Anti-Bribery and Corruption Policy

1. Background

The global nature of the business of Verisk Analytics, Inc., and its Business Units (Verisk) often requires that Verisk interact with officials of various governments around the world. Verisk's policy and applicable United States and foreign law establish certain limits on those interactions. Verisk is committed to carrying out business fairly, honestly, and openly with zero tolerance toward bribery and corruption by those employed by and associated with the Company. Verisk believes that bribery and corruption are significant barriers to open and fair competition for goods and services.

2. Policy Statement

It is Verisk’s policy that directors, officers, employees, and all persons and organizations acting on its behalf (Associated Persons) are prohibited from offering or paying, directly or indirectly, any Bribe to any employee, official, or agent of any government, commercial entity, or individual in connection with Verisk’s business or activities. Likewise, acceptance of any Bribe in connection with Verisk’s business or activities is prohibited. This Anti-Bribery and Corruption Policy (Policy) applies across all jurisdictions in which Verisk operates and to all Verisk employees and Associated Persons regardless of local customs or practices.

This Policy does not preclude reasonable and appropriate hospitality designed to encourage constructive relationships with Verisk customers, prospects, and others rather than influence a particular decision.

Verisk maintains books, records, and accounts that accurately and fairly reflect all of Verisk’s financial transactions and provide assurance that all such transactions are properly authorized and executed. All individuals to whom this Policy applies have a responsibility to comply with this Policy and a duty to report any suspected violations of this Policy through established reporting procedures. Anyone found to have violated this Policy is subject to disciplinary action up to and including dismissal as well as any and all appropriate civil and criminal sanctions.

Verisk’s Executive Vice President, General Counsel, and Corporate Secretary is the officer responsible for this Policy.

This Policy is provided to all employees and Associated Persons of Verisk. This Policy may be shared only in accordance with the Data Classification and Handling Policy available on the Enterprise Risk & Compliance intranet site or by contacting Verisk’s Vice President of Global IT Security Services or Vice President of Compliance.
3. Purpose

It is the policy of Verisk to comply with the laws of the countries in which it operates, including laws designed to combat bribery and corruption. These laws have wide scope and hidden complexities that necessitate formal policies and procedures be in place to ensure that all Verisk personnel conduct themselves consistent with these laws. This Policy sets forth the framework for assuring compliance with all applicable anti-bribery and corruption laws.

4. Audience

The audience includes all Verisk directors, officers, employees, and Associated Persons acting on behalf of Verisk across all Business Units and all physical locations.

5. Definitions

5.1 Associated Person

An Associated Person is any third-party vendor, agent, contractor, or temporary employee engaged by Verisk.

5.2 Bribe

A Bribe is any offer, promise, or authorization to give money, goods, gratuities, meals, entertainment, services, jobs or job offers, travel, gifts, benefit, or other thing of value with the intent to obtain or retain business, gain any improper advantage, or induce or reward Improper Performance, where the recipient is expected to:

- act in bad faith
- act in a prejudicial or unfair manner
- violate a position of trust
- violate the law or his or her lawful duty
- provide an improper advantage

It is an offense to offer, promise, authorize, or accept a Bribe either directly or through an Associated Person.

It is not necessary for the Bribe to be accepted for a violation to occur—an offer or promise of a Bribe is sufficient. It is also not necessary for the individual making the Bribe to know the identity of the recipient, nor does the Foreign Public Official need to fulfill a promise to act for a violation to occur.
5.3 Business Unit

A Business Unit refers to a subsidiary organization that is part of Verisk Analytics, Inc., including all offices of the subsidiary, regardless of geographic location.

5.4 Business Unit Head

Business Unit Head means the most senior person in the Business Unit or the most senior person in the division or local office to whom the Business Unit Head has delegated these duties.

5.5 Facilitation Payment

A Facilitation Payment is a small amount of cash that is paid to expedite or facilitate a routine government action (granting licenses, turning on utilities, processing visas and other government papers, providing police or other local services, etc.). The U.S. Foreign Corrupt Practices Act (FCPA) permits a company or individual to make a facilitating or expediting payment if such payment is related to a routine, ordinary, nondiscretionary, commonly performed governmental action by a Foreign Public Official and which Verisk is entitled to receive. However, the U.K. Bribery Act (Bribery Act) does not permit Facilitation Payments; and many times, Facilitation Payments may be illegal under local law.

