

Second Quarter 2026 Results

JULY 23, 2026

Cautionary Statement Regarding Forward Looking Statements, Including Guidance Assumptions, and Notes

This presentation contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbor created by such sections and other applicable laws. Where a forward-looking statement expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, such statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by the forward-looking statements. Forward-looking statements often address our expected future business and financial performance and financial condition; and often contain words such as “anticipate,” “intend,” “plan,” “will,” “would,” “estimate,” “expect,” “believe,” “pending” or “potential.” Forward-looking statements in this presentation may include, without limitation, (i) estimates of future production and sales, including production outlook, and average future production; (ii) estimates of future costs applicable to sales and all-in sustaining costs; (iii) estimates of future capital expenditures, including development and sustaining capital; (iv) expectations regarding project development, including, without limitation, Tanami Expansion 2, Cadia Panel Caves, Red Chris Block Cave, Nearshore Barrier at Lihir, or the Cerro Negro Expansion project, including with respect to timeline, mine life, production, and capital costs; (v) expectations regarding share and debt repurchases; (vi) estimates of future cost reductions, savings and efficiencies, productivity improvements, and future cash flow enhancements, (vii) expectations regarding Newmont’s core portfolio; (viii) expectations regarding future investments; (ix) expectations regarding free cash flow, capital allocation framework, and returns to stockholders, including with respect to future dividends and future share repurchases; and (x) other outlook, including, without limitation, 2026 Guidance and other future operating, reclamation, remediation, and financial metrics. Estimates or expectations of future events or results are based upon certain assumptions, which may prove to be incorrect. Such assumptions, include, but are not limited to: (i) there being no significant change to current geotechnical, metallurgical, hydrological and other physical conditions; (ii) permitting, development, operations and expansion of operations and projects being consistent with current expectations and mine plans, including, without limitation, receipt of export approvals; (iii) political developments in any jurisdiction in which the Company operates being consistent with its current expectations; (iv) certain exchange rate assumptions for the Australian dollar to U.S. dollar and Canadian dollar to U.S. dollar, as well as other exchange rates being approximately consistent with current levels; (v) certain price assumptions for gold, copper, silver, zinc, lead and oil; (vi) prices for key supplies; (vii) the accuracy of current mineral reserve, mineral resource and mineralized material estimates; and (viii) other planning assumptions. Uncertainties include those relating to general macroeconomic uncertainty and changing market conditions, changing restrictions on the mining industry in the jurisdictions in which we operate, impacts to supply chain, including price, availability of goods, ability to receive supplies and fuel, and impacts of changes in interest rates. Such uncertainties could result in operating sites being placed into care and maintenance and impact estimates, costs and timing of projects. Uncertainties in geopolitical conditions could impact certain planning assumptions, including, but not limited to commodity and currency prices, costs and supply chain availabilities.

The capital allocation framework outlined herein represents the Company’s current intentions and targets. It is forward-looking, non-binding, and subject to change based on market conditions, financial performance, and business needs. Actual results and future capital allocation may differ materially from these targets. Investors are reminded that the indicated or annual dividend target is non-binding. Future dividends, beyond the dividend payable on September 28, 2026 to holders of record at the close of business on September 3, 2026 have not yet been approved or declared by the Board of Directors, and an annualized dividend payout or dividend yield has not been declared by the Board. The declaration and payment of future dividends remain at the discretion of the Board of Directors and will be determined based on Newmont’s financial results, balance sheet strength, cash and liquidity requirements, future prospects, gold and commodity prices, and other factors deemed relevant by the Board. The extent to which the Company repurchases its shares, and the timing of such repurchases, will depend upon a variety of factors, including trading volume, market conditions, legal requirements, business conditions and other factors. The repurchase program may be discontinued at any time, and the program does not obligate the Company to acquire any specific number of shares of its common stock or to repurchase the full authorized program amount during the authorization period.

For a more detailed discussion of such risks, see the Company’s Annual Report on Form 10-K for the year ended December 31, 2025 filed with the U.S. Securities and Exchange Commission (“SEC”) on, February 19, 2026, as well as Newmont’s other SEC filings including the Form 10-Q filed with the SEC on July 23, 2026, available on the SEC website or www.newmont.com. Newmont does not undertake any obligation to release publicly revisions to any “forward-looking statement,” including, without limitation, outlook, to reflect events or circumstances after the date of this presentation, or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws. Investors should not assume that any lack of update to a previously issued “forward-looking statement” constitutes a reaffirmation of that statement. Continued reliance on “forward-looking statements” is at investors’ own risk. Investors are also reminded to refer to the endnotes to this presentation for additional information.

Key Executive Appointments Position Newmont's Leadership Team for Next Phase of Delivery

Q2 2026 Highlights

On track to achieve 2026 guidance with strong momentum going into the second half of the year

Gold Production ¹	Free Cash Flow ²	Returns to Shareholders ³	Adjusted Net Income ²
1.3 _{Moz}	\$2.2 _B	\$1.9 _B	\$2.10 _{/share}
<i>17kt of copper and 7Moz of silver from full portfolio</i>	<i>Generating robust free cash flow from world-class portfolio</i>	<i>Through quarterly common dividends and ongoing share repurchases</i>	<i>All-time second quarter ANIPS record</i>

Received **major regulatory approvals** for the **Red Chris block cave** project in British Columbia⁴

Announced **key executive appointments** from internal talent pipeline for next phase of delivery

Published **2025 Annual Sustainability Report**, including key safety & sustainability metrics

Cadia **production resumed in mid-June** following recovery from April seismic event

(1) Represents attributable production for the total portfolio, including production from the Company's equity method investments in Pueblo Viejo and Lundin Gold. (2) Free cash flow and Adjusted Net Income are non-GAAP metrics; see reconciliations on slides 17 & 18 (3) Shareholder returns includes total share repurchases and dividends paid since April 23, 2026. (4) Project remains subject to ongoing evaluation, final investment decision and approval have not been made by Newmont as of this time.

