of the date hereof. Guidance is based upon certain assumptions, including, but not limited to, metal prices, oil prices, certain exchange rates and other assumptions. Such assumptions may prove to be incorrect and actual results may differ materially from those anticipated. Consequently, Guidance cannot be guaranteed. As such, investors are cautioned not to place undue reliance upon Guidance and forward-looking statements as there can be no assurance that the plans, assumptions or expectations upon which they are placed will occur.

Note 2: The Company has included certain non-GAAP performance measures throughout this presentation. These performance measures are employed by management to assess the Company’s operating and financial performance and to assist in business decision-making. The Company believes that, in addition to conventional measures prepared in accordance with GAAP, certain investors and other stakeholders use this information to evaluate the Company’s operating and financial performance; however, as explained elsewhere herein, these non-GAAP performance measures do not have any standardized meaning. Accordingly, these performance measures are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

Note 3: In June 2013, the World Gold Council (“WGC”), a non-regulatory association of many of the world’s leading gold mining companies established to promote the use of gold to industry, provided guidance for the calculation of “all-in sustaining costs per gold ounce” in an effort to encourage improved understanding and comparability of the total costs associated with mining an ounce of gold. The Company has adopted the reporting of “all-in sustaining costs per gold ounce”, which is a non-GAAP performance measure. The Company believes that the all-in sustaining costs per gold ounce measure provides additional insight into the costs of producing gold by capturing all of the expenditures required for the discovery, development and sustaining of gold production and allows the Company to assess its ability to support capital expenditures to sustain future production from the generation of operating cash flows. The Company believes that, in addition to conventional measures prepared in accordance with IFRS, some investors use this information to evaluate the JV’s performance and ability to generate cash flow, disposition of which is subject to the terms of the JVA. Accordingly, it is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. Other companies may calculate all-in sustaining costs per ounce differently. The JV does not calculate this information for use by both JV partners, rather it is calculated by the Company solely for the Company’s own disclosure purposes. See below for reconciliations of AISC of the AGM to various operating expenses of the AGM on a 100% basis (the nearest GAAP measures), as presented in the notes to the condensed consolidated annual financial statements of the Company.

(in thousands of US dollars except per ounce amounts)	Year ended ⁽¹⁾			
	Dec. 31, 2019	Dec. 31, 2018	Dec. 31, 2017	Dec. 31, 2016
Total cash costs	210,392	170,923	127,379	96,987
General & Administrative expenses – JV ⁽²⁾	6,341	8,609	11,117	8,844
Sustaining capital expenditures	6,442	3,892	8,447	3,727
Sustaining capitalized stripping costs ⁽³⁾	37,075	59,769	59,915	35,952
Reclamation cost accretion	903	888	650	124

(1) Excluded from the G&A costs of the AGM is non-cash share-based compensation expense of \$200k for the three months ended March 31, 2020 (Mar. 31, 2019 - \$16k, Jun. 30, 2019 - \$39k, Sept. 30, 2019 – 75k, Dec. 31, 2019 - \$78k)

APPENDIX A – FOOTNOTES CONT'D

Note 4: Free cash flow is a non-GAAP performance measure which the Company believes, in addition to conventional measures prepared in accordance with GAAP, the Company and certain investors use to evaluate the Company's ability to generate cashflows. Accordingly, it is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. Free Cash Flow is calculated as cash flows from operating activities of the JV adjusted for cash flows associated with sustaining and non-sustaining capital expenditures and payments made to mining contractors for leases capitalized under IFRS 16. The following table provides a reconciliation of Free Cash Flow of the AGM to its cash flows from operating activities on a 100% basis (the nearest GAAP measures), as presented in the notes to the consolidated annual financial statements of the Company for the year ended December 31, 2019 and the interim financial statements of the Company for the quarters ended March 31, 2020, September 30, 2019, June 30, 2019 and March 31, 2019.

(in thousands of US dollars)	Three months ended				
	Mar. 31, 2020	Dec. 31, 2019	Sep. 30, 2019	Jun. 30, 2019	Mar. 31, 2019

Gold produced	oz	60,425	62,067	62,440	66,112	66,333

APPENDIX C - CAUTIONARY NOTE

Cautionary Note to United States Investors Regarding Mineral Reporting Standards:

*As a British Columbia corporation and a "reporting issuer" under Canadian securities laws, the Company is required to provide disclosure regarding its mineral properties, including the AGM, in accordance with Canadian National Instrument 43-101 Standards of Disclosure for Mineral Projects ("NI 43-101"). NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. In accordance with NI 43-101, the Company uses the terms mineral reserves and resources as they are defined in accordance with the CIM Definition Standards on mineral reserves and resources (the "**CIM Definition Standards**") adopted by the Canadian Institute of Mining, Metallurgy and Petroleum. In particular, the terms "mineral reserve", "proven mineral reserve", "probable mineral reserve", "mineral resource", "measured mineral resource", "indicated mineral resource" and "inferred mineral resource" used in this annual report and the documents incorporated by reference herein are Canadian mining terms defined in accordance with CIM Definition Standards. These definitions differ from the definitions in the disclosure requirements promulgated by the SEC. Accordingly, information contained in this press release may not be comparable to similar information made public by U.S. companies reporting pursuant to SEC disclosure requirements.*

United States investors are also cautioned that while the SEC will now recognize "measured mineral resources", "indicated mineral resources" and "inferred mineral resources", investors should not to assume that any part or all of the mineralization in these categories will ever be converted into a higher category of mineral resources or into mineral reserves. Mineralization described using these terms has a greater amount of uncertainty as to their existence and feasibility than mineralization that has been characterized as reserves. Accordingly, investors are cautioned not to assume that any "measured mineral resources", "indicated mineral resources", or "inferred mineral resources" that the Company reports are or will be economically or legally mineable.