5.6 Foreign Public Official

A Foreign Public Official is an individual who:

- holds a legislative, executive, administrative, or judicial position of any kind, whether appointed, elected, or ceremonial, of a country or territory outside of the United States or, under the Bribery Act, outside of the United Kingdom
- exercises a public function for or on behalf of a country or territory or for any public agency, ministry, department, commission, or enterprise of that country or territory, including state-owned companies
- any officer, director, or employee of a state-owned company
- serves as an official agent of a public international organization
- works for any foreign political party or official
- is a candidate for foreign political office
- is an associated person of any of the above

Further examples of Foreign Public Officials are included in Appendix 7.
5.7 Hospitality and Gifts Register

A Hospitality and Gifts Register (Register) is a document maintained by each Business Unit that provides information about all gifts or hospitality given or received by employees and Associated Persons of Verisk operating in non-U.S. countries. A sample Register is included in Appendix 5.

5.8 Improper Performance

Improper Performance means performance that amounts to a breach of an expectation that a person will act in good faith, impartially, or in accordance with a position of trust.

5.9 Local Risk Management

Local Risk Management is the individual or team of individuals at each Business Unit or office location designated to be responsible for compliance matters on behalf of the Business Unit. Local Risk Management works closely with Enterprise Risk & Compliance staff on all anti-bribery and corruption matters and is responsible for implementing and maintaining compliance with this Policy at the Business Unit.

5.10 Political Association

An association, committee, or other organization, other than a political party, which accepts contributions or makes expenditures to promote the nomination of an individual for an elective public office, including governors associations, active Political Action Committees (PACs) as recognized by applicable governmental registration requirements, super PACs and other similar political organizations as that term is defined in U.S. Internal Revenue Code section 527(e)(1) (i.e., "527 groups").

5.11 Political Candidate

Candidate means an individual who is currently registered, with the appropriate governmental authority, as a candidate for election to any federal, state, or local public office.

5.12 Political Contributions

A payment of money or other thing of value directly made on behalf of Verisk to any political candidate, any political party, or any political association with the intent to influence any election to any federal, state, or local public office.
5.13 Political Party

An association, committee, or organization which nominates or selects a candidate for election to any federal, state, or local public office, whose name appears on an election ballot as the candidate of the association, committee, or organization for such office.

5.14 Trade Association

A membership organization of persons engaging in a similar or related line of commerce, organized to promote and improve business conditions in that line of commerce, and which holds itself out as a trade association, and not to engage in a regular business of a kind ordinarily carried on for profit, and no part of the net earnings of which inures to the benefit of any member.

6. Anti-Bribery Laws and Requirements

6.1 Foreign Corrupt Practices Act

As a U.S. publicly traded company, Verisk is subject to the Foreign Corrupt Practices Act (FCPA), which prohibits payments or gifts to foreign government officials, foreign political parties (or officials thereof), and foreign political candidates intended to influence the official’s decision, provide an unfair advantage, or reward Improper Performance. The FCPA also prohibits making payments indirectly through third parties (such as agents, consultants, contractors, and joint venture partners) if the organization knows or should have known that the payment will be used for unlawful purposes. The FCPA requires companies to keep accurate books and records and to maintain an adequate system of internal accounting controls.

6.2 U.K. Bribery Act

The U.K. Bribery Act goes beyond the scope of the FCPA. The Bribery Act applies to all operations of organizations with a close connection to the United Kingdom and covers both the public and private sectors. Actions under the Bribery Act are judged by whether they are intended to induce or reward Improper Performance. The Bribery Act makes it a criminal offense (for both the organization and individuals) to receive as well as give a Bribe. The law does not contain an exemption for Facilitation Payments. The Bribery Act requires organizations to put in place adequate procedures to prevent bribery. The Bribery Act holds directors of companies personally liable for lack of adequate procedures.

