Scepter Wins 2026 Pro Tool Innovation Award for Chainsaw Fuel and Tool Container

2026-09-23

MIAMI, Okla.--(BUSINESS WIRE)-- Scepter, a Myers Industries Company and leading innovator in portable fuel container manufacturing, is proud to announce that its Chainsaw Fuel and Tool Container has been awarded a 2026 Pro Tool Innovation Award (PTIA) in recognition of its unique combination of fuel and tool storage. This marks the program's 14th year of recognizing the most innovative and leading-edge tools, accessories, and fasteners across the construction, automotive, landscaping, professional trade, and DIY markets.

Scepter, a Myers Industries Company and leading innovator in portable fuel container manufacturing, is proud to announce that its Chainsaw Fuel and Tool Container has been awarded a 2026 Pro Tool Innovation Award (PTIA) in recognition of its unique combination of fuel and tool storage. "Designed with tree care professionals, landscapers, and homeowners in mind, this container is an innovative new approach to a legacy international product whose return has long been requested by consumers in the United States," said Greg Plunkett, Director of Marketing at Scepter.

industry experts and trade professionals. The PTIA judges had the following to say about the Scepter Chainsaw Fuel and Tool Container:

"The Scepter FG4G15CC combines a 1.5-gallon fuel container with an attached rear compartment for bar chain oil, a sharpening file, a srench, and other tools, giving field crews one compact carrier for the essentials. Its self-venting spout supports smoother pouring, while the molded top handle makes it easy to carry. This container seems

The 2026 Pro Tool Innovation Awards received nearly 400 entries from more than 100 manufacturers who presented new and innovative products in more than a dozen categories. These entries were carefully reviewed by a judging panel of

particularly well-suited for tree care professionals and anyone who might need to regularly bring a few additional items with them while carrying fuel to the jobsite.”

“Each year, the Pro Tool Innovation Awards honor those products that shake up the industry and carve new pathways for performance, ergonomics, features, and value,” said Clint DeBoer, General Manager for the PTIA.

Industry experts and trade professionals selected the PTIA winners after carefully evaluating each product’s innovation within its category. The 2026 honorees showcase the companies and products helping shape the future of construction, landscaping, automotive, and manufacturing.

“Designed with tree care professionals, landscapers, and homeowners in mind, this container is an innovative new approach to a legacy international product whose return has long been requested by consumers in the United States,” said Greg Plunkett, Director of Marketing at Scepter.

Reflecting on this year’s Pro Tool Innovation Awards, Kenny Koehler, Editor-in-Chief for Pro Tool Reviews, added, “We saw some truly competitive entries in the awards this year. We are privileged to be able to call out those tools and products that set new standards for performance and value. Being a Pro Tool Innovation Awards Winner is a true mark of excellence in a very competitive industry that moves quickly.”

About the Pro Tool Innovation Awards

The annual Pro Tool Innovation Awards (PTIA) began in 2013 and are judged by a panel of professional tradesmen and trade media representatives in the electrical, plumbing, MRO, and concrete fields, as well as landscaping professionals, general contractors, mechanics, and builders. The Pro Tool Innovation Awards seek to discover and recognize the most innovative tools, accessories, and products across a wide variety of industries and categories.
