3. Period covered (e.g., '12 months to DD MM YY'):

The reporting period is between 01/01/24 and 31/12/24.

4. Verification standard used:

For the verification of the 2024 GHG Report, GHD has applied ISO 14064-3. The verification was also completed in general accordance with the requirements of the SASB Standards and the GHG Protocol.

5. Assurance opinion (incl. level of assurance and any qualifications):

Materiality for this verification has been set at 5 percent for both GFL's direct (Scope 1) and indirect (Scope 2) emissions as per the guidance of the GHG Protocol.

GHD's assessment of all data provided by GFL, has indicated the following net discrepancies:

- Net sum of Scope 1 discrepancies: 0 percent
- Net sum of all Scope 2 discrepancies: 0 percent
- Net sum of all Scope 3 discrepancies: 0 percent

GHD completed the verification in accordance with the ISO 14064 Part 3 Specification with guidance for the validation and verification of greenhouse gas assertions and ISO 14064 Part 1 Specification with guidance at the organizational level. GHD completed the work to provide a limited level of assurance. The verification criteria were selected from guidelines presented in ISO 14064 Part 3. The work conducted is believed to provide an appropriate basis for this verification statement.

Based on our verification, the GHG statement is, in all material aspects, in accordance with the verification criteria and is free of material misstatements.