Both the FCPA and Bribery Act are strict liability laws, which means both intentional and unintentional behavior violating the laws will be penalized. Each law carries stiff penalties for violations by Verisk, individual employees, and Associated Persons acting on behalf of Verisk.
6.3 Other Anti-Bribery and Corruption Laws

Many countries where Verisk is located or conducts business have their own anti-bribery and corruption laws or have ratified one of the major international treaties against corruption with which Verisk employees are required to comply. When traveling overseas on Verisk business, employees must comply with the local laws of those countries they are visiting, even if those local laws are not rigorously enforced. A violation of a local anti-bribery or corruption law can trigger violations of the FCPA and the Bribery Act, subject the employee to harsh treatment by local law enforcement that does not meet Western standards, or expose the employee to potential blackmail or extortion.

While the specific language or scope of the laws applicable to Verisk’s operations in various countries may differ, Verisk employees should seek to conduct themselves with honesty and integrity at all times, avoiding even the appearance of impropriety.

7. Scope

7.1 Who

This Policy applies to Verisk, its Business Units and affiliates, and their respective officers, directors, employees, and Associated Persons regardless of physical location of the office or territories in which the office is operating.

7.2 Where

- annually reading and completing an acknowledgment of receipt and understanding of this Policy
- completing all required anti-bribery and corruption training at time of hire, at least annually, and as required

8. Verisk Anti-Bribery Procedures

8.1 Risk Assessment

Each Business Unit Head must assess the nature and extent of the Business Unit’s potential external and internal risks of bribery by persons employed or associated with it. This assessment requires that the Business Unit Head complete an annual risk assessment questionnaire and any associated regulatory risk registers. Additional risk assessments may be required if there are changes in operations, geographic locations, laws and regulations, or other underlying facts and circumstances. The completed risk assessment will be provided to the Enterprise Risk & Compliance Department for review. The completed assessments will be subject to audit by Verisk’s Internal Audit Department.

8.2 Employee and Associated Person Acknowledgment and Training

This Policy, as well as all associated procedures, must be understood throughout the organization. Each employee and Associated Person will acknowledge reading this Policy and understanding its requirements. All employees are required to complete anti-bribery and corruption training at time of hire, at least annually, and as required.

8.3 Monitoring and Reviewing Compliance with This Policy

The Enterprise Risk & Compliance Department will review ongoing compliance with this Policy across all Business Units. Each Business Unit Head is responsible for monitoring and reviewing the Business Unit’s compliance with this Policy and required procedures.

8.4 Reporting Facilitation Payments, Suspicious Activity, and Other High-Risk Activities

The Business Unit Head is responsible for immediately informing the Enterprise Risk & Compliance Department, the Law Department, and Local Risk Management of any requests for Facilitation Payments,
suspicious activity reports, or any other high-risk occurrences. The Business Unit Head can send all reports to ABC@verisk.com or call the appropriate hotline telephone number listed in Appendix 6 and on the Enterprise Risk & Compliance intranet web page.

8.5 Associated Persons Due Diligence

Business Unit Heads must conduct, complete, and document appropriate due diligence procedures before engaging an Associated Person (third-party vendor, agent, contractor, etc.) in a foreign country. The Business Unit Head must also conduct an annual review and attestation of all engaged Associated Persons.

8.5.1 Onboarding/Engaging Associated Persons

The Business Unit is required to:

- conduct due diligence using the Associated Persons Due Diligence Checklist (Appendix 3) and any other appropriate due diligence to document a thorough review of all Associated Persons before entering into a contract
- ensure all appropriate language is included in all contracts with Associated Persons, including (1) the requirement for the Associated Person to create and maintain a Register and Verisk’s right to conduct audits, (2) the requirement to complete an annual attestation regarding anti-bribery and corruption compliance, and (3) an agreement to abide by the Policy and complete Verisk training or attest that the Associated Person has an anti-bribery and corruption policy, program, and training in place that is equivalent to Verisk’s and is subject to audit (See Appendix 9 for sample vendor contract language.)
- engage an outside investigation firm to conduct an in-depth review of an Associated Person in high-value transactions, contracts, or activities, if required, after discussion with Verisk’s Enterprise Risk & Compliance and Law Departments

8.5.2 Ongoing Associated Person Monitoring

The Business Unit must:

