SEEKER TEC INTERNATIONAL, INC.
NOTES TO FINANCIAL STATEMENTS (Unaudited)

NOTE 1 – Business description and significant accounting policies

Organization

Syncronys International, Inc. (the "Company") was incorporated in the State of Nevada on April 8, 2004, under the name of AVL Global, Inc. On January 18, 2006, the Company changed its name to China Northwest Biotech Corp. On June 18, 2007, the Company changed its name to LGM Biopharma, Inc. The Company changed its name to Syncronys International, Inc. on November 23, 2007, and considers January 1, 2007 to be the date of commencement of new developments of its principle business plan (date of inception). On March 31, 2013 the Company changed its name to Seeker Tec International, Inc. On August 24, 2018, Spectacular Solar, Inc. merged with and into Seeker Tec International, Inc., with Seeker Tec International Inc., being the surviving entity. On January 16, 2019, the Company changed its name to Spectacular Solar, Inc.

Principles of Consolidation

Investments in unconsolidated subsidiaries representing ownership of at least 20% but less than 50% is accounted for under the equity method. Non-marketable investments in which the Company has less than 20% ownership and in which it does not have the ability to exercise significant influence over the investee is initially recorded at cost and periodically reviewed for impairment. As of December 31, 2018, the Company did not have non-marketable investments.

Cash and cash equivalents

Cash and cash equivalents include all cash balances in non-interest bearing accounts and money-market accounts. The Company place its temporary cash investments with quality financial institutions. At times, such investments may be in excess of Federal Deposit Insurance Corporation (FDIC) insurance limit. The Company does not believe it is exposed to any significant credit risk on cash and cash equivalents.

Credit Risks

Financial instruments that potentially subject us to concentrations of credit risk consist principally of cash deposits. Accounts at each institution are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000.

Revenue recognition

The Company recognizes revenue in accordance with ASC subtopic 605-10 (formerly SEC Staff Accounting Bulletin No. 104 and 13A, "Revenue Recognition") net of expected cancellations and allowances.

The company has recognized the revenue and cost of sales relating to its contract in Angola. However, there had been an ongoing dispute with the main contractor. Our partner in Angola had expected this to be resolved in the company's favor by the end of quarter 2, 2017 but it has yet to be resolved as of December 31, 2018.

Advertising costs

The Company expenses all costs of advertising as incurred. These expenses were $75,282 for 2018.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Impairment of long-lived assets

The Company reviews its long-lived assets and intangibles periodically to determine potential impairment by comparing the carrying value of the long-lived assets with the estimated future cash flows expected to result from the use of the assets, including cash flows from disposition. Should the sum of the expected future cash flows be less than the carrying value, the Company would recognize an impairment loss. An impairment loss would be measured by comparing the amount by which the carrying value exceeds the fair value of the long-lived assets and intangibles.

Dividends

The Company has not yet adopted any policy regarding payment of dividends.

Recent Accounting Pronouncements

The Company reviews all of the Financial Accounting Standard Board's updates periodically to ensure the Company's compliance of its accounting policies and disclosure requirements to the Codification Topics.

In July 2012, the FASB issued Accounting Standards Update No. 2012-02, Intangibles—Goodwill and Other (Topic 350)—Testing Indefinite-Lived Intangible Assets for Impairment (ASU 2012-02), to simplify how entities test intangibles with indefinite lives for impairment. ASU 2012-02 gives entities the option to first assess qualitative factors to determine whether it is more likely than not that the fair value of an intangible asset is less than its carrying amount. If greater than 50 percent likelihood exists that the fair value is less than the carrying amount then a quantitative impairment test as described in Subtopic 350-30 must be performed. ASU 2012-02 is effective for us in the first quarter of our fiscal year ending February 28, 2014. We have reviewed development costs and have amortized accordingly.

In February 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2013-02, Comprehensive Income (Topic 220)—Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income (ASU 2013-02), to require entities to provide information about significant amounts reclassified out of accumulated other comprehensive income by component and their corresponding effect on net income. ASU 2013-02 is effective for us in the first quarter of our fiscal year ending February 28, 2014. We do not believe that this updated standard will have a significant impact on our consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230). This ASU applies to all entities that are required to present a statement of cash flows under Topic 230. The amendments provide guidance on eight specific cash flow issues and includes clarification on how these items should be classified in the statement of cash flows and is designed to help eliminate diversity in practice as to where items are classified in the cash flow statement. Furthermore, in November 2016, the FASB issued additional guidance on this Topic that requires amounts generally described as restricted cash and restricted cash equivalents to be included with cash and cash equivalents when reconciling the statement of cash flows. This ASU is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years, with earlier application permitted for all entities. The Company adopted this standard as of January 1, 2018. The adoption of this standard did not have a significant impact on the Company's financial statements.

In June 2018, the FASB issued ASU No. 2018-07, Compensation—Stock Compensation (Topic 718) - Improvements to Nonemployee Share-Based Payment Accounting, which aligns the accounting for share-based payment awards issued to employees and nonemployees. Under ASU No. 2018-07, the existing employee guidance will apply to nonemployee share-based transactions (as long as the transaction is not effectively a form of financing), with the exception of specific guidance related to the attribution of compensation cost. The cost of nonemployee awards will continue to be recorded as if the grantor had paid cash for the goods or services. In addition, the contractual term will be able to be used in lieu of an expected term in the option-pricing model for nonemployee awards. The Company adopted the provisions of the guidance on January 1, 2019 with no material impact on the Company's consolidated financial statements and disclosures.

No other new accounting pronouncements, issued or effective during the years ended December 31, 2018 and 2017, have had or are expected to have a significant impact on the Company's financial statements.

NOTE 2 – Going concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. Its ability to continue as a going concern is dependent upon maintaining profitable operations based on the development of distributions platforms through which its products that can be sold. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets and classification of liabilities that might be necessary should the Company be unable to continue in existence.
