Forward-Looking Statements

This press release contains forward-looking statements within the meaning of federal and state securities laws. All statements other than statements of historical fact contained in this press release, including statements regarding the strength of our product offering, the expansion of our logistics network, our future results of operations and financial position, our business strategy and our plans and objectives of management for future operations, are forward-looking statements. In some cases, you can identify forward-looking statements by terms such as "may," "will," "should," "expects," "plans," "anticipates," "could," "intends," "target," "projects," "contemplates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of these terms or other similar expressions.

Forward-looking statements are based on current expectations of future events. We cannot guarantee that any forward-looking statement will be accurate, although we believe that we have been reasonable in our expectations and assumptions. Investors should realize that if underlying assumptions prove inaccurate or that known or unknown risks or uncertainties materialize, actual results could vary materially from our expectations and projections. Investors are therefore cautioned not to place undue reliance on any forward-looking statements. These forward-looking statements speak only as of the date of this press release and, except as required by applicable law, we undertake no obligation to publicly update or revise any forward-looking statements contained herein, whether as a result of any new information, future events or otherwise.

A list and description of risks, uncertainties and other factors that could cause or contribute to differences in our results can be found in our filings with the Securities and Exchange Commission, including our most recent Annual Report on Form 10-K and subsequent filings. We qualify all of our forward-looking statements by these cautionary statements.

Non-GAAP Financial Measures

To supplement our unaudited consolidated and condensed financial statements presented in accordance with generally accepted accounting principles ("GAAP"), this earnings release and the accompanying tables and the related earnings conference call contain certain non-GAAP financial measures, including Adjusted EBITDA, Adjusted EBITDA as a percentage of total net revenue ("Adjusted EBITDA Margin"), free cash flow and non-GAAP net loss and

diluted net loss per share. We use these non-GAAP financial measures internally in analyzing our financial results and believe they are useful to investors, as a supplement to GAAP measures, in evaluating our ongoing operational performance. We have provided a reconciliation of these non-GAAP financial measures to the most directly comparable GAAP financial measure in this earnings release.

Adjusted EBITDA and Adjusted EBITDA Margin are non-GAAP financial measures that are calculated as income (loss) before depreciation and amortization, equity-based compensation and related taxes, interest and other income and expense, (benefit from) provision for income taxes, and non-recurring items. We have included Adjusted EBITDA and Adjusted EBITDA Margin in this earnings release because they are key measures used by our management and our board of directors to evaluate our operating performance, generate future operating plans and make strategic decisions regarding the allocation of capital. In particular, the exclusion of certain expenses in calculating Adjusted EBITDA and Adjusted EBITDA Margin facilitates operating performance comparisons on a period-to-period basis and, in the case of exclusion of the impact of equity-based compensation and related taxes, excludes an item that we do not consider to be indicative of our core operating performance. Investors should, however, understand that equity-based compensation will be a significant recurring expense in our business and an important part of the compensation provided to our employees. Accordingly, we believe that Adjusted EBITDA and Adjusted EBITDA Margin provide useful information to investors and others in understanding and evaluating our operating results in the same manner as our management and board of directors.

Free cash flow is a non-GAAP financial measure that is calculated as net cash (used in) provided by operating activities less net cash used to purchase property and equipment and site and software development costs. We believe free cash flow is an important indicator of our business performance, as it measures the amount of cash we generate. Accordingly, we believe that free cash flow provides useful information to investors and others in understanding and evaluating our operating results in the same manner as our management.

Non-GAAP diluted net loss per share is a non-GAAP financial measure that is calculated as GAAP net loss plus equity-based compensation expense and related taxes, (benefit from) provision for income taxes, and non-recurring items divided by weighted average shares. We believe that adding back equity-based compensation expense and related taxes and (benefit from) provision for income taxes, and non-recurring items as adjustments to our GAAP diluted net loss before calculating per share amounts for all periods presented provides a more meaningful comparison between our operating results from period to period.

We do not, nor do we suggest that investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Investors should also note that the non-GAAP financial measures we use may not be the same non-GAAP financial measures, and may not be calculated in the same manner, as that of other companies, including other companies in our industry.
