

2024 SASB Report

Topic/ Metric No.	Activity Metric	Metric/Information Related to Topic ¹
Activity Metrics Related to Operations		
IF-WM-000.A	Number of customers by category: (1) Municipal, (2) Commercial, (3) Industrial, (4) Residential, and (5) Other	N/A - GFL does not track numbers by these customer categories.
IF-WM-000.B	Vehicle fleet size	7,147 solid waste collection vehicles.
IF-WM-000.C	Number of (1) Landfills, (2) Transfer stations, (3) Recycling centres, (4) Composting centres, (5) Incinerators, and (6) All other facilities	(1) 90+, (2) 175+, (3) 30+, (4) 20+ organics facilities, (5) 0, (6) 230+ collection operations, 150+ liquid waste facilities
IF-WM-000.D	Total amount of materials managed, by customer category: (1) Municipal, (2) Commercial, (3) Industrial, (4) Residential, and (5) Other	N/A - GFL does not track numbers by these customer categories.
Greenhouse Gas Emissions (GHGs)		
IF-WM-110a.1	(1) Gross global scope 1 Emissions, percentage covered by (2) Emissions-limiting regulations, and (3) Emissions-reporting regulations	(1) 4,630,217 tCO ₂ e (2) 6.2% (3) 66.1%
IF-WM-110a.2	(1) Total landfill gas generated, (2) Percentage flared, (3) Percentage used for energy	(1) Landfill gas captured: 13,281,715 MMBtu (2) 66% (3) 34%
IF-WM-110a.3	Discussion of long-term and short-term strategy or plan to manage scope 1 and lifecycle emissions, emissions reduction targets, and an analysis of performance against those targets	<p>In 2024, GFL committed to a 30% reduction in scope 1 and 2 emissions from a 2021 base year. We plan to achieve this goal by reducing landfill emissions 30%, fleet emissions 42%, and reaching 100% renewable electricity at our own facilities by 2030. This target covers 100% of our scope 1 and 2 emissions. Our climate leadership goals focus on investing in the technologies and practices that will reduce our own GHG emissions primarily from our landfills, fleet, and electricity consumption.</p> <p>The scope 1 emissions value in IF-WM-110a.1 represents actual emissions for the reporting year calculated in accordance with The GHG Protocol. Our 2024, scope 1 and 2 emissions were 3% lower than our 2021 base year emissions. More information on our GHG emissions and progress towards our target will be provided in additional sustainability reporting to be released later in 2025.</p>

¹ Our [2024 Data Summary](#) provides additional detailed and historical information about our operations and emissions and was used to support the disclosures in this report.

Topic/ Metric No.	Activity Metric	Metric/Information Related to Topic ¹
Fleet Fuel Management		
IF-WM-110b.1	(1) Fleet fuel consumed, (2) Percentage natural gas, (3) Percentage renewable	(1) 11,411,091 GJ, (2) 20.2%, (3) 11.3%
IF-WM-110b.2	Percentage of alternative fuel vehicles in fleet	Percentage of solid waste collection fleet fueled with CNG is 23.0%.
Air Quality		
IF-WM-120a.1	Air emissions of the following pollutants: (1) NOx (excluding N2O), (2), SOx, (3) Volatile organic compounds (VOCs), and (4) Hazardous air pollutants (HAPs) ²	(1) 266 tonnes, (2) 50 tonnes, (3) 351 tonnes, (4) 191 tonnes
IF-WM-120a.2	Number of facilities in or near areas of dense population ³	4 active, 7 inactive
IF-WM-120a.3	Number of incidents of non-compliance associated with air emissions	Number of formal enforcement actions: 1
Management of Leachate and Hazardous Waste		
IF-WM-150a.1	(1) Total Toxic Release Inventory (TRI) releases, (2) Percentage released to water	N/A - TRI releases are de minimus for our business.
IF-WM-150a.2	Number of corrective actions implemented for landfill releases	0
IF-WM-150a.3	Number of incidents of non-compliance associated with environmental impacts	Number of formal enforcement actions: 0
Labour Practices		
IF-WM-310a.1	Percentage of active workforce covered under collective bargaining agreements	10.4%
IF-WM-310a.2	(1) Number of work stoppages and (2) Total days idle	(1) 0, (2) 0

² Air emissions are reported from LFG combustion activities only.

³ Number of active and inactive facilities is based on reviewing our facility locations against information in the US Census Bureau's American Community Survey which is refined and updated on an annual basis.

Topic/ Metric No.	Activity Metric	Metric/Information Related to Topic ¹
Workplace Health & Safety		
IF-WM-320a.1	(1) Total recordable incident rate (TRIR), (2) Fatality rate, and (3) Near miss frequency rate (NMFR) for (a) direct employees and (b) contract employees	(1) 2.5, (2) and (3) GFL's Safe For Life Health & Safety Program includes comprehensive metrics for continually improving tracking of KPIs for internal and external reporting based on applicable legislative requirements in every jurisdiction in which GFL operates. We rely on these metrics to monitor and improve our performance and do not publicly report (2) and (3) as defined by SASB.
IF-WM-320a.3	Number of road accidents and incidents	GFL's Safe For Life Health & Safety Program includes comprehensive metrics for continually improving tracking of KPIs for internal and external reporting based on applicable legislative requirements in every jurisdiction in which GFL operates. As a result, a consolidated set of relevant metrics that are representative of GFL's performance across all regions of operation and business units are not currently available.
Recycling & Resource Recovery		
IF-WM-420a.1	(1) Amount of waste incinerated, (2) Percentage hazardous, (3) Percentage used for energy recovery	(1) 0%, (2) 0%, (3) 0%
IF-WM-420a.2	Percentage of customers receiving (1) Recycling, by customer type and (2) Composting services, by customer type	N/A - GFL does not measure materials managed by customer type.
IF-WM-420a.3	Amount of material (1) Recycled, (2) Composted	(1) Solid waste recycling: 2,931,465 tonnes, Liquid waste recycling: 309 megalitres, Soil recycling: 3,637,408 tonnes, (2) 747,836 tonnes
IF-WM-420a.4	(1) Amount of electronic waste collected, (2) Percentage recovered through recycling	(1) 5,094 tonnes, (2) Not available - GFL does not currently track this metric.