On Track to Achieve 2026 Guidance¹

As of February 19, 2026
(+/- 5%)

	Total Portfolio	Performance Drivers
Attributable Gold Production²	5.3Moz	Maintaining full year guidance and building on strong momentum demonstrated in H1 2026
Gold CAS³ <i>By-Product</i>	\$1,055/oz	Mitigating inflationary impacts through ongoing cost and productivity initiatives
Gold AISC³ <i>By-Product</i>	\$1,680/oz	CAS/oz, sustaining capital, and consolidated expenses remain in line with guidance expectations
Sustaining Capital⁴	\$1.95_B	Ramping up investment in H2 2026, primarily driven by the timing of spend at Cadia, Tanami, Boddington, Brucejack, and Red Chris
Development Capital⁴	\$1.40_B	Increased spend in H2 2026 related to current projects in execution primarily at Cadia, Tanami, Lihir, and Cerro Negro, as well as advancing the feasibility study at Red Chris

(1) See endnotes re: forward-looking statements, and Non-GAAP metrics. (2) Includes production from the Company's equity method investments in Pueblo Viejo and Lundin Gold. (3) Guidance for 2026 is based on the following economic assumptions: Gold (\$4,500/oz.), Copper (\$5.00/lb.), Silver (\$60.00/oz), Lead (\$0.90/lb.) and Zinc (\$1.30/lb.) and foreign exchange rates of AUD:USD (\$0.70), CAD:USD (\$0.75), and USD:MXN (\$17.00) and other assumptions considered reasonable as of February 19, 2026. Any change from these assumptions may affect the results in comparison to forward looking guidance. See endnotes for additional details. (4) Sustaining and development capital guidance for the total portfolio excludes \$175 million of non-cash capitalized interest, in combination.

Delivering on Consistent Capital Allocation Framework¹

Disciplined, sustainable returns through the commodity and investment cycles

		Q2 2026	TARGETS	
Constant through the cycle	Sustaining Capital	\$438 _M	\$1.95 _B <i>Expected 2026 Spend (+/- 5%)</i>	On track to meet full year guidance with spend expected to accelerate in H2
	Total Cash Dividend	\$277 _M	\$1.1 _B <i>Targeted Annual Payment</i>	Quarterly dividend currently \$0.26/share, subject to approval by Board of Directors ²
Flex through the cycle	Development Capital	\$285 _M	\$1.4 _B <i>Expected 2026 Spend (+/- 5%)</i>	Steady investment in organic projects in execution
	Net Cash/ Net Debt	\$3.4 _B	\$1.0 _B <i>Net Cash Target (+/- \$2.0B)</i>	Maintaining financial flexibility with net cash currently at the upper end of target range
Excess Cash ³	Share Repurchases	\$1.7 _B <i>Repurchased since Apr. 23, 2026</i>	\$4.3 _B <i>Remaining Authorization</i>	\$1.7B executed to date from \$6.0B program authorized in April 2026 Includes over \$600M of shares repurchased in July 2026

(1) See endnotes re: forward-looking statements, non-GAAP metrics, dividends, share repurchases and capital allocation framework. (2) A dividend of \$0.26/share has been declared payable on September 28, 2026, to holders of record of such common stock at the close of business on September 3, 2026. Future dividends remain subject to approval and declaration by the Board. (3) Excess Cash is defined as cash available from operations (including Exploration, G&A, etc.) after funding balance sheet obligations (including debt principal repayments and reclamation spend) and capital expenditures, paying the dividend, and achieving the net cash target.

Executing with Discipline, Delivering Results

Well positioned to deliver production growth, strong cash generation and consistent shareholder returns, supported by a world class portfolio and disciplined execution

1

On Track to Achieve 2026 Guidance

Stable second quarter production and cost performance, supporting continued delivery on commitments through the remainder of the year

2

World-Class Portfolio Maximizing Margins and Free Cash Flow Growth

Well positioned to maximize margins and generate robust free cash flow, underpinned by an unrivaled portfolio of world-class operations and projects

3

Consistent Capital Allocation Framework Delivering Returns

Preserving financial flexibility and delivering predictable returns to shareholders through quarterly dividends and ongoing share repurchases

Appendix

Second Quarter Portfolio Performance

Leveraging a strong foundation to advance near-term production growth

Asia Pacific & Africa

Cadia

- Production resumed in mid-June following successful recovery from April seismic event
- Activities at panel cave projects expected to ramp up in H2

Tanami

- Increased throughput supported higher Q2 production, with higher grades expected to drive Q4 performance
- Second expansion on track; underground infrastructure to be completed and commissioned in Q3

Boddington

- Strong Q2 production driven by higher throughput following recovery from the Dec. 2025 bushfires
- Continue to advance waste stripping campaign in North and South pits with higher gold grades expected in Q4

Lihir

- Strong Q2 production driven by higher throughput and grade; planned maintenance in Q3 to impact production levels
- Mobilization for Nearshore Barrier to commence in H2, unlocking access to over 5Moz beginning in 2028

Ahafo North

- Continue to ramp up mill for first full year of production
- Updated pit design to deliver higher gold grades beginning in Q4

