# Safe Harbor Statement & Non-GAAP Measures

Statements in this presentation contain “forward-looking statements” within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995, including information regarding the Company’s financial outlook, future plans, objectives, business prospects and anticipated financial performance. Forward-looking statements can be identified by words such as “will,” “believe,” “anticipate,” “expect,” “estimate,” “intend,” “plan,” or variations of these words, or similar expressions. These forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on the Company’s current beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, these statements inherently involve a wide range of inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. The Company’s actual actions, results, and financial condition may differ materially from what is expressed or implied by the forward-looking statements.

Specific factors that could cause such a difference on our business, financial position, results of operations and/or liquidity include, without limitation, raw material availability, increases in raw material costs, or other production costs; risks associated with our strategic growth initiatives or the failure to achieve the anticipated benefits of such initiatives; unanticipated downturn in business relationships with customers or their purchases; competitive pressures on sales and pricing; changes in the markets for the Company’s business segments; changes in trends and demands in the markets in which the Company competes; operational problems at our manufacturing facilities or unexpected failures at those facilities; future economic and financial conditions in the United States and around the world, including the impacts of U.S. and foreign tariff policies; inability of the Company to meet future capital requirements; claims, litigation and regulatory actions against the Company; changes in laws and regulations affecting the Company; unforeseen events, including natural disasters, unusual or severe weather events and patterns, public health crises, geopolitical crises, and other catastrophic events; and other risks and uncertainties detailed from time to time in the Company’s filings with the SEC, including without limitation, the risk factors disclosed in Item 1A, “Risk Factors,” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2024. Given these factors, as well as other variables that may affect our operating results, readers should not rely on forward-looking statements, assume that past financial performance will be a reliable indicator of future performance, nor use historical trends to anticipate results or trends in future periods. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date thereof. The Company expressly disclaims any obligation or intention to provide updates to the forward-looking statements and the estimates and assumptions associated with them.

The Company uses certain non-GAAP measures in this presentation. Adjusted operating income (loss), adjusted operating income margin, adjusted earnings before interest, taxes, depreciation and amortization (EBITDA), adjusted EBITDA margin, adjusted net income, adjusted earnings per diluted share (adjusted EPS), and free cash flow are non-GAAP financial measures and are intended to serve as a supplement to results provided in accordance with accounting principles generally accepted in the United States. Myers Industries believes that such information provides an additional measurement and consistent historical comparison of the Company’s performance. A reconciliation of the non-GAAP financial measures to the most directly comparable GAAP measures is available in this news release.

# Material Handling

- Engineer and manufacture a broad range of innovative and sustainable plastic and metal solutions, some with market-leading positions
- Operations in the US and Canada
- Products bring outsized value to customers across numerous industries, including industrial, construction, infrastructure, agricultural, military, automotive, food processing, marine, recreational vehicle, and more
- Products sold directly and through distributors

## Applications

- Light-, medium-, and heavy-duty composite matting
- Trackout composite mats
- Turf protection systems
- Military ammunition containers
- Portable fuel and water containers
- Portable marine tanks
- Seed boxes
- Intermediate bulk containers
- Hand-held containers
- Pallets
- Organizational bins and systems
- Floating docks
- Steel carts and safety cabinets
- RV water and holding tanks
- DEF and diesel fuel tanks

# Distribution

- Nation's largest distributor of tools, equipment and supplies for the tire, wheel, and under-vehicle service industry
- Nationwide sales force and strategically located distribution centers in the US; three locations in Central America
- Serves fleet professionals, tire dealers, auto dealerships, retreaders, and government and school systems
- More than 30,000 SKUs to ensure the safe and reliable movement of products and people
- MTS Xpress: the only mobile app-based system of its kind in the industry for inventory management and streamlined ordering; orders uploaded and shipped with simple barcode scan, often on the same day

## Applications

- Retread
- Tire repair
- Valves
- Wheel weights
- Tire pressure monitoring systems
- Shop tools, supplies, and equipment

Building Credibility Through Accountability, Transparency, and Performance

# Resilient U.S. Supply Chain to Navigate Tariffs

## Myers Manufacturing Locations

Supply chain is predominantly based in the US

- Most materials we purchase are from US suppliers
- 15 of our 16 manufacturing plants are in the US
- More than 90% of 2025 Material Handling revenue is expected to be manufactured in the US; remainder is protected by the USMCA and military exemption
- Less than 15% of Distribution products are sourced from China; plan to use pricing to offset tariff costs

This domestically based supply chain makes us more resilient to tariff-driven disruptions

