

NEWS RELEASE

CareView Communications' Virtual Care Platform Showcased at Behavioral Health Unit Opening

10/5/2023

LEWISVILLE, Texas--(BUSINESS WIRE)-- CareView Communications, Inc., a leading provider of integrated virtual care solutions for the healthcare industry ("CareView" or the "Company") (OTCQB: CRVW), proudly presented their cutting-edge inpatient virtual care platform during the opening event of Baptist Health Care's Behavioral Health Unit in Pensacola, Florida. CareView's technology stands poised to play a pivotal role, ensuring predictive virtual patient monitoring across the hospital.

The partnership between CareView and Baptist Health Care signifies a joint dedication to patient safety and innovation within the healthcare sector and the community for years to come.

CareView's state-of-the-art virtual sitting solution is at the forefront of technology, harnessing the power of AI and machine learning to proactively predict inpatient falls. This innovation equips healthcare providers with real-time insights, enabling them to address potential risks, prevent accidents, and significantly reduce costs associated with patient injuries. The result is an elevated standard of patient care and safety.

"It was invigorating to witness firsthand the excitement from donors and key leaders during the grand opening, as they saw the positive impact that CareView technology will have on their patients' safety and well-being," stated Caleb Story, Senior Director of Operations at CareView.

"We are thrilled about the positive impact that CareView's innovative technology will bring to our patient care efforts, particularly in our Behavioral Health Unit," commented Mark Faulkner, president and CEO of Baptist Health Care. "It aligns seamlessly with our commitment to patient safety and providing the highest standard of care to our community."

Furthermore, this partnership effortlessly aligns with CareView's steadfast dedication to advancing virtual care solutions. These solutions are meticulously designed to elevate patient outcomes, streamline clinical workflows, prioritize patient safety, and drive significant cost efficiencies.
