Supporting the United Nations (UN) Sustainable Development Goals (SDGs)

Newmont actively supports the United Nations (UN) Sustainable Development Goals (SDGs) through various activities and initiatives.

We recognize our impact on and the opportunity to positively contribute to all 17 SDGs. To maximize Newmont's impact on advancing these goals, in 2016 we conducted a mapping exercise, focusing on the 14 SDGs most relevant to the mining industry. This involved a comprehensive analysis of existing policies, commitments, targets, community investments and other programs. We prioritized the following five SDGs based on their alignment with our business strategy, demonstration of leadership, and the potential to create enduring, meaningful outcomes that enhance lives.

SDG 3 – Good health and wellbeing

SDG 5 – Gender equality

SDG 6 – Clean water and sanitation

SDG 8 – Decent work and economic growth

SDG 17 – Partnerships for the goals

Each year, we report on our efforts to advance these goals in our [Annual Sustainability Report](#).