Ahafo South

- Stable H1 production driven by higher grade primarily in Q1 from improved underground draw point availability
- Lower grades expected in Q3 as Subika open pit stockpiles are processed, with a modest pickup expected in Q4

The Americas

Peñasquito

- Planned maintenance completed in Q2 with higher throughput expected in Q3
- Continue to process stockpiles as we transition from Phase 7 to 8, higher grades expected beginning in 2028

Cerro Negro

- Expect to deliver higher production in H2 driven by increased mining rates and access to higher grade stopes
- Continue to advance mine life extension activities

Merian

- Improved throughput and consistent recoveries expected to deliver stable production throughout 2026
- Continue to advance exploration activities around this emerging asset

Yanacocha

- Slight Q2 outperformance driven by timing of production
- Continuing mining through 2026, adding incremental low-cost ounces beginning in 2027

Brucejack

- Higher H2 production expected, supported by mine sequencing and higher gold grades
- Focused on advancing near-mine exploration opportunities

Red Chris

- Production to decrease with stockpile processing during planned stripping campaign
- Received major regulatory approvals for block cave project and continue to advance feasibility study

See endnotes re: forward looking statements.

SECOND QUARTER 2026 RESULTS

NEWMONT CORPORATION

10

Capital Allocation Framework¹

Disciplined, sustainable returns through the commodity and investment cycles

(1) See endnotes re: forward-looking statements, non-GAAP metrics, dividends, share repurchases and capital allocation framework. (2) The total targeted annual dividend will be calculated annually in February by dividing \$1.1 billion by shares issued and outstanding. The dividend payment will be divided into four equal payments rounded up to the nearest \$0.01 to be paid out quarterly. A dividend of \$0.26/share has been declared payable on September 28, 2026, to holders of record of such common stock at the close of business on September 3, 2026. Future dividend remain subject to approval and declaration by the Board. (3) Excess Cash is defined as cash available from operations (including Exploration, G&A, etc.) after funding balance sheet obligations (including debt principal repayments and reclamation spend) and capital expenditures, paying the dividend, and achieving the net cash target.

Direct Operating Costs by Category¹

Percentage breakdown for 2026 remains largely in line with 2025

(1) Represents results based on 2026 Guidance. "Other" category of 5% primarily includes freight, technology-related costs, employee administrative costs, rents and operating leases. See endnotes re: forward looking statements.

Basis for 2026 Guidance

Pricing Assumptions and Sensitivities (as of February 19, 2026)

	Assumption	Change (-/+)	Revenue & Cost Impacts (\$M) ⁽¹⁾
Gold (\$/oz)	\$4,500	\$100	\$505
Australian Dollar	\$0.70	\$0.05	\$100
Canadian Dollar	\$0.75	\$0.05	\$30
Mexican Peso	\$17.00	\$1.00	\$25
Oil (\$/bbl Brent)	\$70.00	\$10.00	\$60
Copper (\$/tonne)	\$11,023	\$550	\$60
Silver (\$/oz) ⁽²⁾	\$60.00	\$1.00	\$25
Lead (\$/tonne)	\$1,894	\$220	\$20
Zinc (\$/tonne)	\$2,866	\$220	\$50

- Excluded from the sensitivity is a royalty, production tax, and workers participation impact of approximately **\$6 per ounce** for every **\$100 per ounce change in gold price**
- Co-product metal pricing assumptions in imperial units equate to **Copper (\$5.00/lb.), Lead (\$0.90/lb.) and Zinc (\$1.30/lb.)**

(1) Impacts are presented on a pretax basis. See endnotes for additional information on guidance and assumptions. (2) Silver revenue impact relates only to co-product silver revenue from Peñasquito including the impact of the silver stream agreement.

2026 Consolidated Expense and Capital Guidance (as of February 19, 2026)

Guidance Metric (+/-5%)	2026E
Sustaining Capital (\$M)	
Managed Portfolio	\$1,660
Non-Managed Portfolio	\$290
Total Newmont Sustaining Capital ⁽¹⁾⁽²⁾	\$1,950
Development Capital (\$M)	
Managed Portfolio	\$1,160
Non-Managed Portfolio	\$240
Total Newmont Development Capital ⁽²⁾	\$1,400
Capitalized Interest (\$M)	\$175

- (1) Sustaining capital is presented on an attributable basis.
(2) Capital guidance excludes amounts attributable to the Pueblo Viejo joint venture.

Guidance Metric (+/-5%)	2026E
General & Administrative (\$M)	\$375
Interest Expense (\$M) ⁽¹⁾	\$175
Depreciation & Amortization (\$M)	\$2,815
Reclamation and Remediation Accretion (\$M)	\$385
Adjusted Tax Rate ⁽²⁾⁽³⁾	33%

- (1) Interest expenses guidance is net of capitalized interest.
(2) The adjusted tax rate excludes certain items such as tax valuation allowance adjustments.
(3) Assuming average prices of \$4,500 per ounce for gold, \$5.00 per pound for copper, \$60.00 per ounce for silver, \$0.90 per pound for lead, and \$1.30 per pound for zinc and achievement of current production, sales and cost estimates, Newmont estimates its consolidated adjusted effective tax rate related to continuing operations for 2026 will be 33 percent.

Non-GAAP Reconciliations & Endnotes

Gold All-in Sustaining Costs - 2026 Guidance

A reconciliation of the 2026 Gold AISC guidance to the 2026 Gold CAS guidance is provided below. The estimates in the table below are considered “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbor created by such sections and other applicable laws.

