ANNUAL PARTNERSHIP IMPLEMENTATION REPORT

Calendar Year 2022

Project C.U.R.E. & Newmont Partnership

BACKGROUND

Since 2005, Newmont Corporation (Newmont) has partnered with Project C.U.R.E. to deliver much needed medical supplies and equipment in developing countries to help create value and improve lives through sustainable and responsible mining, where Newmont operates. To date, more than $38 million (includes shipments partially funded by Newmont) -worth of donations has been distributed as a result of Newmont sponsorship.

In 2021, Newmont awarded Project C.U.R.E. a three-year grant totaling $600,000 to implement a portfolio of activities to improve access to healthcare in selected countries where Newmont currently conducts exploration and/or mining activities.

In 2022 Newmont and Project C.U.R.E. expanded the geographic footprint of the partnership to include Guatemala and Mexico. The following provides an update on activities completed in 2022 in support of the partnership.

projectc.u.r.e. | Newmont | SUSTAINABLE DEVELOPMENT GOALS KNOWLEDGE PLATFORM

SUSTAINABLE DEVELOPMENT GOALS

Newmont, as a leader in the Metals and Mining sector is committed to integrating sustainability into all aspects of the business, specifically through supporting the Sustainable Development Goals. Newmont and Project C.U.R.E. can build on previous success and positive impacts to ensure healthy lives and promote well-being for all at all ages.

The program activities below are designed to locally contribute to the target objectives, which are taken from the United Nations Sustainable Development Goals (SDGs), a collection of 17 global goals set by the United Nations General Assembly in 2015. The Project C.U.R.E. Newmont partnership is specifically focused on SDG #3 Good Health and Well-being and Goal #17 Partnerships to Achieve the Goal.

Through training programs such as Helping Babies Survive and Helping Mothers Survive and by providing medical supplies through C.U.R.E. Cargo and Clinic programs, Newmont and Project C.U.R.E. can contribute, on a community level, towards these Goals.

3 Good Health & Well-Being TARGETS	17 Partnership for the Goals TARGETS
3.1 = By 2030, reduce maternal mortality ratio to less than 70 per 100,000 births (in selected countries where Newmont works).	17.9 = Enhance international support for implementing effective and targeted capacity-building in developing countries to support national plans to implement all the sustainable development goals, including through North-South, South-South and triangular cooperation.
3.2 = By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births.	
3.3 = By 2030, end the epidemic of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases.	
3.4 = By 2030, reduce by one-third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being.	
3.6 By 2020, halve the number of global deaths and injuries from road traffic accidents.	

C A N A D A

First Nation Communities

Completed Activities

C.U.R.E. Cargo

Although, the partnership is not currently active in Canada, in 2021 Newmont introduced Project C.U.R.E. to Project Northern Lights (PNL), a Canada-based non-profit that provides sustainable relief to communities that have been particularly affected and endangered by COVID. Indeed, PNL advised there was a desperate need for personal protection equipment (PPE) in response to rapidly increasing rates of COVID within these populations.

In response to this introduction Project C.U.R.E., with generous support from the Newmont grant, provided 3 palletized ground shipments of COVID relief supplies to be distributed to remote First Nation communities in British Columbia and Ontario, as well as marginalized populations in these provinces.

PPE items provided included more than a **130 boxes** of gloves, face shields, KN-95 masks, N-95 masks, surgical masks and cloth masks with **GIK value of $139,372.**

projectc.u.r.e. | Newmont

GHANA

Completed Activities

Although partnership activities in Ghana have been on pause since the first quarter of 2020 the partnership team is developing a five-year strategic plan and anticipates partnership activities will resume in 2023. The following sections provide a summary presentation of the work that has been conducted since the launch of the partnership in 2006.

C.U.R.E. Cargo Program

- Since 2012 over 60 healthcare facilities in the Ahafo, Akyem, Upper West and Upper East regions have been assessed.
- A total of 22 40' cargo containers of donated medical equipment, instruments and had supplies have been delivered with a total **GIK of $8,721,490.**

C.U.R.E. Clinics Program

- Since 2016 a combined eight (8) C.U.R.E. Clinics have been conducted at Ahafo and Akyem.
- **Over 12,150 total patients** seen.