- require Associated Persons to complete an Anti-Bribery and Corruption Annual Attestation (Appendix 4) at least annually
- conduct—in conjunction with the Enterprise Risk & Compliance Department—audits of Associated Persons based on assessed risk level determined as part of the Associated Person’s onboarding and/or responses to the required annual attestation
8.5.3 New Business, Change in Business, and Contracts with External Parties

Where Verisk personnel or Associated Persons seek to develop new avenues for business or where the nature of the business changes, they should inform their Business Unit Head so that the Business Unit can undertake a risk assessment (and due diligence where appropriate) of the circumstances. Where a business relationship with an external party is sought or newly established or the nature of the relationship has changed, the Business Unit must exercise and document appropriate due diligence to ensure there are no circumstances giving rise to a concern. Verisk’s Enterprise Risk & Compliance and Law Departments can provide advice on this process.

8.6 Hospitality and Gifts

Verisk does not seek to prohibit reasonable and good-faith hospitality, advertising, sponsorship, and promotional or other similar business expenditure, as it is recognized that this constitutes an established and important part of building constructive relationships. Some hallmarks of appropriate hospitality and business gifts are that they are of reasonable value and are given openly and transparently, properly recorded in Verisk’s books and records, provided only to reflect esteem or gratitude, and permitted under local law.

However, hospitality, promotional, and similar business expenditures can be used as Bribes. Verisk prohibits the giving and receiving of hospitality or business gifts and related expenses when the intention is to gain an improper advantage or to induce or reward Improper Performance. Verisk also prohibits the giving and receiving of hospitality or business gifts when the act of doing so places the recipient under any obligation, either currently or in the future.

8.6.1 Certain Hospitality and Business Gifts Expressly Prohibited

The following hospitality and business gift items are expressly prohibited under this Policy:

- quid pro quo arrangements
- cash gifts (other than customary gratuities authorized in advance by management)
- provision or acceptance of entertainment of a sexual nature

All concerns must be reported immediately to Verisk’s Enterprise Risk & Compliance and Law Departments by e-mail to ABC@verisk.com, online at http://www.reportlineweb.com/verisk, or by phone using the hotline telephone numbers listed in Appendix 6 and on the Enterprise Risk & Compliance intranet web page.

Under this Policy, all hospitality and business gifts:

- must be within the applicable law
- should comply with the rules and policies of the recipient’s organization
- must be properly documented
• should be an infrequent occurrence between giver and recipient
• may include modest meals with people with whom Verisk does business (such as providing a modest 
lunch after a meeting)
• may include the occasional provision of attendance at sporting or cultural events if intended to build 
constructive business relationships rather than to receive or confer an advantage
• may include the provision of small promotional gifts, such as diaries, pens, and calendars

Staff responsible for reviewing expense claims should be alert to any hospitality or gifts that may be 
construed as a Bribe.

8.6.2 Government Official Travel Expenses

Verisk allows reimbursement of reasonable travel expenses for public officials in connection with a Verisk-
sponsored event. Any payments to public officials can create an appearance of impropriety, so special 
care should be taken to ensure that the payments are open and transparent. The Business Unit Head 
must approve any payment for a public official in advance, and such approval and those transactions 
must be carefully documented. Whenever possible, payment for travel expenses of public officials should 
be paid to the governmental entity rather than the public official directly. The Business Unit Head shall 
obtain complete documentation related to all travel arrangements for their records. All concerns regarding 
public official travel expenses should be reported to Verisk’s Enterprise Risk & Compliance and Law 
Departments:

• through e-mail at ABC@verisk.com
• online at https://reportlineweb.com/verisk
• by phone using the hotline telephone numbers listed in Appendix 6 and on the Enterprise Risk & 
  Compliance intranet web page

The following procedures related to travel and lodging expenses for public officials shall be adhered to:

• Any expense to Verisk-approved preferred service providers should be paid directly by Verisk.
• No cash payment should ever go directly to a public official.
• Always follow Verisk’s travel and expense policy when paying for travel and lodging expenses.
• Avoid extravagant travel expenses (e.g., flying first class, staying at five-star hotels).
• Paying for a public official’s family members to participate in travel is not permitted.
• Scheduling or planning any unrelated side trips for the public official (e.g., private trips to Las Vegas or 
  Disney World) is not permitted.

