RESTON, Va.--([BUSINESS WIRE](#))--MAXIMUS, a leading provider of government services worldwide, announced today that its TIENET® special education software has again been recognized by District Administration Magazine as part of the Readers Choice Top 100 Products of 2013 Awards. District Administration Magazine covers emerging technologies, leadership issues and management strategies in the K-12 education industry. The magazine's readers recognized TIENET as one of the top online resources available to school districts.

"We are honored that TIENET has been recognized for a third time by District Administration Magazine," commented Richard A. Montoni, Chief Executive Officer of MAXIMUS. "We very much appreciate the enthusiastic testimonials from school administrators, as well as the nominations by readers."

TIENET offers three applications that can be used separately or as one coordinated system for Instructional Data Management, Response to Intervention Management and Special Education Case Management. TIENET delivers powerful features including customizability, interoperability, security and scalability by blending a solid, robust solution with leading edge technology. TIENET also provides exceptional functionality including guided workflow, support and staff development, translations, communication and integrated reporting to assist school systems. For more information, contact tienetinfo@maximus.com.

Dr. Luann L. Purcell, Executive Director of the Council of Administrators of Special Education (CASE), stated, "CASE is impressed that the TIENET solution from MAXIMUS delivers on all the essential criteria required to be successful in special education environments."