Helping Babies Survive (HBS) Program

- Launched in 2014 more than **400 birth attendants** have been **trained** in one or more of the following modules:

    - ***Helping Babies Breathe***: Provides neonatal resuscitation training
    - ***Essential Care for Every Baby***: Addresses care from after birth until the time of discharge
    - ***Essential Care for Small Babies***: : Focuses on proper care for premature and low birth weight (under 2,000 grams) infants

Helping Mothers Survive (HMS) Program

- Thus far a total of **68 medical providers** have been **trained** in the following module:

    - ***Bleeding After Birth Complete***: Provides neonatal resuscitation training

projectc.u.r.e. | Newmont

GUATEMALA

Completed Activities

In 2022 the partnership expanded to Guatemala with an initial focus on the **C.U.R.E. Cargo Program**. Below are the cargo program activities conducted by the team during the year.

CAP Hospital San Miguel

Needs Assessments

Centro de Salud MaquivFrom January 10 -12, 2022 on-site assessments were conducted at the following health facilities in the San Miguel Ixtahuacán municipality, San Marcos Department.

- Centro de Salud Maquivel
- Puesto de Salud Caserio Chuena
- Puesto de Salud La Florida
- Centro de Salud San José Ixcaniche
- Centro de Atención Permanente (CAP) San Miguel Hospital
- Centro de Rehabilitacion Infantil Bitol

Container Shipments

The first of the initial three 40’ container shipments was planned, approved, shipped and delivered in 2022. The second container was also planned and approved in 2022 and will ship in February 2023.

- **Load 12138**: Allocated to Puerto de Salud Caserio Chuena, Centro de Salud San José Ixcaniche (Centro Comunitario) AND Centro de Atencion Permanente (CAP) San Miguel Ixtahuacan Hospital. **GIK Value = $334,100.80**
- **Load 12220:** Allocated to Centro de Salud Maquivel, Puesto de Salud La Florida, Centro de Rehabilitacion Infantil AND Centro de Salud CHILIVE. **Estimated GIK Value = $289,381.89**

projectc.u.r.e. | Newmont

GUINEA

Completed Activities

A summary of the partnership activities conducted in Guinea includes the following. The partnership is no longer active in the country.

C.U.R.E. Cargo Program

- Conducted Needs Assessments at seven (7) healthcare facilities in 2012.
- A total of three (3) standard 40’ cargo containers of donated medical equipment, instruments and had supplies delivered in 2013**.**
- Two (2) disaster relief 40’ cargo containers in response to the Ebola outbreak delivered in 2014 and 2015.
- **Total GIK delivered** to Guinea is **$1,903,620**.

projectc.u.r.e. | Newmont

MEXICO

Completed Activities

Mexico is the second country added to the partnership portfolio in 2022. Communities and health facilities in the catchment area of the Peñasquito Mine in Zacatecas State are the current geographic scope of the partnership. The **C.U.R.E. Cargo** program is the initial focus of partnership activities.

Hospital de la Mujer Zacatecana

Needs Assessments

Due to the current security concerns in Zacatecas State virtual, as opposed to on-site, assessments were conducted in November 2022 at the following hospitals.

- Hospital de la Mujer Zacatecana
- Concepción del Oro-Hospital Rural IMSS Bienestar No. 12

Container Shipments

Because Project C.U.R.E. cargo containers are transported by land to Mexico donations are packed in the larger 53’ container as opposed to the ocean-going 40’ model.

The inaugural partnership container shipment is allocated to Hospital de la Mujer Zacatecana and Concepción del Oro-Hospital Rural IMSS Bienestar No. 12. At the close of 2022 the shipment is in the Project C.U.R. E. queue for manifest list development.

P E R U

Completed Activities

Although the partnership has not recently been active in Peru, over the years the team has implemented several programs in Peru as summarized below.

C.U.R.E. Cargo Program

- Assessed nine (9) health facilities in the Cajamarca region in 2014 and 2016.
- Delivered two (2) 40’ cargo container shipments of donated medical equipment, instruments and supplies with a total **GIK value of $807,177**.

C.U.R.E. Clinics Program

- Conducted a primary health clinics in 2016 and 2017 wherein a total of **2,092 patients** were seen.
- Over 12,150 total patients seen, and **75 Kits for Kids** (equivalent of in-home medicine cabinet) were distributed to families with children.

projectc.u.r.e. | Newmont

SURINAME

Completed Activities

In 2022 Project C.U.R.E. excitedly returned to Suriname to conduct Needs Assessments in support of the **C.U.R.E. Cargo** program. The following briefly describes the trip scope and findings captured during conversations with the health facilities' staff.

