NYSE: Q

Forward Looking Statements and Use of Non-GAAP Financial Measures

This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements reflect, among other things, the Company's current expectations and anticipated results of operations, all of which are subject to known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements, market trends or industry results to differ materially from those expressed or implied by such forward-looking statements. Therefore, any statements contained herein that are not statements of historical fact may be forward-looking statements and should be evaluated as such. Without limiting the foregoing, the words "anticipates," "believes," "estimates," "expects," "intends," "may," "plans," "projects," "should," "guidance," "targets," "will" and the negative thereof and similar words and expressions are intended to identify forward-looking statements. Actual results may differ materially from the Company's expectations due to a number of factors, including that most of the Company's contracts may be terminated on short notice, the Company may be unable to maintain large customer contracts or to enter into new contracts, the Company may under-price its contracts, overrun its cost estimates, or fail to receive approval for or experience delays in documenting change orders; the historical indications of the relationship of backlog to revenues may not be indicative of their future relationship, the complex and changing regulatory and international environments in which the Company operates, the Company may be unable to successfully identify, acquire and integrate businesses, the Company's substantial indebtedness, and other risks more fully set forth in the Company's filings with the SEC, including the Company's annual report on Form 10-K for the fiscal year ended December 31, 2013, filed with the SEC on February 13, 2014, as such factors may be amended or updated from time to time in the Company's periodic filings with the SEC, which are accessible on the SEC's website at www.sec.gov. Unless legally required the Company assumes no obligation to update any forward-looking statement after the date of this presentation, whether as a result of new information, future developments or otherwise.

This presentation includes financial measures not prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). Management believes that these non-GAAP financial measures provide useful supplemental information to management and investors regarding the underlying performance of the Company's business operations and are more indicative of core operating results as they exclude certain items whose fluctuations from period-to-period do not necessarily correspond to changes in the core operations of the Company's business. Investors and potential investors are encouraged to review the reconciliations of the non-GAAP financial measures to their most directly comparable GAAP measures attached to this presentation.

Enterprise Vision and Strategy

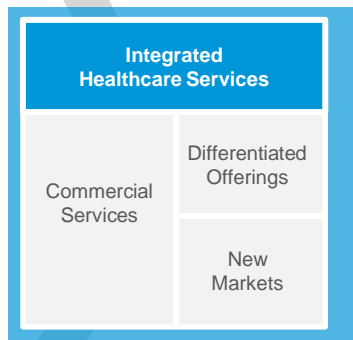

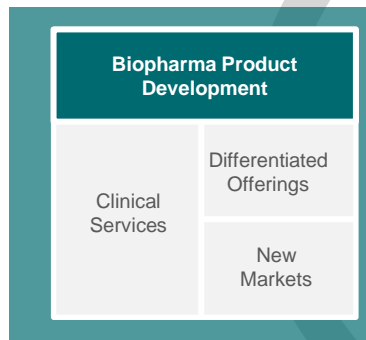

Quintiles Vision

We bring people and knowledge together for a healthier world

Our Customer Promise

“ *Improve your probability of success* ”

Our Strategic Agenda

Profitable growth at above market rates

Lead with investments that leverage our scale and differentiate us (Science, Technology, Global Workforce)

World-class customer relationship management and offerings that provide value to customers

Drive Productivity, Delivery and Quality, and measure our success

Top-quality leadership development and a high-performance workforce

Stability and Long-term Momentum

Consistent Gains Underpinned with a Low Customer Concentration

Adjusted Service Revenues⁽¹⁾

'10 – '13 CAGR = 8.3%

Adjusted EBITDA⁽²⁾

'10 – '13 CAGR = 9.7%

Net New Business

'10 – '13 CAGR = 11.3%

Backlog and Book-to-Bill^(1,4)

(1) See appendix slide 15 for reconciliation of Service Revenues to Adjusted Service Revenues
 (2) See slide 16 for reconciliation of Net Income to Adjusted EBITDA

(3) Margin is defined as Adjusted EBITDA divided by Adjusted Service Revenues as shown on slide 16
 (4) Book-to-bill calculated as NNB divided by Adjusted Service Revenues

Continued Momentum in 2014

Financial Results - Three Months Ended March 31, 2014

FINANCIAL HIGHLIGHTS

8.4% Constant Currency Revenue⁽¹⁾
- 8.6% in Product Development
- 7.9% in Integrated Healthcare Services
- Second sequential billion dollar service revenue quarter

140 bps Adjusted Income from Operations margin⁽¹⁾ expansion

57.8% Adjusted Net Income growth

38.8% Diluted Adjusted EPS growth

OTHER HIGHLIGHTS

1.27x Book-to-bill ratio
- 1.30x in Product Development
- 1.15x in Integrated Healthcare Services