2026 Guidance - Gold ⁽¹⁾⁽²⁾⁽³⁾

(in millions, except ounces and per ounce)

Guidance Estimate

Cost Applicable to Sales ⁽⁴⁾⁽⁵⁾	\$	8,610
Reclamation Costs ⁽⁶⁾		220
Advanced Projects and Exploration ⁽⁷⁾		200
General and Administrative ⁽⁸⁾		375
Other Expense		25
Treatment and Refining Costs		145
Sustaining Capital ⁽⁹⁾		1,950
Sustaining Finance Lease Payments		105
Less: Consolidated Other Metal Sales, net ⁽¹⁰⁾		(3,400)
Gold By-Product AISC	\$	8,230
Ounces (000) Sold ⁽¹¹⁾		4,900
Gold By-Product AISC per Ounce	\$	1,680

- (1) 2026 guidance projections are considered forward-looking statements and represent management's good faith estimates or expectations of future production results as of February 19, 2026. Guidance is based upon certain assumptions, including, but not limited to, metal prices, oil prices, certain exchange rates and other assumptions. For example, 2026 Guidance assumes \$0.70 AUD/USD exchange rate, \$0.75 CAD/USD exchange rate and \$70/barrel Brent. The potential impact on inventory valuation as a result of lower prices, input costs, and project decisions are not included as part of this Guidance. Assumptions used for purposes of Guidance may prove to be incorrect and actual results may differ from those anticipated. Guidance cannot be guaranteed. As such, investors are cautioned not to place undue reliance upon Guidance and forward-looking statements as there can be no assurance that the plans, assumptions or expectations upon which they are placed will occur. Amounts may not recalculate to totals due to rounding. See cautionary statement at the end of this release.
- (2) The reconciliation is provided for illustrative purposes in order to better describe management's estimates of the components of the calculation. Estimates for each component of the forward-looking All-in sustaining costs per ounce are independently calculated and, as a result, the total All-in sustaining costs and the All-in sustaining costs per ounce may not sum to the component ranges. While a reconciliation to the most directly comparable GAAP measure has been provided for the 2026 AISC Gold Guidance on a consolidated basis, a reconciliation has not been provided on an individual site or project basis in reliance on Item 10(e)(1)(i)(B) of Regulation S-K because such reconciliation is not available without unreasonable efforts.
- (3) All values are presented on a consolidated basis for Newmont.
- (4) Excludes *Depreciation and amortization and Reclamation and remediation*.
- (5) Includes stockpile and leach pad inventory adjustments.
- (6) Reclamation costs include operating accretion and amortization of asset retirement costs.
- (7) Advanced Projects and Exploration excludes non-sustaining advanced projects and exploration.
- (8) Includes stock-based compensation.
- (9) Excludes development capital expenditures, capitalized interest and change in accrued capital.
- (10) Assumes copper production of 102 thousand tonnes at \$11,023 per tonne, silver production of 32 million ounces at \$60.00 per ounce, lead production of 90 thousand tonnes at \$1,894 per tonne, and zinc production of 220 thousand tonnes at \$2,866 per tonne.
- (11) Consolidated sales for Merian is presented on a total sales basis for the mine site and excludes sales from Pueblo Viejo and Fruta del Norte.

Free cash flow

The following table sets forth a reconciliation of Free cash flow, a non-GAAP financial measure, to *Net cash provided by (used in) operating activities*, which the Company believes to be the GAAP financial measure most directly comparable to Free cash flow, as well as information regarding *Net cash provided by (used in) investing activities* and *Net cash provided by (used in) financing activities*.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Net cash provided by (used in) operating activities	\$ 2,924	\$ 2,384	\$ 6,709	\$ 4,415
Less: Additions to property, plant and mine development	(719)	(674)	(1,360)	(1,500)
Free Cash Flow	<u>\$ 2,205</u>	<u>\$ 1,710</u>	<u>\$ 5,349</u>	<u>\$ 2,915</u>
Net cash provided by (used in) investing activities ⁽¹⁾	\$ (731)	\$ 679	\$ (1,033)	\$ 1,417
Net cash provided by (used in) financing activities	\$ (1,944)	\$ (1,745)	\$ (4,301)	\$ (3,407)

(1) *Net cash provided by (used in) investing activities* includes *Additions to property, plant and mine development*, which is included in the Company's computation of Free cash flow.

Adjusted net income (loss)

Net income (loss) attributable to Newmont stockholders is reconciled to Adjusted net income (loss) as follows:

	Three Months Ended June 30, 2026			Six Months Ended June 30, 2026		
	per share data ⁽¹⁾			per share data ⁽¹⁾		
		basic	diluted		basic	diluted
Net income (loss) attributable to Newmont stockholders	\$ 2,202	\$ 2.07	\$ 2.06	\$ 5,464	\$ 5.08	\$ 5.07
Adjustments:						
Change in fair value of investments and options ⁽²⁾	111	0.10	0.10	24	0.02	0.02

Other ⁽⁹⁾	(4)	—	—	(29)	(0.03)	(0.03)
Tax effect of adjustments ⁽¹⁰⁾	(22)	(0.02)	(0.02)	—	—	—
Valuation allowance and other tax adjustments ⁽¹¹⁾	(53)	(0.05)	(0.05)	(81)	(0.08)	(0.08)
Adjusted net income (loss)	<u>\$ 2,246</u>	<u>\$ 2.11</u>	<u>\$ 2.10</u>	<u>\$ 5,402</u>	<u>\$ 5.02</u>	<u>\$ 5.01</u>
Weighted average common shares (millions): ⁽¹²⁾		1,065	1,067		1,075	1,077

