

NEWS RELEASE

OKX Introduces 'Edit Parameters' Feature for Spot Grid Bots

2024-08-27

NASSAU, the Bahamas, Aug. 27, 2024 (GLOBE NEWSWIRE) -- **OKX**, a leading crypto exchange and global Web3 technology company, has issued updates for August 27, 2024.

OKX Introduces 'Edit Parameters' Feature for Spot Grid Bots

Responding to user feedback, OKX today announced the launch of its highly anticipated 'Edit Parameters' feature for **Spot Grid** bots. These automated trading tools allow users to set a price range for executing buy and sell orders; with this latest update, they now offer greater flexibility and control in trading strategy management.

The 'Edit Parameters' feature enables eligible users* to:

- Adjust 'Grid Range' and 'Grid Quantity' on-the-fly, facilitating dynamic strategy optimization
- Modify bot settings without interruption, enhancing trading continuity and efficiency
- Quickly adapt to market shifts with instant parameter adjustments
- Automatically reinvest profits, maximizing capital utilization
- Fine-tune various running states, offering unparalleled bot management flexibility
- Seamlessly top-up quote assets to maintain uninterrupted bot operation

In addition, lead traders can now ensure that any changes they make to their Spot Grid bots are seamlessly replicated across their followers' bots, enhancing the copy trading experience.

This feature underscores OKX's dedication to user-centric innovation and solidifies its position as an industry leader in intuitive, automated trading solutions. OKX plans to extend this powerful 'Edit Parameters' capability to its futures bots in the coming months, with more details to be announced soon.

*Not all products offered in all regions. Trading in pre-market futures is highly risky due to such factors as lower liquidity, higher price volatility, and there is increased liquidation risk. Not all tokens underlying pre-market futures will ultimately be listed on OKX. Users will not receive underlying tokens. OKX retains sole discretion to adjust any listing, extend or terminate the futures contract and/or settlement date for the futures contract, or suspend trading in pre-market futures.
