NEWS RELEASE

Is It Time for XRP? PFMCrypto Unveils First-Ever XRP Cloud Mining Contracts with Daily Payouts — A New XRP Era Begins

2025-06-23

A breakthrough in XRP mining is finally here—PFMCrypto unveils a cloud-based, daily-profit model that could redefine passive income in the XRP ecosystem.

Farington, England, June 23, 2025 (GLOBE NEWSWIRE) -- A breakthrough in XRP mining is finally here—PFMCrypto unveils a cloud-based, daily-profit model that could redefine passive income in the XRP ecosystem.

As the digital asset market awaits XRP's next big move, PFMCrypto has taken a major leap forward by launching its revolutionary XRP cloud mining contracts—an innovative model that brings daily profits to users without requiring any hardware or technical skills. This move has already sparked significant excitement among crypto investors and XRP enthusiasts worldwide.

For months, XRP has been consolidating within a tight price band, leading many to believe that a breakout is on the horizon. In this context, PFMCrypto's XRP Mining Contracts offering not only provides a new income stream but also strengthens confidence in XRP's long-term utility and value.

XRP Mining Reimagined: Cloud Mining Contracts Designed Specifically for XRP Holders

XRP's unique consensus protocol makes traditional proof-of-work (PoW) mining impossible. To address this, PFMCrypto has introduced a simulated mining model—designed specifically for XRP—that rewards users based on smart contract participation, mimicking the earning dynamics of conventional mining.

The platform offers access to eco-friendly, high-performance mining infrastructure through remote contracts. In addition to XRP, users can mine DOGE, BTC, ETH, BCH, LTC, and SOL, making it a diverse and user-friendly passive income solution.

"This isn't just a mining product—it's a new way to be part of the XRP network," said PFMCrypto's CTO. "Our contracts provide real value, real rewards, and real impact—backed by smart-yield technology aligned with XRP's architecture."

Key Features of the PFMCrypto XRP Cloud Mining Contracts

- No Hardware Required: Accessible to all users without mining equipment or technical setup
- Daily Payouts: Earn mining rewards daily based on your contract participation
- Secure Custody: Assets are protected with PFMCrypto's industry-grade security standards
- Flexible Contract Terms: Choose short-, mid-, or long-term options to match your investment strategy

Custom Plans for Every Investor

With over 10 contract types, PFMCrypto empowers users to choose plans that align with their goals and budgets. Here are some popular options:

$10 Plan – 1-Day Term – Earn $0.60

$100 Plan – 2-Day Term – Earn $3.00/day + $2 bonus

$1,000 Plan – 9-Day Term – Earn $13.10/day

$5,000 Plan – 30-Day Term – Earn $78.50/day

Whether you're a casual XRP holder or a serious investor, these flexible plans offer a way to earn consistent returns even during market sideways movement.

Rising Participation Signals Market Confidence

In June 2025, PFMCrypto reported a surge in user activity, with tens of thousands of new wallets registered during the early access phase. All new users receive a $10 welcome bonus, and daily login rewards add even more earning potential. Analysts view this rapid adoption as a bullish signal for XRP and a sign of growing user demand for income-generating tools in the crypto space.

What Makes PFMCrypto's XRP Contracts Unique?

- 100% Remote Access: No hardware, no technical skills—just log in and activate your plan.

- Capital Protection: Contracts guarantee full principal return at maturity.

- AI-Driven Profitability: Smart optimization ensures returns even during price stagnation.

- Daily Rewards: Predictable XRP payouts improve cash flow and reduce volatility risks.