- (1) Per share measures may not recalculate due to rounding.
- (2) Primarily consists of the unrealized gains and losses related to the Company's marketable equity and other securities; included in *Other income (loss), net*.
- (3) Primarily consists of restructuring and severance related costs associated with significant organizational or operating model changes implemented by the Company for all periods presented; included in *Other expense, net*.
- (4) Consists of non-cash write-downs of various assets that are no longer in use and materials and supplies inventories; included in *Other expense, net*.
- (5) Consists of the impact of finalization of certain working capital adjustments on completed divestments; included in *(Gain) loss on sale of assets held for sale*. Refer to Note 3 to the Condensed Consolidated Financial Statements for further information.
- (6) Primarily consists of gains and losses related to the sale of certain assets and investments; included in *Other income (loss), net*.
- (7) Consists of the gain on debt redemptions; included in *Other income (loss), net*. Refer to Note 15 to the Condensed Consolidated Financial Statements for further information.
- (8) Primarily consists of amounts incurred related to non-recurring contractual obligations arising outside the ordinary course of business; included in *Other expense, net*.
- (9) Primarily consists of post-divestiture activity; included in *Other income (loss), net*. Refer to Note 3 to the Condensed Consolidated Financial Statements for further information on the Company's divestitures.
- (10) The tax effect of adjustments, included in *Income and mining tax benefit (expense)*, represents the tax effect of adjustments in footnotes (2) through (9), as described above, and are calculated using the applicable regional tax rate.
- (11) Valuation allowance and other tax adjustments, included in *Income and mining tax benefit (expense)*, is recorded for items such as foreign tax credits, capital losses, disallowed foreign losses, and the effects of changes in foreign currency exchange rates on deferred tax assets and deferred tax liabilities. The adjustment for the three and six months ended June 30, 2026 reflects the net increase or (decrease) to net operating losses, capital losses, tax credit carryovers, and other deferred tax assets subject to valuation allowance of \$(26) and \$(137), the effects of changes in foreign exchange rates on deferred tax assets and liabilities of \$(15) and \$9, net reductions to the reserve for uncertain tax positions of \$(40) and \$(43), and other tax adjustments of \$28 and \$90. For further information on reductions to the reserve for uncertain tax positions, refer to Note 9 to the Condensed Consolidated Financial Statements.
- (12) Adjusted net income (loss) per diluted share is calculated using diluted common shares in accordance with GAAP.

All-in Sustaining Costs

All-in sustaining costs represent the sum of certain costs, recognized as GAAP financial measures, that management considers to be associated with production. All-in sustaining costs per ounce amounts are calculated by dividing all-in sustaining costs by gold ounces or gold equivalent ounces sold.

Three Months Ended June 30, 2026	Costs Applicable to Sales ⁽¹⁾⁽²⁾⁽³⁾	Reclamation Costs (4)	Advanced Projects, Research and Development and Exploration ⁽⁵⁾	General and Administrative	Other Expense, Net (6)	Treatment and Refining Costs	Sustaining Capital and Lease Related Costs ⁽⁷⁾⁽⁸⁾	Co-Product All-In Sustaining Costs	Ounces (000) Sold	Co-Product All-In Sustaining Costs Per oz. ⁽⁹⁾	Co-Product All- In Sustaining Costs from GEO	Less: Co-product sales ⁽¹⁵⁾	By-Product All-In Sustaining Costs	By-Product All- In Sustaining Costs per Ounce ⁽⁹⁾

(1) Excludes Depreciation and amortization and Reclamation and remediation.

(2) Includes by-product credits of \$130.

(3) Includes stockpile, leach pad, and product inventory adjustments of \$14 at Cadia and \$3 at NGM.

(4) Includes operating accretion of \$34, included in Reclamation and remediation, and amortization of asset retirement costs of \$23; excludes accretion and reclamation and remediation adjustments at former operating properties that have entered the closure phase and have no substantive future economic value of \$41 and \$6, respectively, included in Reclamation and remediation.

(5) Excludes development expenditures of \$2 at Cadia, \$2 at Boddington, \$14 at Ahafo South, \$8 at Merian, \$6 at Cerro Negro, \$2 at Yanacocha, \$4 at Peñasquito, \$1 at Red Chris, \$8 at NGM, \$21 at Corporate and Other, totaling \$68 related to developing new operations or major projects at existing operations where these projects will materially benefit the operation.

(6) Excludes restructuring and severance of \$12, impairment charges of \$2, and settlement costs of \$2 included in Other expense, net.

(7) Excludes capitalized interest related to sustaining capital expenditures. Refer to Liquidity and Capital Resources within Part I, Item 2, MD&A for capital expenditures by segment.

(8) Includes finance lease payments and other costs for sustaining projects of \$24.

(9) Per ounce measures may not recalculate due to rounding.

(10) Production and cost metrics were impacted by the operational stoppage during the second quarter of 2026 due to the Cadia seismic event.

(11) Corporate and Other includes the Company's business activities relating to its corporate and regional offices and all equity method investments. Refer to Note 4 to the Condensed Consolidated Financial Statements for further information.

(12) Gold equivalent ounces is calculated as pounds or ounces produced multiplied by the ratio of the other metals price to the gold price, using Gold (\$4,000/oz.), Copper (\$5.00/lb.), Silver (\$50.00/oz.), Lead (\$0.90/lb.), and Zinc (\$1.30/lb.) pricing for 2026.

