Amesite's NurseMagic™ App Sees 27% Increase in Users; App Charts at #33 in App Store

2024-09-11

Influencer Nurse Hailey Touts NurseMagic™, Demonstrating Utility in Answering Technical Questions, Reducing Nurses' Stress, Improving Documentation

DETROIT, Sept. 11, 2024 (GLOBE NEWSWIRE) -- Amesite Inc. (NASDAQ: AMST), a pioneering technology company specializing in the development and marketing of B2C and B2B AI-driven solutions, announced a 27% increase in users following release of social media videos ([TikTok](#) and [Instagram](#)) created through its engagement with influencer Nurse Hailey. Nurse Hailey has over 510,000 followers on her social media channels. Amesite also announced the debut of **NurseMagic™ in the app store**, charting at #33 in the medical category for free tools.

The latest posts follow other releases through engagement with other prominent influencers, including Paige Slayton (900,000 followers), **who explained NurseMagic™'s ability to dramatically improve charting and documentation**, and Nurse Cynesse (530,000 followers), who **delivered advice on how to write behavioral notes in seconds**, with no prior instruction or experience.

Madison Bush, Corporate Operations and Marketing Manager, said, "The 27% increase in users following the most recent social post demonstrates both the incredible impact of influencers voicing the capabilities of NurseMagic™, and the power of the app itself. Charting for the first time after only a few weeks in the app store is incredibly exciting and validates the utility of NurseMagic™ as a mobile tool for a wide variety of healthcare professionals."

CEO Dr. Ann Marie Sastry said, "We already knew that NurseMagic™ would be useful to the 5.2 million nurses in the U.S., given that this large, essential profession had no AI-powered, direct support. We now know that

NurseMagic™ is incredibly useful to an even wider audience, including home health care (with over 3.9 million professionals) and other segments. The market reception to our proprietary technology has been incredibly positive and we look forward to moving into enterprise relationships, in addition to growing our B2C user base."

Recently, Amesite announced that NurseMagic™ had garnered users from all **fifty (50) U.S. states and six (6) nations**, within only eight (8) weeks of its **public launch** on June 5, following a period of availability as a gated beta product. Previously, Amesite reported **93% accuracy** of NurseMagic™ app in answering NCLEX model questions.

A short video explaining the app's capabilities can be found at www.nursemagic.ai.
