

# Myers Industries enters RV Aftermarket

6/1/2024

Ameri-Kart® and Elkhart Plastics®, both Myers Industries companies and well-known manufacturers serving the Recreational Vehicle OEM industry for more than 35 years, have expanded into the RV Aftermarket.

Myers Industries now offers OEM tanks for RV aftermarket.

RV enthusiasts can now replace their freshwater and waste tanks with the same OE-approved tanks—directly from a dealer. Constructed of high-quality plastic for weather and impact resistance, these durable and reliable tanks prevent leaks and ensure long service life. Tanks are pre-fitted to replace standard sizes for easy installation in RVs, campers, motorhomes, trailers, and tiny houses.

Keller Marine and RV, with warehouses in Pennsylvania and Florida, is the first distributor to join the program and will supply tanks to approximately 2,000 dealers nationwide.

Ameri-Kart® and Elkhart® are collaborating with additional distributors to provide more RV end users with easy and direct access to OE tanks, reflecting Myers' commitment to customer service.

News about the expansion was featured in **RV Business** and **RV Pro**.