\$10.1bn Total Backlog

\$1.3bn Seven sequential quarters of net new business exceeding \$1.0bn

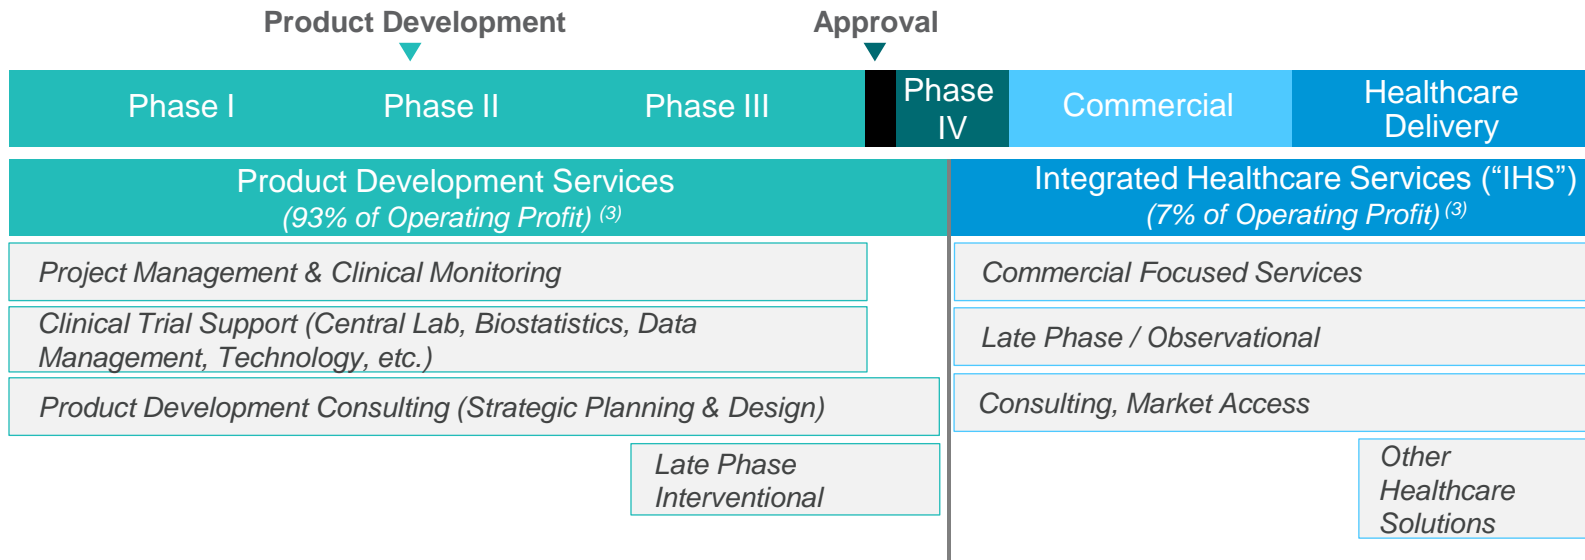

\$741mm Cash and cash equivalents

(1) See appendix slide 19

Attractive and Growing Market

~\$200bn addressable market with growth of 5% - 8% per year from 2013 - 2016

\$93bn Product Development Market⁽¹⁾

- ❖ \$51bn Addressable Phase I-IV Clinical
- ❖ \$19bn Outsourced Phase I-IV Clinical ~37%
- ❖ Outsourced Market penetration is estimated to increase by 200-300 basis points per year approaching 47% outsourced in 2017
- ❖ The central lab market growth rate is estimated at 4.5% - 5% from 2013 – 2016 with an increase in test complexity

\$94bn^(1,2) Integrated Healthcare Services Market

- ❖ \$16bn Outsourced ~17%
- ❖ Market penetration is estimated to increase by 150-200 basis points per year
- ❖ Broad customer interest in variabilizing cost
- ❖ New product launches are expected to increase with the recent increase in NMEs; 27 in '13, 39 in '12, and 30 in '11

(1) Based on Company estimates

(2) Includes market access, reimbursement, observational studies, comparative effectiveness research, health economics & outcomes research, and commercial consulting