Expect minimal direct impact from current tariffs

Positioned to provide customers with options for supply chain resiliency to mitigate disruptions

# Our Mission: Protecting Our Troops

## BACKGROUND

- Military historically used wood and steel ammunition packaging
  - Antiquated and heavy, contributing to excess carry load for soldiers and vehicles
  - Includes multiple layers of packaging and dunnage adding complexity and inefficiency
- Reducing the weight burden continues to be mission critical throughout the defense industry
  - 76% of nondeployable soldiers suffered musculoskeletal injuries
  - Saves fuel costs throughout the defense budget

CONVERSION

## COMPETITIVE ADVANTAGE

- Lightweight, recoverable, and reusable solution
  - Up to 41% lighter than steel and wood
  - Contributes to decreased costs throughout the defense budget
- Built in dunnage with no additional packaging layers, reducing weight and waste, and mitigating accident risk

## OUTCOMES

Improves soldier health, deployability rates, and force readiness

Fuel, vehicle maintenance, and healthcare savings

# Our Mission: Protecting Our Athletes

## BACKGROUND

- Turf venue wants to host non-sporting events, expanding functionality and revenue opportunity
- Installing and removing flooring systems damages the turf causing injury to players
- Conversion of space to repurpose venue is time consuming and expensive

## COMPETITIVE ADVANTAGE

- OmniDeck® flooring system withholds weight of heavy machinery, staging, and equipment
- Athletes, coaches, and trainers are assured that field condition remains protected thereby preventing injury
- Lightweight flooring increases operational efficiency, reduces costs, and improves worker safety
- Facilitates venue repurposing, expanding event space flexibility and revenue opportunities

## OUTCOMES

### Injury Prevention

Preserves turf condition  
Decreases weight for installers to carry

### Operational Efficiency

Lightweight, drivable surface reduces installation time

## Financial Results

# Q1 Highlights

|                           |                    |
|---------------------------|--------------------|
| Net Sales                 | \$206.8M<br>(0.2)% |
| Gross Profit              | \$69.1M<br>+7.5%   |
| Adjusted Operating Income | \$18.7M<br>+12.2%  |
| Adjusted Net Income       | \$8.4M<br>+5.5%    |
| Diluted Adjusted EPS      | \$0.22<br>+4.8%    |

Revenue essentially flat Y/Y as Material Handling growth was offset by lingering Distribution softness

- Positive Signature contribution and Industrial sales growth
- Seasonal Food & Beverage decline

Margins improved on favorable product mix, lower material and manufacturing costs, and lower SG&A as percent of sales

‘Focused Transformation’ Driving Culture of Performance

# Q1 Financial Performance

| (In \$ millions except EPS)  | Q1 2025 | Q1 2024 | % Change |
|------------------------------|---------|---------|----------|
| Net Sales                    | \$206.8 | \$207.1 | -0.2%    |
| Adj. Gross Profit            | \$69.2  | \$67.6  | 2.3%     |
| <i>Adj. Gross Margin</i>     | 33.5%   | 32.7%   | +80 bps  |
| Adj. Op Income               | \$18.7  | \$16.6  | 12.2%    |
| <i>Adj. Op Income Margin</i> | 9.0%    | 8.0%    | +100 bps |
| Adj. EBITDA                  | \$28.6  | \$25.1  | 13.7%    |
| <i>Adj. EBITDA Margin</i>    | 13.8%   | 12.1%   | +170 bps |
| Diluted Adjusted EPS         | \$0.22  | \$0.21  | 4.8%     |

- Net sales growth in Industrial and Infrastructure, partially offset by lower Food & Beverage on cyclical seed box demand and lingering Automotive Aftermarket softness
- Higher gross margin from Signature acquisition contribution and favorable product mix
- Slightly lower SG&A due to cost savings across all businesses; will begin to see further improvement from 'Focused Transformation' in Q2
- EPS grew on higher operating income partially offset by higher net interest expense

# Q1 Segment Results

## Material Handling

| (In \$ millions)             | Q1 2025 | Q1 2024 | % Change |
|------------------------------|---------|---------|----------|
| Net Sales                    | \$157.7 | \$152.2 | 3.6%     |
| Adj. Op Income               | \$27.5  | \$25.0  | 9.9%     |
| <i>Adj. Op Income Margin</i> | 17.4%   | 16.4%   | +100 bps |
| Adj. EBITDA                  | \$36.3  | \$32.5  | 11.7%    |
| <i>Adj. EBITDA Margin</i>    | 23.0%   | 21.4%   | +160 bps |