(13) Cadia sold 11 thousand tonnes of copper, Boddington sold 5 thousand tonnes of copper, Peñasquito sold 6 million ounces of silver, 17 thousand tonnes of lead and 40 thousand tonnes of zinc, and Red Chris sold 6 thousand tonnes of copper.

(14) All-in sustaining costs at Peñasquito is comprised of \$197, \$20, and \$82 for silver, lead, and zinc, respectively.

(15) Excludes treatment and refining costs as these amounts are reflected in co-product all-in sustaining costs from GEOs; refer to the "Net average realized price per ounce/ pound" section below for a reconciliation of sales.

All-in Sustaining Costs

All-in sustaining costs represent the sum of certain costs, recognized as GAAP financial measures, that management considers to be associated with production. All-in sustaining costs per ounce amounts are calculated by dividing all-in sustaining costs by gold ounces or gold equivalent ounces sold.

Six Months Ended June 30, 2026	Costs Applicable to Sales ⁽¹⁾⁽²⁾⁽³⁾	Reclamation Costs ⁽⁴⁾	Advanced Projects, Research and Development and Exploration ⁽⁵⁾	General and Administrative	Other Expense, Net ⁽⁶⁾	Treatment and Refining Costs	Sustaining Capital and Lease Related Costs ⁽⁷⁾⁽⁸⁾	Co-Product All-In Sustaining Costs	Ounces (000) Sold	Co-Product All-In Sustaining Costs Per oz. ⁽⁹⁾	Co-Product All-In Sustaining Costs from GEO	Less: Co-product sales ⁽¹⁵⁾	By-Product All-In Sustaining Costs	By-Product All-In Sustaining Costs per Ounce ⁽⁹⁾

(3) Includes stockpile, leach pad, and product inventory adjustments of \$14 at Cadia and \$3 at NGM.

(4) Includes operating accretion of \$67, included in *Reclamation and remediation*, and amortization of asset retirement costs of \$50; excludes accretion and reclamation and remediation adjustments at former operating properties that have entered the closure phase and have no substantive future economic value of \$82 and \$10, respectively, included in *Reclamation and remediation*.

(5) Excludes development expenditures of \$6 at Cadia, \$3 at Boddington, \$22 at Ahafo South, \$1 at Ahafo North, \$13 at Merian, \$10 at Cerro Negro, \$4 at Yanacocha, \$7 at Peñasquito, \$2 at Red Chris, \$13 at NGM, \$37 at Corporate and Other, totaling \$118 related to developing new operations or major projects at existing operations where these projects will materially benefit the operation.

(6) Excludes restructuring and severance of \$18 and impairment charges of \$11 included in *Other expense, net*.

(7) Excludes capitalized interest related to sustaining capital expenditures. Refer to Liquidity and Capital Resources within Part I, Item 2, MD&A for capital expenditures by segment.

(8) Includes finance lease payments and other costs for sustaining projects of \$46.

(9) Per ounce measures may not recalculate due to rounding.

(10) Production and cost metrics were impacted by the operational stoppage during the second quarter of 2026 due to the Cadia seismic event.

(11) Corporate and Other includes the Company's business activities relating to its corporate and regional offices and all equity method investments. Refer to Note 4 to the Condensed Consolidated Financial Statements for further information.

(12) Gold equivalent ounces is calculated as pounds or ounces produced multiplied by the ratio of the other metals price to the gold price, using Gold (\$4,000/oz.), Copper (\$5.00/lb.), Silver (\$50.00/oz.), Lead (\$0.90/lb.), and Zinc (\$1.30/lb.) pricing for 2026.

(13) Cadia sold 32 thousand tonnes of copper, Boddington sold 8 thousand tonnes of copper, Peñasquito sold 16 million ounces of silver, 45 thousand tonnes of lead and 98 thousand tonnes of zinc, and Red Chris sold 12 thousand tonnes of copper.

(14) All-in sustaining costs at Peñasquito is comprised of \$385, \$41, and \$170 for silver, lead, and zinc, respectively.

(15) Excludes treatment and refining costs as these amounts are reflected in co-product all-in sustaining costs from GEOs; refer to the "Net average realized price per ounce/ pound" section below for a reconciliation of sales.

EBITDA and Adjusted EBITDA

Net income (loss) attributable to Newmont stockholders is reconciled to EBITDA and Adjusted EBITDA as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Net income (loss) attributable to Newmont stockholders	\$ 2,202	\$ 2,061	\$ 5,464	\$ 3,952
Net income (loss) attributable to noncontrolling interests	49	14	115	25
Equity loss (income) of affiliates	(204)	(49)	(353)	(127)
Income and mining tax expense (benefit)	952	1,092	2,356	1,739
Depreciation and amortization	604	620	1,236	1,213
Interest expense, net of capitalized interest	35	65	74	144
EBITDA	3,638	3,803	8,892	6,946
Adjustments:				
Change in fair value of investments and options ⁽¹⁾	111	(151)	24	(442)
Restructuring and severance ⁽²⁾	12	15	18	24
Impairment charges ⁽³⁾	2	9	11	24
(Gain) loss on sale of assets held for sale ⁽⁴⁾	(5)	(699)	(5)	(975)
(Gain) loss on asset and investment sales ⁽⁵⁾	1	2	1	7
(Gain) loss on debt extinguishment ⁽⁶⁾	—	18	(1)	28
Settlement costs ⁽⁷⁾	2	—	—	3
Newcrest transaction and integration costs ⁽⁸⁾	—	(10)	—	(6)
Other ⁽⁹⁾	(4)	10	(29)	17
Adjusted EBITDA	\$ 3,757	\$ 2,997	\$ 8,911	\$ 5,626