(3) Segment Income from Operations

Evolving Biopharma Landscape

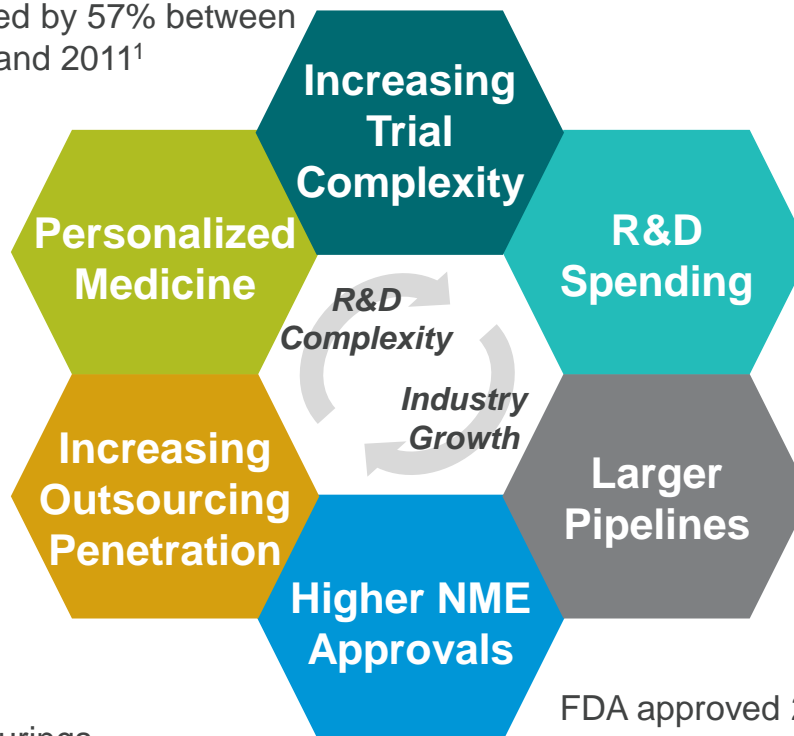

Growth, inefficiency and complexity play to Quintiles' strength

The median number of procedures per trial increased by 57% between 2003 and 2011¹

Over 3,000 ongoing clinical trials involve a biomarker or predictive diagnostic²

Outsourcing is increasing by ~2 percentage points each year³

Biopharma restructurings

R&D spending grew ~1.5%⁴ in 2013 and is forecasted to grow 0%-2% through 2016³

4,060⁶ drugs in the Phase I-III pipeline in 2013, a 19% increase over 2008

FDA approved 27 NMEs in 2013, 39 in 2012, and 30 in 2011. From 2006-2010, the average number of approvals was 22⁵

¹ M. Allison, Reinventing clinical trials, Nature Biotechnology 30, no 1 (2012): 41-49; Median procedures calculated on a three year basis: 2000-2003 and 2008-2011 .

² Decision Resources, November 2013.

³ Based on Company estimates. ⁴EvaluatePharma. ⁵ www.fda.gov. ⁶PharmaProjects, January 2014.

Deep Customer Relationships

Largest Backlog in Industry Providing Consistency, Sustainability and Diversification

Worked with all top 20 biopharma companies in each of last 11 years

All of our top 25 key customers worked with both Quintiles segments: PD and IHS

\$100mm+ service revenues from at least 8 customers in each of past 6 years

~65% of service revenues outside of US

~51% of 2013 net new business from outside the Top 20 Pharma

< 10% of revenues from largest customer – diverse customer base

Worked with **over 500** biopharma customers

C-Level access and relationships

These Relationships Provide Durable Performance Today And Position Quintiles For Increases In Addressable Market Share

The Leader in BioPharma Services

Why We Win = Enhanced Value for Customers

- **Clearly differentiated service offerings**
 - > Improving probability of success
 - > Provided services to develop or commercialize top 50 best selling biopharmaceutical and biologic products from 2012
- **Deepest medical and therapeutic, statistical, and quantitative expertise in the industry**
 - > 950 medical doctors and 900 Ph.D.'s
 - > 14 therapeutic centers of excellence
- **Personalized medicine**
 - > Solutions include the integration of biomarkers and genomics, with novel genomic pre-profiling
- **Focused on real-world cost effectiveness**
 - > Portfolio prioritization and market access consulting capabilities

Leader of innovative models

- > Depth and breadth of service offerings enabled the win of 2 sole provider deals in 2013

Leader in remote (risk-based) monitoring

- > 80+ risk-based monitoring trials across 20,000+ sites
- > ~3,200 employees in Global Delivery Network
- > Award winning technology

Leader in real-world data

- > Implemented > 350 patient registries and post approval programs

Leader in adaptive trial design

Product Development

Accelerating pipelines using science, technology and global delivery

Ph - I

Ph - II

Ph - III

Ph-III B & IV

Product Development Services

- **Core Segment** representing 77% of Consolidated Service Revenues and 93% of Segment Income from Operations⁽¹⁾
- **Market leader in Product Development services**
 - > #1 in Clinical Development / #2 in Central Lab
- **Diversified** customer portfolio across BioPharma segments with tailored segment solutions
- **Integrated** offerings across services and platforms
- **Proactive Business Development**
 - > 1.30 book-to-bill ratio - highest in five sequential quarters
 - > Strong RFP volumes
 - > Evolution of integrated end to end partnership models
 - > Strong wins across Large, Mid-size and Emerging Pharma

(1) For full year 2013.

