Estimated Unaudited Net Returns

The estimated net return information presented below is being provided to investors in the Sculptor Master Fund, which is managed by subsidiaries of Sculptor Capital Management, Inc. (collectively with all of its subsidiaries, the “Company” or “Sculptor Capital”). The following information is not necessarily indicative of the Company’s anticipated financial results.

	September 2019 Net Return Estimate (1)(2)	September 2019 Year-to-Date Net Return Estimate (2)(3)
Sculptor Master Fund	-0.97%	+8.71%

- (1) Monthly net return is based on management’s estimates as of the date hereof for performance of the Sculptor Master Fund from September 1, 2019 to September 30, 2019. Such data may change upon completion of the Company’s month-end valuation procedures, and any changes could be material.
- (2) Net return represents a composite of the average return of the feeder funds that comprise the Sculptor Master Fund. Net return is presented on a total return basis, net of all fees and expenses (except incentive income on unrealized gains attributable to investments that the Company, as investment manager, determines lack a readily ascertainable fair value, are illiquid or otherwise should be held until the resolution of a special event or circumstance (“Special Investments”) that could reduce returns on such Special Investments at the time of realization) and includes the reinvestment of all dividends and other income. Performance includes realized and unrealized gains and losses attributable to Special Investments and initial public offering investments that are not allocated to all investors in the feeder funds. Investors that were not allocated Special Investments and/or initial public offering investments may experience materially different returns. The performance calculation for the Sculptor Master Fund excludes realized and unrealized gains and losses attributable to currency hedging specific to certain investors investing in Sculptor Master Fund in currencies other than the U.S. Dollar.
- (3) Year-to-date net returns are based on management’s estimates as of the date hereof for the performance of the referenced funds from January 1, 2019 to September 30, 2019. Such data may change upon completion of the Company’s month-end valuation procedures, and any changes could be material.

Estimated Unaudited Assets Under Management

In addition, the Company is disclosing to investors in the investment funds that it manages that, as of October 1, 2019, the estimated unaudited amount of assets under management was approximately \$31.6 billion, which reflects a net decrease of approximately \$1.7 billion since September 1, 2019. The Company’s estimate of assets under management is inclusive of performance for the month ended September 30, 2019 and capital flows from September 2, 2019 through October 1, 2019, which includes approximately \$75.8 million of redemptions by related parties, the majority of which relates to the anticipated redemptions disclosed in the Company’s Form 8-K filed on December 6, 2018, as well as approximately \$57.3 million of distributions to investors in certain funds, and a \$1.1 billion reduction in assets under management resulting from the expiration of the investment period of certain of the Company’s real estate funds. The Company’s estimate of assets under management as of October 1, 2019 does not include the amount from the initial closing of Sculptor Real Estate Fund IV which is expected to occur in October 2019, and will be included in next month’s calculation.

Assets under management includes assets attributable to the Company’s multi-strategy, opportunistic credit, real estate and equity funds, Institutional Credit Strategies products, and other alternative investment vehicles it manages. Management fees and incentive income earned on assets under management may vary depending on the asset class, commitment period, amount of capital committed by investors, and other factors related to a particular fund.