Needs Assessments

From May 30, to June 4, 2022 Project C.U.R.E. returned to Suriname for the first time since the COVID pandemic to conduct Needs Assessments at the following facilities:

1. Sint Vincentius Ziekenhuis
2. Regionale Gezondheidsdienst (RGD)
3. Diakonessenhuis (DH)
4. Regional Ziekenhuis Wanica (RZW)
5. Streek Ziekenhuis Marwina (SZM)

The Assessment Team with RGD Representatives

Cargo Program Opportunities

During the assessment site visits the following opportunities for support from the C.U.R.E. Cargo program were identified.

- The donations of high-demand consumables will allow for budget reallocation to specific equipment needs at each of the facilities.
- For two of the hospitals assessed, there is an opportunity to increase services offered with the provision of equipment and consumables that can restart a specific area of the hospital (e.g., labor and delivery, an operating room, etc.).
- There is a significant opportunity to improve rural healthcare through the RGD clinic network.

projectc.u.r.e. | Newmont

SURINAME

Completed Activities

Whilst in Suriname from May 30 to June 4, 2022 the Project C.U.R.E. team also conducted on-site Impact Evaluations at some of the health facilities that received donations between 2019 and 2021. Below are some of the highlighted findings.

Impact Evaluations

The 2022 on-site Impact Evaluations were conducted at the following facilities:

1. ‘s Lands Hospitaal
2. Regionale Gezondheidsdienst (RGD)
3. Academisch Ziekenhuis Paramaribo (AZP)
4. Psychiatrisch Centrum Suriname (PCS) – *off-site discussion due to flooding and labor strike*
5. Mungra Medisch Centrum (MMC)

Reported Impact Highlights

- One of the common success stories was the timeliness and tremendous **positive impact** the donations had **on the management and treatment of COVID-19**.
- 100% of the evaluated facilities reported **increased staff morale** after receiving the donations.
    - ***“IF WE CAN DO MORE FOR THE PEOPLE OF SURINAME, IT GIVES YOU A GOOD FEELING AS A HEALTH CARE WORKER.”***
- **Improved quality of services** as a result of the donations was **reported by all** evaluated facilities.
- All five facilities reported the **ability to reallocate scarce budget resources or increased revenue** as a result of the donations.

SURINAME

Completed Activities

Container Shipments

Load 42109, arrived in Suriname in March 2022 with **a GIK Value of $304,345.89**. The shipment was in support of the virtual assessment conducted in 2021 at Bureau Openbare Gezondheidszorg (BOG) and an earlier assessment of Medische Zending (MZ).

As a result of the 2022 Needs Assessment findings the following container shipments were planned, reviewed, and approved in 2022. They will be loaded, shipped, and delivered in 2023.

1. Regional Ziekenhuis Wanica (RZW) = Load 62111
2. Regionale Gezondheidsdienst (RGD) = Load 72225
3. Streek Ziekenhuis Marwina (SZM) = Load 32208
4. Diakonessenhuis (DH) = Load 12228
5. Sint Vincentius Ziekenhuis = Load TBD*

** The shipment for this hospital is currently on hold as another Project C.U.R.E. partner has recently funded two containers for the facility, and they are currently in transit.*

Inclusive of the container shipments referenced above, the partnership has supported a total **15 containers** for Suriname. The total **GIK Value** of the **11 delivered shipments as of the close of 2022 is $4,886,634**.

Located in Lelydrop, Regional Hospital Wanica (RZW) is a public hospital and a new addition to the portfolio of Suriname health facilities to be supported by the partnership.

This medical facility is a critical part of Suriname's health care infrastructure as it extends secondary medical care outside of the capital city to an underserved catchment area.

SURINAME

Completed Activities

UNITED NATIONS SUSTAINABLE DEVELOPMENT GOALS (SDGs) IMPACT

The 2022 on-site Impact Evaluations in Suriname represented the inaugural reporting of impact as it relates to the **SDG 3** targets impacted by the **C.U.R.E. Cargo** program, as well as **SDG 17.9.1**.