Further, "inferred resources" have a greater amount of uncertainty as to their existence and as to whether they can be mined legally or economically. Therefore, United States investors are also cautioned not to assume that all or any part of the inferred resources exist. In accordance with Canadian rules, estimates of "inferred mineral resources" cannot form the basis of feasibility or other economic studies, except in limited circumstances where permitted under NI 43-101.

APPENDIX D – MINERAL RESOURCE & MINERAL RESERVE ESTIMATE

Mineral Resource Estimate as at December 31, 2019

Deposit	Measured			Indicated			Measured & Indicated Total			Inferred		
	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)

Abore				4.7	1.46	221	4.7	1.46	221	0.9	1.69	48
Asuadai				1.3	1.32	55	1.3	1.32	55	0.0	1.24	2
Adubiaso				1.2	1.88	71	1.2	1.88	71	0.2	1.43	9
Stockpiles	2.3	0.76	57				2.3	0.76	57			
Total	2.3	0.76	57	61.7	1.74	3,447	64.1	1.70	3,504	7.0	1.59	357

Notes:

- Estimated Mineral Resources are reported at a cut-off grade of 0.5 g/t gold and assuming a gold price of US\$1,500/oz.
- Figures are rounded to the appropriate level of precision for the reporting of Mineral Resources.
- Due to rounding, some columns or rows may not compute as shown.
- Estimated Mineral Resources are stated as in situ dry metric tonnes.
- Estimated Mineral Resources are reported inclusive of Estimated Mineral Reserves. Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability. The estimate of Mineral Resources may be materially affected by environmental, permitting, legal, title, taxation, socio-political, marketing, or other relevant issues including but not limited to those noted under Cautionary Note Regarding Forward-Looking Statements.
- The Nkran, Esaase and Akwasiso MREs have been prepared by CSA Global who are independent of the Company. The Abore, Asuadai and Adubiaso MREs have been prepared by the Company and reviewed and accepted by CSA Global.

APPENDIX D CONT'D – MINERAL RESOURCE & MINERAL RESERVE ESTIMATE

Mineral Reserve Estimate as at December 31, 2019

Deposit	Proven			Probable			Proven & Probable Total		
	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)
Nkran				10.9	1.64	577	10.9	1.64	577
Esaase Main				29.1	1.33	1,245	29.1	1.33	1,245
Esaase South				4.5	1.44	210	4.5	1.44	210
Akwasiso				1.9	1.43	87	1.9	1.43	87
Abore				2.8	1.42	127	2.8	1.42	127
Adubiaso				0.8	1.51	38	0.8	1.51	38
Asuadai				1.0	1.12	37	1.0	1.12	37
Stockpiles	2.3	0.76	57				2.3	0.76	57
Total	2.3	0.76	57	51.1	1.41	2,320	53.4	1.38	2,377

Notes:

- Estimated Mineral Reserves are reported assuming a gold price of US\$1,300/oz.
- Estimated Mineral Reserves are defined within pit designs guided by pit shells derived from Whittle Four-X™ software (Whittle).
- Estimated Mineral Reserves are reported based on the maximum of: (a) the calculated marginal cut-off grades for each of the pits ranging between (0.38 - 0.71) g/t gold, and (b) 0.50 g/t gold.
- Figures are rounded to the appropriate level of precision for the reporting of Mineral Reserves. Due to rounding, some columns or rows may not compute as shown.
- Estimated Mineral Reserves are stated as in situ dry metric tonnes.
- The mine plan underpinning the estimated Mineral Reserves has been prepared by Snowden and reviewed and accepted by CSA Global. Both Snowden and CSA Global are independent of the Company.
- No Mineral Reserves have been estimated using estimated Inferred Mineral Resources. The estimate of Mineral Reserves may be materially affected by environmental, permitting, legal, title, taxation, socio-political, marketing, or other relevant issues including but not limited to those noted under Cautionary Note Regarding Forward-Looking Statements.

Qualified Person Statement

The scientific and technical contents in this presentation have been approved by Mr DM Begg, Pr.Sci.Nat., Senior Vice President Technical Services of Galiano Gold Inc., who is a “Qualified Person” as defined by Canadian National Instrument 43-101 (Standards of Mineral Disclosure). Mr. Begg is not independent of Galiano Gold Inc.

The data verification processes applied for the purposes of this presentation are consistent with those described in the Company’s Amended and Restated Definitive Feasibility Study related to the AGM on June 5, 2017 (amended and restated on December 20, 2017).

APPENDIX D - BOARD OF DIRECTORS & MANAGEMENT
