Myers Industries' President and CEO, Mike McGaugh said, "2021 was a strong and important year for Myers. We experienced strong organic revenue growth. We successfully integrated two high-performing acquisitions. In addition, we are proud to tell you that the revitalization of Myers' sales, marketing, and operational capabilities is taking place across all of Myers. The transformation of Myers is ongoing. We continue to see robust demand for our products across our end markets and are confident that our 'One Myers' strategy, based on an integrated company approach, will help us fulfill this demand.

Throughout 2021, our team worked hard and smartly to offset cost pressures that temporarily depressed nearterm margins. That included pricing actions and implementing a value-based approach to pricing, which delivered a favorable price-to-cost relationship during the fourth quarter. We believe our significant infusion of operational and commercial talent over the past two years and our new processes and approach to doing business will make these improvements lasting. This will put us in a strong position to drive margins and profitability in 2022 and beyond."

McGaugh concluded, "During the fourth quarter, we continued the integration of our recent acquisitions, Elkhart Plastics and Trilogy Plastics. These acquisitions have exceeded our expectations by bringing scale, and capability, and an improved ability to deliver value to Myers' customers. It's exciting and gratifying to see the progress on our acquisitions, as well as the commercial and operational improvements across our company. Looking forward, we remain focused on maintaining our strong momentum, executing the "One Myers" integrated strategy, and delivering improved results. We have a strong team comprised of long-serving Myers' associates and over two dozen new high-horsepower members, a robust demand for our differentiated products, sustained top-line momentum, a healthy balance sheet, and a high cash-generating business model, all of which are working together to drive growth and position the business for long-term success. We look forward to continued execution in 2022 and believe we have only scratched the surface of our long-term potential."

Gross profit increased $\$ 12.0$ million, or $30.1 \%$ to $\$ 51.8$ million, primarily due to the increased contribution from pricing actions, sales volume, and the Elkhart and Trilogy acquisitions. Although the contribution from pricing actions more than offset higher raw material costs, which led to a favorable price-tocost relationship for the quarter, gross margin was $26.0 \%$ compared with $29.0 \%$ for the fourth quarter of 2020 due to the higher labor and other manufacturing costs and unfavorable sales mix. Selling, general and administrative expenses increased $\$ 6.3$ million, or $18.1 \%$ to $\$ 41.3$ million, reflecting the Elkhart and Trilogy acquisitions, which accounted for approximately half of the increase, higher salaries, benefits, incentive compensation costs, and increased professional fees. The contribution from pricing actions more than offset higher raw material costs, which led to a favorable price-to-cost relationship for the quarter. Additionally, SG\&A expenses were higher year-over-year. The increase in SG\&A expenses was primarily due to the Elkhart and Trilogy acquisitions and higher salaries, benefits, and incentive compensation costs.