If the assessed risk level of the Business Unit is other than “Low,” the Business Unit is required to 
maintain a Register as outlined in Appendix 5.

The following Hospitality and Business Gifts documentation applies to any Business Unit categorized as a 
“Medium” or “High” risk level for all or part of its operations, based upon the completed risk assessment:
• Each Business Unit will establish and maintain a Register to record all business gifts and hospitality given and/or received and the reason for the gift or hospitality. Each employee or Associated Person giving or receiving gifts or hospitality is required to update the Register either in advance or immediately after any gift or hospitality has been given or received. The Register must include the signature of the Business Unit Head who has authorized the gift or hospitality. At a minimum, the Register must include:
  – date when the gift or hospitality was given or received
  – recipient of the gift or hospitality, including name, title or position, company name, and company address
  – type of gift (e.g., lunch, tickets to a sporting event, leather backpack, etc.) and value in U.S. dollars
  – giver of the gift, including name, title, and company name, company address, and type of gift or hospitality (if received by a Verisk employee or Associated Person)
  – signature of Business Unit Head approving the gift, including date approved

• Receipts must be provided.

• The Business Unit must implement a hospitality and gifts policy and procedure specific to the Business Unit.

• Verisk employees and Associated Persons being offered business gifts should refer the offer to the Business Unit Head and accept only if the Business Unit Head approves or the gift is consistent with the policy established by the Business Unit and recorded in the Register.

• All business gifts should be given only as the Business Unit Head authorizes.

• The Business Unit Head must authorize all hospitality, whether given or received.

• Each Business Unit Head is responsible for ensuring that any gift or hospitality is reasonable and proportionate in each individual circumstance. They can seek guidance from the Verisk Enterprise Risk & Compliance and Law Departments by sending an e-mail to ABC@verisk.com.

• All hospitality and gifts must be made openly and documented appropriately.

• Staff processing expense claims should check expenses against the Hospitality and Gifts Register to ensure recording and appropriate authorization have taken place.

Verisk employees should report all concerns to Verisk’s Enterprise Risk & Compliance and Law Departments. All Registers are subject to audit by Verisk’s Internal Audit and Enterprise Risk & Compliance Departments.

8.7 Facilitation Payments

Facilitation Payments are small amounts of cash paid to speed up or facilitate routine government action (granting licenses, turning on utilities, processing visas and other government papers, providing police or other local services, etc.). The Foreign Corrupt Practices Act (FCPA) permits a company or individual to make a Facilitation Payment if such payment is related to a routine, ordinary, nondiscretionary, commonly performed governmental action by a Foreign Public Official and which Verisk is entitled to receive. Routine government action does not include a decision to award new business or continue business with a particular party. The Bribery Act, however, does not permit Facilitation Payments, and many times Facilitation Payments may be illegal under local laws. Additionally, whether facilitating or expediting payments are permissible depends heavily on the circumstances of each case. Verisk does not want to make a Facilitation Payment and then discover that it is perceived by authorities as an improper payment. Facilitation Payments to Foreign Public Officials are permitted only in the following circumstances:
• The payment is permitted by local laws.
• The payment is permitted by governmental policies or code of conduct. (Note: Many state-owned enterprises have strict policies that prohibit Facilitation Payments.)
• The Business Unit is not located in, conducting a transaction in, or not otherwise connected to the United Kingdom.
• The Business Unit policies do not prohibit the payment.
• The Business Unit has completed a risk assessment.
• The payment is for a routine government action and is not a discretionary act.
• The payment is not for obtaining or retaining business with the foreign government.
• The payment is only intended to reflect the timing of the action and not the decision to act itself.
• The payment is a small amount.
• The person making or authorizing the payment is not a citizen of the United Kingdom.
• The payment is directed to a low-level government employee and not to an official with decision-making authority.
• The Business Unit reports the payment to Verisk’s Enterprise Risk & Compliance and Law Departments within ten (10) business days by sending an e-mail to ABC@verisk.com.
• The payment is properly and accurately recorded in Verisk’s books and records.