Integrated Healthcare Services

Improving the probability of commercial success

Phase II & III

Commercial

Healthcare Delivery

Integrated Healthcare Services

- **IHS Segment** represents 23% of Consolidated Service Revenues and 7% of Segment Income from Operations⁽¹⁾
- **IHS includes market leading solutions**
 - > One of the leading outsourced global contract pharmaceutical sales organization
 - > One of the leading observational services organizations
- **Convergence within Healthcare**
 - > IHS solutions are aligned to capitalize on the evolving convergence of patient, payer and provider, solutions to leverage evidence-based insights into commercial strategies to provide an integrated approach
- **Thought Leadership** in consulting and observational research
- **Three consecutive quarters of strong net new business**

Integrated Healthcare Services Offerings

Commercial Services:

- Contract Sales
- Market Entry / Market Exit
- Integrated Channel Management
- Patient Engagement Services
- Market Access & Commercialization Consulting
- Medical Education

Communications & Engagement Services:

- Digital Patient Services
- Brand & Scientific Communications

Real-World and Late Phase Research:

- Observational Studies
- Product and Disease Registries
- Comparative Effectiveness Studies

Other Healthcare Solutions

- Encore

> 120

Launched products in US

> 60mm

De-identified patient records

> 9mm

Patients enrolled in registries

> 450

Clinical Educators

~ 100%

Field based resources trained on compliance programs

(1) For full year 2013.

Transaction

- Announced May 12, 2014
- Capability enhancing transaction

Rationale

- Enhances provider relationships and access to population health market
- Adds EMR and meaningful use capabilities
- Natural supplement to Real World Late Phase business
- Creates opportunity for future product & service offerings