- (1) Primarily consists of the unrealized gains and losses related to the Company's marketable equity and other securities; included in *Other income (loss), net*.
- (2) Primarily consists of restructuring and severance related costs associated with significant organizational or operating model changes implemented by the Company for all periods presented; included in *Other expense, net*.
- (3) Consists of non-cash write-downs of various assets that are no longer in use and materials and supplies inventories; included in *Other expense, net*.
- (4) Primarily consists of the gain on the sales of certain non-core assets; included in *(Gain) loss on sale of assets held for sale*. Refer to Note 3 to the Condensed Consolidated Financial Statements for further information.
- (5) Primarily consists of gains and losses related to the sale of certain assets and investments; included in *Other income (loss), net*.
- (6) Consists of the gains and losses on debt redemptions incurred in 2026 and 2025, respectively; included in *Other income (loss), net*. Refer to Note 15 to the Condensed Consolidated Financial Statements for further information.
- (7) Primarily consists of amounts incurred related to non-recurring contractual obligations arising outside the ordinary course of business; included in *Other expense, net*.
- (8) Consists of costs incurred in 2025 related to the Newcrest transaction; included in *Other expense, net*.
- (9) Primarily consists of post-divestiture activity and costs incurred related to transition service agreements for divested reportable segments; included in *Other income (loss), net*. Refer to Note 3 to the Condensed Consolidated Financial Statements for further information on the Company's divestitures.

Endnotes

Investors are encouraged to read the information contained in this presentation in conjunction with Newmont's Form 10-Q for the quarter ended June 30, 2026, filed on July 23, 2026. Investors are reminded that expectations regarding outlook and guidance, including future financial results, operating performance, projects, exploration, investments, capital allocation, dividends and transactions are forward looking and remain subject to risk and uncertainties. See Cautionary Statement on slide 2, the risk factors section in the Form 10-K and other factors identified in the Company's reports filed with the SEC including the Form 10-Q filed on July 23, 2026, and the notes below.

Guidance Assumptions. Guidance and projections used in this presentation are considered forward-looking statements and represent management's good faith estimates or expectations of future production results as of February 19, 2026. Guidance is based upon certain assumptions, including, but not limited to, metal prices, oil prices, certain exchange rates and other assumptions. See slide 13 for examples of such assumptions and estimated revenue and cost impacts of changes therefrom. Production, CAS, AISC and capital estimates exclude projects that have not yet been approved. The potential impact on inventory valuation as a result of lower prices, input costs, and project decisions are not included as part of this Guidance. Assumptions used for purposes of Guidance may prove to be incorrect and actual results may differ from those anticipated, including variation beyond a +/-5% range. Guidance cannot be guaranteed. As such, investors are cautioned not to place undue reliance upon Guidance and forward-looking statements as there can be no assurance that the plans, assumptions or expectations upon which they are placed will occur.

Reserves and Resources gold equivalent ounces (GEOs). Gold Equivalent Ounces calculated using Mineral Reserve pricing: Gold (\$2,000/oz.), Copper (\$3.75/lb.), Silver (\$25/oz.), Lead (\$0.90/lb.), and Zinc (\$1.20/lb.) and Resource pricing: Gold (\$2,300/oz.), Copper (\$4.25/lb.), Silver (\$28/oz.), Lead (\$1.00/lb.), and Zinc (\$1.30/lb.) and metallurgical recoveries for each metal on a site-by-site basis as: $\text{metal} * [(\text{metal price} * \text{metal recovery}) / (\text{gold price} * \text{gold recovery})]$.

Share Repurchase Program. In April 2026, the Board of Directors authorized an additional \$6,000 million stock repurchase program to repurchase shares of outstanding common stock. The program will be executed at the Company's discretion. The repurchase program has no expiration date, may be discontinued at any time, and the program does not obligate the Company to acquire any specific number of shares of its common stock or to repurchase the full authorized amount. Consequently, the Board of Directors may revise or terminate such share repurchase authorization in the future. See Part II, Item 5 of the form 10-K for additional information, including maximum dollar amount that may yet be purchased under the program.

Capital Allocation Framework and Dividends. Future dividends, beyond the dividend declared for the second quarter 2026, have not yet been approved or declared by the Board of Directors. An annualized dividend payout level has not been declared by the Board and is non-binding. The Company's dividend framework and expected 2026 dividend payout ranges are non-binding. Management's expectations with respect to future dividends, annualized dividends, payout ranges or dividend yield are "forward-looking statements." The declaration and payment of future dividends remain at the discretion of the Board of Directors and will be determined based on Newmont's financial results, balance sheet strength, cash and liquidity requirements, future prospects, gold and commodity prices, and other factors deemed relevant by the Board. The Board of Directors reserves all powers related to the declaration and payment of dividends. Consequently, in determining the dividend to be declared and paid on the common stock of the Company, the Board of Directors may revise or terminate the payment level at any time without prior notice. The Capital Allocation Framework is provided for illustrative purposes and remains non-binding. Guidance expectations, including capital allocation uses, future dividends, debt management and share repurchases, are forward-looking statements.

Productivity Improvements. Productivity Improvements are a management estimate provided for illustrative purposes and should not be considered a GAAP or non-GAAP financial measure. Such estimates are necessarily imprecise and are based on numerous judgments and assumptions.