Any Business Unit or Associated Person falling under the jurisdiction of the Bribery Act may not make a Facilitation Payment unless a Verisk employee’s life or liberty or Verisk assets are in danger. All requests for Facilitation Payments must be reported to Verisk’s Enterprise Risk & Compliance and Law Departments as soon as reasonably possible by sending an e-mail to ABC@verisk.com.

Certain expediting fees may not be Facilitation Payments and may be legitimate payments for faster service. In this case, if a Foreign Public Official is offering an expediting fee and the fee is: (1) posted or advertised to the general public, (2) payable by check or credit card or other traceable transaction, and (3) documented by a receipt or invoice, then the fee is most likely not a Facilitation Payment and is permissible. If any of these elements are missing, there is a greater chance that this fee is improper, and the Verisk employee should not pay it.

8.8 Books and Records and Internal Controls

Bribes are often concealed under the guise of legitimate payments, such as commissions or consulting fees. Under the FCPA, Verisk is obligated to maintain books and records and accounts, in reasonable detail, that accurately and fairly reflect transactions and the disposition of its assets. There is no minimum or materiality threshold under the FCPA’s books and records provisions.

Both the FCPA and the Bribery Act require internal controls designed to prevent and detect Bribes. Internal controls over financial reporting are the processes that Verisk uses to provide reasonable assurances regarding the reliability of financial reporting and the preparation of financial statements.

When Verisk personnel are dealing with a transaction subject to the FCPA or the Bribery Act, they should document all expenses and ensure that:
• the expenses are properly labeled and described
• management has provided written approval for expenses in accordance with Verisk policy
• invoices, receipts, or other documents are correctly itemized and provide sufficient descriptions to ensure that the expenses can be properly identified and accounted for

Even if an employee does not intend to make a Bribe, an expense, no matter how small, that is not accurately explained or described can be viewed as an improper payment. Guidance on proper record keeping is available in Appendix 2.

8.9 Donations

Verisk prohibits making charitable donations on behalf of Verisk where the purpose of the donation is to conceal payments made to influence Foreign Public Officials corruptly or to secure an advantage. Any charitable donations must be made without expectation of reward. Verisk’s Senior Vice President of Corporate Social Responsibility authorizes, executes, and records all charitable donations made on behalf of Verisk. Authorized donations must be made in Verisk’s name and not in the name of any Foreign Public Official. This Policy does not prevent individual employees, officers, or directors from making charitable donations on their own behalf. Verisk will not reimburse anyone, directly or indirectly, for personal charitable donations.

8.10 Political Contributions

Political contributions made on behalf of Verisk are prohibited. This Policy does not prevent individual employees, officers, or directors from making political contributions or engaging in political activities on their own behalf. Verisk may not reimburse anyone, directly or indirectly, for personal political contributions.

8.11 Payments to Trade Associations

Except as otherwise provided by this Policy, payments to any trade association may be made only where permitted by law and, where the total payments to any individual trade association exceed ten thousand dollars ($10,000) during any one calendar year, with the prior approval of the Executive Vice President, General Counsel and Corporate Secretary or designee of the General Counsel for such purpose. All permissible payments to any trade association made on behalf of Verisk should be properly authorized, executed, and recorded.

8.12 Reporting Concerns and Escalation Procedures

Verisk personnel have a responsibility to prevent, detect, and report all instances of possible bribery and corruption. All personnel should be alert to the possibility of bribery and corruption. Anyone who has concerns regarding acts or potential acts of bribery or corruption should first speak with his or her direct
manager. If for any reason an employee is unable to speak with his or her direct manager, the employee should contact the Business Unit Head or Verisk’s Enterprise Risk & Compliance and Law Departments. Employees can report concerns anonymously 24 hours a day, 7 days a week, 365 days a year using the telephone numbers attached in Appendix 6 and listed on the Enterprise Risk & Compliance intranet web page. They can also report concerns online at https://www.reportlineweb.com/verisk or send an e-mail to ABC@verisk.com.

Verisk will treat all reports with the utmost confidentiality and protect from retaliation all personnel making such a report in good faith. The Business Unit Head is responsible for immediately informing Verisk’s Enterprise Risk & Compliance and Law Departments of all suspicious activity.