The Business

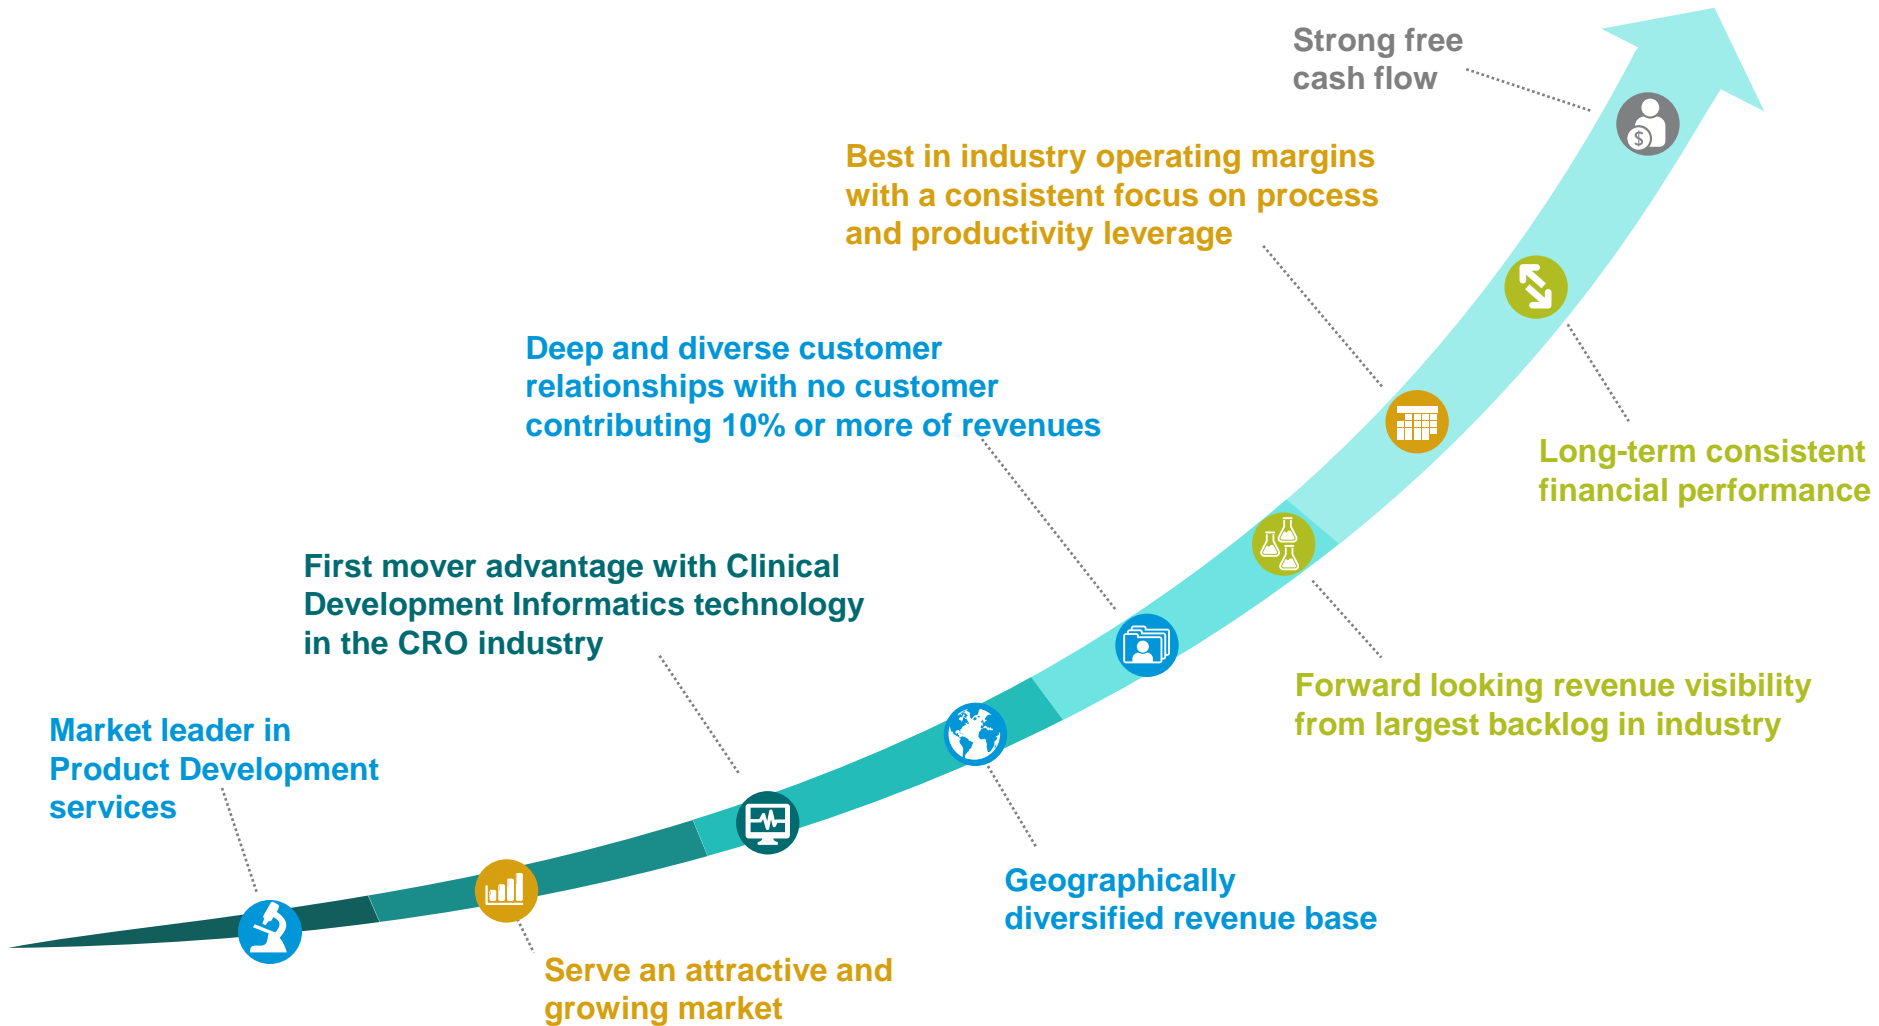

- Experienced and proven management team
- A leader in the EMR implementation and optimization with advisory consulting capabilities and emerging analytics capabilities in hospital quality metrics
- Deep relationships with leading providers such as Tenet Healthcare, Carolinas Healthcare System, Carilion Clinic
- 250 consultants

Integration

- Operating unit with Integrated Healthcare Services segment

Quintiles

An Attractive Investment

The background of the slide is a close-up, high-angle shot of numerous white, round, and oval-shaped pills scattered across a light-colored surface. The lighting is soft, creating subtle shadows and highlights on the smooth surfaces of the pills. The pills are densely packed, filling most of the frame.
