

Oscor® Inc. – an Integer Company

Adaptors & Extensions

**Bifurcated, Unipolar, and Bipolar Implantable
Lead Adaptors, Extensions and Plugs**

Adaptors link existing leads to new active implantable medical devices. We select the best material and utilize leading industry processes to ensure optimal performance and reliability between new and existing technologies. In addition to our custom development programs, we offer non-proprietary adaptors to speed development timelines. Our standard configurations are sold through the major OEM companies as additions to product lines in the markets of cardiac rhythm, neuromodulation and hearing restoration.