- Net sales increased from Signature acquisition contribution and higher Industrial sales, mostly military applications, partially offset by cyclical declines in Seed boxes within Food & Beverage
- Scepter sales exceeded prior year by 30%
- Adj. EBITDA and Operating Income increase driven by favorable material and manufacturing costs, partially offset by lower pricing

## Distribution

| (In \$ millions)             | Q1 2025 | Q1 2024 | % Change |
|------------------------------|---------|---------|----------|
| Net Sales                    | \$49.2  | \$54.9  | (10.3)%  |
| Adj. Op Income               | (\$0.4) | \$0.6   | NM       |
| <i>Adj. Op Income Margin</i> | (0.8)%  | 1.1%    | -190 bps |
| Adj. EBITDA                  | \$0.5   | \$1.4   | (67.1)%  |
| <i>Adj. EBITDA Margin</i>    | 0.9%    | 2.5%    | -160 bps |

- Net sales down due to lower volume and pricing
- Adj. EBITDA and Operating Income decreased due to lower pricing and volume, partially offset by favorable SG&A

# Balance Sheet and Cash Flow

- Generated free cash flow of \$2.0M in Q1; capex was slightly below 4% of sales
- Working capital increased due to accounts receivable timing and inventory build as we took proactive action before tariff details were announced
- Debt increased 2.2% during the quarter; net leverage increased to 2.8x
- Cash balance of \$35.3M at quarter-end; combined with \$231.7M of availability under the revolver, provides ample liquidity to support capital allocation priorities

Net Debt (\$M) and Net Leverage Ratio<sup>1</sup>

Cash Flow, Capex and FCF as % of Sales

Working Capital as a % of TTM Sales

See Appendix for non-GAAP reconciliations. <sup>1</sup> As defined per the credit agreement, Myers Net Leverage Ratio is calculated as Total Debt, less certain cash divided by Compliance Adj. EBITDA per the credit agreement.

# Leveraging Cashflow Generation

## Capital Allocation Priorities

- Repurchased \$1M in shares as we invest in MYE with **\$10M share buyback program**
- Maintain **strong balance sheet with ample liquidity** via cash on hand and revolving credit facility
- Capex spend to remain around **3% of revenue**
- Continue to focus on debt repayment to return to a **net leverage ratio goal of 1.5x to 2.5x**
- **Dividends to continue** with existing practice
- Continue to evaluate strategic M&A opportunities **focusing on building high-growth brands**

Maintaining a Disciplined Capital Allocation Approach

# Updating 2025 Outlook

| End Markets and Key Product                                                                                                                                                                                                           | 2025 Outlook                            |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------|
| <b>Industrial (30% of Sales)</b><br><b>Akro-Mils® , Buckhorn® &amp; Jamco®</b> containers, organizational bins, totes, carts and cabinets; <b>Scepter®</b> military ammunition containers; OEM parts for general industrial equipment | Moderate growth                         |
| <b>Infrastructure (13% of Sales)</b><br><b>Signature Systems™</b> ground protection matting for construction, industrial sites, and event venues                                                                                      | Strong growth                           |
| <b>Vehicle (13% of Sales)</b><br>RV, marine, and automotive components                                                                                                                                                                | Down<br>(was “Stable to down”)          |
| <b>Consumer (11% of Sales)</b><br><b>Scepter®</b> fuel cans; outdoor furniture and equipment                                                                                                                                          | Stable, affected by hurricane responses |
| <b>Food &amp; Beverage (8% of Sales)</b><br><b>Buckhorn®</b> seed boxes, intermediate bulk containers, and Tuff Series bulk containers for agricultural and chemical markets                                                          | Stable                                  |
| <b>Automotive Aftermarket Distribution (25% of Sales)</b><br><b>Distribution</b> sales to tire service aftermarket                                                                                                                    | Slightly down                           |

Continue to see risks and opportunities for the business for both revenue and margin

Expect tariffs to have limited near-term impact; overall macroeconomic impact uncertain; continue to monitor end market conditions for impacts from tariffs or other factors that may influence demand trends

Right-size the organization and achieve \$20M annualized cost savings, primarily SG&A, by year-end

Improving Performance Through  
‘Focused Transformation’

| Adjusted earnings per diluted share <sup>(2)</sup>         | <u>\$ 0.22</u>          | <u>\$ 0.21</u>  |

Items in this table may not recalculate due to rounding

(1) Income taxes are calculated using the normalized effective tax rate for each year. The rate used in 2025 is 26% and in 2024 is 25%.

(2) Adjusted earnings per diluted share is calculated using the weighted average common shares outstanding for the respective period.