Projections. Projections, outlook and non-historical estimates used in this presentation are considered "forward looking statements". See cautionary statement above regarding forward-looking statements. Estimates such as expected accretion, net asset value (NAV) per share, cash flow enhancement, synergies and future production are preliminary in nature.

Non-GAAP Metrics. are defined and reconciled in the non-GAAP endnote appendix and are also available in the Company's Form 10-Q for the quarter ended June 30, 2026. Investors are encouraged to refer to Item 7, Management Discussion and Analysis, under the heading Non-GAAP Financial Measures for additional information, including with respect to Free Cash Flow and All-In Sustaining Costs.

Free Cash Flow. FCF is a non-GAAP metric and is generated from *Net cash provided from operating activities of continuing operations* on an attributable basis less *Additions to property, plant and mine development* on an attributable basis. See appendix for more information and for a reconciliation to the nearest GAAP metric. Attributable FCF projections as used in outlook are forward-looking statements and remain subject to risks and uncertainties.

All-in Sustaining Cost. AISC or All-in sustaining cost is a non-GAAP metric. AISC as used in the Company's outlook is a forward-looking statement and is therefore subject to uncertainties. AISC is a non-GAAP metric defined as the sum of cost applicable to sales (including all direct and indirect costs related to current gold production incurred to execute on the current mine plan), remediation costs (including operating accretion and amortization of asset retirement costs), G&A, exploration expense, advanced projects and R&D, treatment and refining costs, other expense, net of one-time adjustments, sustaining capital and finance lease payments. See appendix for more information and a reconciliation of 2026 AISC outlook to the 2026 CAS outlook.

Adjusted Net Income (Loss). Management uses Adjusted net income (loss) to evaluate the Company's operating performance and for planning and forecasting future business operations. The Company believes the use of Adjusted net income (loss) allows investors and analysts to understand the results of the continuing operations of the Company and its direct and indirect subsidiaries relating to the sale of products, by excluding certain items that have a disproportionate impact on our results for a particular period. Adjustments to continuing operations are presented before tax and net of our partners' noncontrolling interests, when applicable. The tax effect of adjustments is presented in the Tax effect of adjustments line and is calculated using the applicable tax rate. Management's determination of the components of Adjusted net income (loss) are evaluated periodically and based, in part, on a review of non-GAAP financial measures used by mining industry analysts.

Endnotes

Adjusted EBITDA. Adjusted EBITDA is a non-GAAP metric. Management uses Earnings before interest, taxes, and depreciation and amortization ("EBITDA") and EBITDA adjusted for non-core or certain items that have a disproportionate impact on our results for a particular period ("Adjusted EBITDA") as non-GAAP measures to evaluate the Company's operating performance. EBITDA and Adjusted EBITDA do not represent, and should not be considered an alternative to, net income (loss), operating income (loss), or cash flow from operations as those terms are defined by GAAP, and do not necessarily indicate whether cash flows will be sufficient to fund cash needs. See appendix for more information and for a reconciliation to the nearest GAAP metric.

Net Debt. Net debt is a non-GAAP metric and is calculated as Debt and Lease and other financing obligations less Cash and cash equivalents, as presented on the Consolidated Balance Sheets. Cash and cash equivalents are subtracted from Debt and Lease and other financing obligations as these could be used to reduce the Company's debt obligations. The Company believes the use of Net debt allows investors and others to evaluate financial flexibility and strength of the Company's balance sheet. The Company has also presented Net debt excluding Lease and other financing obligations to provide a supplemental view of evaluating the financial flexibility and strength of the Company's balance sheet. Net debt is intended to provide additional information only and does not have any standardized meaning prescribed by GAAP and should not be considered in isolation or as a substitute for measures of liquidity prepared in accordance with GAAP. Other companies may calculate this measure differently.

Past Performance. Past performance metrics and figures included in this presentation are given for illustrative purposes only and should not be relied upon as (and are not) an indication of Newmont's views on its future financial performance or condition or prospects (including on a consolidated basis). Investors should note that past performance of Newmont, including in relation to the past value returned to stockholders and past value creation and annual synergies, and other historical financial information cannot be relied upon as an indicator of (and provide no guidance, assurance or guarantee as to) future performance, including future synergies or value to stockholders.

Cautionary Statement Regarding Mineral Reserve and Resource Estimates. The mineral reserve and resource estimates herein with respect to Newmont represent estimates at December 31, 2025, which could be economically and legally extracted or produced at the time of their determination. Estimates of proven and probable reserves are subject to considerable uncertainty. Such estimates are, or will be, to a large extent, based on metal prices and interpretations of geologic data obtained from drill holes and other exploration techniques, which data may not necessarily be indicative of future results. Additionally, Newmont's resource estimates do not indicate proven and probable reserves as defined by the SEC or Newmont's standards. Estimates of measured, indicated and inferred resources are subject to further exploration and development, and are, therefore, subject to considerable uncertainty. Inferred resources, in particular, have a great amount of uncertainty as to their existence and their economic and legal feasibility. Newmont cannot be certain that any part or parts of its resources will ever be converted into reserves, and investors are cautioned not to assume that all or any part of an inferred mineral resource exists or is economically or legally mineable. For additional information on our reserves and resources, please see Item 2 of the Company's Form 10-K, filed on, or about, February 19, 2026 with the SEC, and "Item 1A. Risk Factors — Risks Related to Our Operations and Business — Estimates of proven and probable reserves and measured, indicated and inferred resources are uncertain and the volume and grade of ore actually recovered may vary from our estimates". Mineral reserve and resource estimates are expressed on an attributable basis unless otherwise indicated.
