Onto Innovation Receives TSMC Honor for “Excellent Production Support”

2025-12-22

The award recognizes Onto Innovation’s achievements leveraging artificial intelligence technologies in process control applications

WILMINGTON, Mass.--(BUSINESS WIRE)-- **Onto Innovation Inc.** (NYSE: ONTO) today announced the Company has received the “Excellent Production Support” award from Taiwan Semiconductor Manufacturing Co., Ltd (TSMC) as part of its initiative recognizing the outstanding contributions of its global suppliers.

Onto Innovation received the Excellent Production Support Award from Taiwan Semiconductor Manufacturing Co., Ltd. (TSMC), recognizing the outstanding contributions of its global suppliers. The award was presented by Cliff Hou, senior vice president and deputy co-chief operating officer and chief information security officer of TSMC, and accepted by Ramil Yaldae, Chief Operating Officer of Onto Innovation, during a ceremony on November 25, 2025.

Onto Innovation achieves ongoing success in integrating machine learning and predictive analytics into its metrology and inspection systems, which increases productivity for its customers. TSMC saluted Onto

Innovation for supporting its 2025 deliveries through proactive supply chain management and manufacturing agility.

The award was presented by Cliff Hou, senior vice president and deputy co-chief operating officer and chief information security officer of TSMC, and accepted by Ramil Yaldae, chief operating officer of Onto Innovation, during a ceremony on November 25.

“We are honored to receive this recognition from our partner TSMC, acknowledging both our technology as well as

our execution,” said Michael Plisinski, chief executive officer of Onto Innovation. “I want to thank our team for the outstanding performance this year, acknowledged by this award. We look forward to another exciting year supporting our partners with the innovations to help them effectively ramp the new technologies that are changing our world.”

About Onto Innovation Inc.

Onto Innovation is a leader in process control, combining global scale with an expanded portfolio of leading-edge technologies that includes un-patterned wafer quality, 3D metrology spanning chip features from nanometer scale transistors to large die interconnects, macro defect inspection of wafers and packages, metal interconnect composition, factory analytics, and lithography.

Our breadth of offerings across the entire semiconductor value chain combined with our connected thinking approach results in a unique perspective to help solve our customers’ most difficult yield, device performance, quality, and reliability issues. Onto Innovation strives to optimize customers’ critical path of progress by making them smarter, faster and more efficient. Headquartered in Wilmington, Massachusetts, Onto Innovation supports customers with a worldwide sales and service organization.
