Adelante® Sigma

Introducer Set With Hemostatic Valve

The Adelante® Sigma is the next generation in vascular access sheath introducers, featuring the latest hemostatic valve technology, which allows for the introduction of small to large devices.

FEATURES

- Ergonomically designed hub
- Hemostatic seal designed to minimize blood loss and air embolism
- Easy French size identification with color coded hub and 3-way stopcock
- Kink resistant and flexible hydrophobic coated sheath design for smooth insertion
- Atraumatic tip of dilator provides smooth transition between dilator and sheath during insertion
- Snap-locking dilator connector with French size indicator
- Visible under fluoroscopy
- Accepts maximum guidewire up to 0.038"/0.96 mm

ORDERING INFORMATION