Impacted SDG 3 Target	Impacted SDG 3-Related Medical Services	Percentage of Evaluated Facilities Reporting Improved Quality of Care OR Increased Number of Patients Served
SDG 3.1	antenatal care, obstetric care, cesarean section	50% overall
SDG 3.2	newborn care, pediatrics	50% overall
SDG 3.4	diabetes, respiratory	50% overall
SDG 3.6	surgery, emergency	75% overall

Financial Contributions* to SDG 17.9.1 of the Five Container Shipments in Scope of 2022 Impact Evaluation	
Cash Donation Value	$ 109,185
Medical Donation Gift-in-Kind Value	$ 2,240,287
Project C.U.R.E. Volunteer Time Value	$ 144,002
GRAND TOTAL CONTRIBUTION	**$ 2,493,474**

* *The government of Suriname does not incorporate these contributions into its account of SDG Indicator 17.9.1.*

D E N V E R Engagement

Completed Activities

Employee Engagement

In 2022 hosted eight Newmont employees as volunteers at its Denver distribution center. The employees contributed approximately 16 volunteer hours at Project C.U.R.E.'s Denver distribution center by conducting the pre-sort of incoming donations and loading 40' containers.

One of the 2022 Newmont Volunteer Teams

Completed Activities

C.U.R.E. Kits

In 2022, Newmont employees delivered 19 C.U.R.E. Kits to healthcare facilities in Ghana, Mexico, and Suriname.

Country	Number of Kits
Ghana	12
Mexico	2
Suriname	5
TOTAL	**19**

The **FIRST** C.U.R.E. Kit Delivered by **NEWMONT** in **MEXICO**!

Partnership History

Newmont & Project C.U.R.E.

Partnership History

Since 2005, Project C.U.R.E. has partnered with Newmont to deliver 51 shipments of donated medical equipment, instruments and supplies valued at more than $19.9 million. These critically needed donations have been delivered to countries where Newmont operates or volunteered to provide disaster relief including Canada, Ghana, Guatemala, Guinea, Haiti, Indonesia, Liberia, Peru, and Suriname.

Since 2012, under the partnership grant awards, Project C.U.R.E. has delivered 39 shipments of medical supplies and equipment worth more than $15.2 million to Canada, Ghana, Guatemala, Guinea, Liberia, and Suriname.

The portfolio of Project C.U.R.E. programs implemented in support of the partnership since 2012 has expanded beyond C.U.R.E. Cargo to include C.U.R.E. Clinics which have been conducted in Ghana, Peru and Suriname. Using a Health Fair Clinic model, centered around patient education, more than 5,000+ patients have been served in these countries.

In addition, the Helping Babies Survive training program has been conducted in the Ahafo and Akyem regions of Ghana. These training sessions have included the Helping Babies Breathe, Essential Care for Every Baby and Essential Care for Small Babies modules.

Most recently Project C.U.R.E. has added the Helping Mothers Survive (HMS) training program to its C.U.R.E. College curriculum offerings. As international travel resumes Project C.U.R.E. and Newmont will work collaboratively to implement the various modules that comprise the HMS curriculum based on the needs of the local communities.

C.U.R.E. Kits have also been an integral program to the partnership. The kits are suitcase-sized and pre-packed with basic medical supplies that can be easily transported and checked as luggage on your next trip to a community in need abroad. To date, a total of 155 kits have been delivered by Newmont employees to health care facilities in Ethiopia, Ghana, Indonesia, Mexico, Nicaragua, Peru and Suriname.

In 2022 Newmont and Project C.U.R.E. excitedly commenced the expansion of the partnership's geographic footprint, via the C.U.R.E. Cargo program, to include Guatemala and Mexico.

From 2016 through 2019, the Project C.U.R.E. and Newmont partnership expanded to include the Colorado Rockies K-Meter initiative. For every strikeout thrown by a Rockies pitcher, Newmont donated $50 to Project C.U.R.E. As a result of this program, Newmont donated a total of $239,450 that has been utilized to provide the final few thousand dollars needed to closeout funding for 41 container shipments for non-Newmont projects. To date, these cargo containers have been delivered to communities in Syria, Papua New Guinea, Ethiopia, Kenya, Cote D'Ivoire, Cameroon, Mexico, Cuba, Tanzania, Belize, Mali, DR Congo, Colombia, Ukraine, Rwanda, Albania, Ghana, Honduras, Togo, Senegal, Chad, Nigeria, Cambodia, Serbia, Mozambique, Myanmar, Zambia, and Eswatini (formerly Swaziland). That is over $18.5 million in medical equipment and supplies to those that need it the most.