8.13 Training and Communication

All Verisk personnel and Associated Persons shall receive a copy of this Policy and are required at time of hire or retention, and annually thereafter, to acknowledge receipt of the Policy and to confirm that they have read and understood it.

All personnel are required to complete training on anti-bribery and corruption, the Verisk Anti-Bribery and Corruption Policy, and Verisk’s required procedures. The Enterprise Risk & Compliance Department has developed a training deployment plan to ensure that all employees complete the training at time of hire and annually thereafter.

The Enterprise Risk & Compliance Department and each Business Unit publishes a copy of this Policy on all Verisk company intranet sites and in personnel handbooks where applicable. Enterprise Risk & Compliance will communicate any changes to this Policy to all personnel.

9. Responsible Officer

The Executive Vice President, General Counsel, and Corporate Secretary is the Verisk Anti-Bribery and Corruption Policy Officer and is responsible for monitoring, updating, and maintaining the Anti-Bribery and Corruption Policy and related procedures. The Senior Vice President of Enterprise Risk & Compliance and the Assistant General Counsel of the Law Department support and assist the Business Unit Heads in implementing and managing this Policy.

10. Disciplinary Action

Verisk will investigate any potential breach in accordance with internal policies and procedures as well as corporate disciplinary procedures. Disciplinary action will be commensurate with the violation and consistent with local requirements, which may include immediate dismissal. Retaliation against an employee for complying with this Policy or making a whistleblower complaint is strictly prohibited.
Appendix 1:
Anti-Bribery and Corruption Policy Q&A

The following Anti-Bribery and Corruption Policy Q&A provides additional guidance to personnel and Associated Persons.

Who is covered by this Policy?

This policy applies to Verisk, its Business Units, and all officers, directors, and employees of such organizations, regardless of where Verisk conducts business operations. It also applies to any Associated Person (third-party vendor, agent, associate, contractor, or temporary employee) engaged by and acting on behalf of Verisk who may interact with a Foreign Public Official, customer, prospect, or any other person on Verisk's behalf. If you are associated in any way with Verisk, formally or informally, this Policy applies to you.

Why do employees outside of the United Kingdom need to get training on the U.K. Bribery Act? Doesn't it apply only to U.K. companies and their employees?

The U.K. Bribery Act applies to all employees of Verisk who are citizens of the United Kingdom, wherever they are located, and to employees located in or conducting business in the United Kingdom or on behalf of a U.K. registered company, regardless of location. The mere fact that Verisk has U.K. affiliates could make it liable for any offenses committed under the Bribery Act by persons performing services for Verisk, no matter where those offenses were committed. Verisk could be liable for an offense even where there is no actual knowledge of the actions being taken by its employees or Associated Persons unless Verisk can show that it has adequate procedures in place to prevent bribery and corruption. Ensuring that all personnel are aware of all of the laws and regulations that apply to Verisk is critically important. In addition, many Verisk personnel conduct business in or with the United Kingdom, directly subjecting them to the Bribery Act.

What is a Bribe?

A Bribe is any money, goods, gratuities, meals, entertainment, services, or other thing of value offered, promised, authorized, or given with the intent to influence, induce, or secure any improper advantage or reward. A Bribe can take the form of gifts, loans, fees, rewards, proffered employment, excessive entertainment, employment of relatives, trips, job offers, or other advantages, such as paying taxes, providing services, and making donations. Any employee in doubt as to whether something is an offer or request for a Bribe should contact Verisk’s Enterprise Risk & Compliance and Law Departments.
Who are considered Foreign Public Officials?

Foreign Public Officials include government employees, employees of state-owned enterprises (including, but not limited to, employees of national banks, national transportation systems, hospitals, utilities, and schools), political parties and their officials and candidates for political office, elected and appointed officials, agents or associates acting on behalf of government employees or officials, and officers and employees of a public international organization. A person does not cease to be a Foreign Public Official by purporting to act in a private capacity or by the fact that he or she serves without compensation. More examples of Foreign Public Officials appear in Appendix 7.

What is a Facilitation Payment?

