

Market Release

Newcrest Mining

14 June 2016

NEWCREST MINING LIMITED

Mine production resumed at Kencana

Mining recommenced over the weekend at the Kencana mine, part of the Gosowong operation.

Following the geotechnical event at Kencana on 8 February 2016, mining at Gosowong was suspended. Mining recommenced at the Toguraci mine on 12 April 2016 and at the Kencana mine over the weekend. Both mines will continue to ramp up, with full production not expected for at least two months.

Group production and cost guidance for the 2016 financial year remains unchanged from the guidance provided in the March Quarterly Report on 26 April 2016. Gosowong production for the 2016 financial year is expected to be around the bottom end of its guidance range.
