leading industry manufacturers.

Pro Tool Innovation Awards highlight groundbreaking power tools, hand tools, tool accessories, and fasteners from

"The Powered Fueling Station represents a significant leap in fueling efficiency," said Mike Miller, Business Vice President-Blow Molding Platform, Myers Industries. "Designed to solve real-world challenges of professionals and enthusiasts, the PFS features a rapid dispensing system and a 14-gallon capacity, which can significantly minimize refueling downtime, helping to reclaim valuable hours. Mobility is also at the forefront of our design. Whether on a dock or in a field, the PFS's rugged six-inch wheels make onsite refueling effortless. The PFS reflects our commitment to providing smart solutions that empower consumers at work and home."

The Pro Tool Innovation Awards are judged by a panel of industry professionals with decades of experience in the trades. This year, over 100 different manufacturers and brands submitted nearly 400 products in dozens of categories. The winners exemplify the companies and products that drive the construction, landscaping, automotive, and manufacturing industries forward.

“The Scepter Powered Fueling Station is an ideal solution for ranchers, commercial users, or even industrial settings,” said the judges. “We like the durable fuel hose and rugged wheels, which mean this fueling station can handle tough jobsite conditions, including the uneven and rough terrain typical of agricultural and industrial environments.”

Reflecting on the 12 th annual Pro Tool Innovation Awards, Executive Director Clint DeBoer expressed admiration for the industry's ongoing innovation: “Every Pro Tool Innovation Award celebrates a product developed by passionate people who, like us, believe the standard we’re used to is no longer good enough.”

The Powered Fueling Station will be featured at Scepter’s booth (#10030) during Equip Exposition 2024, which runs Oct. 15 to 18 in Louisville, Ky. Consumers can find a Powered Fueling Station retailer [here](#) .