A Facilitation Payment is a payment related to a routine, ordinary, nondiscretionary, commonly performed governmental action by a public official that Verisk is entitled to receive. Facilitation Payments to public officials are expressly prohibited when they relate to the award of new business, an unfair advantage over competitors, or the continuation of business with a particular party. Likewise, Facilitation Payments may not be made to a public official involved in the decision-making process to encourage a decision to award new business or to continue business with a particular party. The U.K. Bribery Act prohibits Facilitation Payments, and any Business Unit or personnel falling under the jurisdiction of the Bribery Act should not make a payment unless the life or liberty of Verisk personnel or Verisk assets are in danger. The Business Unit Head or appropriate personnel must report all requests for Facilitation Payments to Verisk’s Enterprise Risk & Compliance and Law Departments by e-mail to ABC@verisk.com.

Is it permissible to reimburse travel and hotel expenses for a Foreign Public Official or other person?

Payment of “reasonable and bona fide” hospitality expenditures, such as travel, lodging, and food that are directly related to the promotion, demonstration, or explanation of Verisk products, is permitted if proportionate and reasonable to Verisk business. Reimbursement of reasonable travel expenses to Foreign Public Officials who are speakers at Verisk events is generally allowable, but such transactions are subject to additional scrutiny. The Business Unit Head should approve any payment to a Foreign Public Official in advance and carefully document the transaction. Payments should be made to the governmental entity rather than to the government official directly whenever possible. The Business Unit Head can contact Verisk’s Enterprise Risk & Compliance and Law Departments for further guidance. Under no circumstances will Verisk pay for side trips or for family members of public officials.

Where should Verisk personnel register hospitality and gifts?

Business Units with a risk assessment of “Medium” or “High” risk shall establish a Register of all hospitality and gifts given and received for all or part of its operations. Verisk personnel must complete the Register (see Appendix 5) so that the Business Unit Head can authorize it. The Business Unit Head will tell personnel where the Register is located and how to access it. All records are to be maintained locally and subject to review by Verisk’s Internal Audit and Enterprise Risk & Compliance Departments.
Does this mean that all hospitality has to be authorized in advance?

Ideally, all expenditures on behalf of a Business Unit that maintains a Register will be authorized and the Register completed in advance. On some occasions, this will be impractical, such as when a decision is made to go to lunch when personnel are with a customer, not before. All hospitality and business gifts should be entered into the Register as soon as possible after the event, in accordance with the policy and procedures developed by the Business Unit.

Do all gifts given away at conferences need to be registered?

Each Business Unit Head is expected to determine what gifts need to be registered. In general, the answer is no, provided that the gifts are reasonable and customary. Usually, gifts given away at conferences are considered promotional gifts that do not require registration.

Is there a monetary limit over which hospitality or gifts need to be registered?

No. Each Business Unit’s policy and procedures will provide guidance to what is reasonable and appropriate under the circumstances. If in doubt about proportionality or acceptability, personnel should consult the Business Unit Head or Verisk’s Enterprise Risk & Compliance and Law Departments.

When can Verisk be responsible for the actions of Associated Persons?

Verisk may be held responsible for the unlawful practices of Associated Persons under a variety of circumstances. When in doubt, consult with the Verisk Law and Enterprise Risk & Compliance Departments before taking any action to engage an Associated Person to act on Verisk’s behalf.

What should personnel do if unsure whether a payment, gift, or other benefit would be appropriate?

Personnel should consult the Business Unit Head. The Business Unit Head can contact Verisk’s Enterprise Risk & Compliance and Law Departments for guidance before making any payment, reimbursing any expense, or providing a gift or other benefit to a Foreign Public Official or any other person. Questions should be sent to ABC@verisk.com.

What should personnel do if they see behavior that is inconsistent with the Policy?

They should contact their direct manager, Business Unit Head, or Verisk’s Enterprise Risk & Compliance and Law Departments for advice. Personnel who are unable to contact their manager or Business Unit Head or wish to remain anonymous may make a report by calling the telephone numbers provided in Appendix 6 and listed on the Enterprise Risk & Compliance intranet web page. Or they can report it online at https://www.reportlineweb.com/verisk or send an e-mail to ABC@verisk.com.
