

NEWS RELEASE

Dallas IVF, an Ivy Fertility Center, Hires Dr. Shilpi Agrawala

2024-09-11

SAN DIEGO--(BUSINESS WIRE)-- Ivy Fertility, a collaborative network of globally-renowned fertility clinics, has welcomed Shilpi Agrawala, MD to its team of physicians at Dallas IVF. Dr. Agrawala is an OB/GYN and reproductive endocrinology and infertility specialist. She started seeing patients in August, and practices at Dallas IVF's central Dallas location.

"Dr. Agrawala is a rising star in our field, and we are thrilled to welcome her to our practice," said Brian Barnett, MD, medical director at Dallas IVF. "Our patients and staff alike will benefit greatly from her empathy, high standard of excellence, and compassionate support."

Dr. Agrawala received her Bachelor of Science in Neuroscience and Behavioral Biology from Emory University's College of Arts and Sciences, where she graduated cum laude and was inducted into the Phi Beta Kappa honor society. She received her medical degree from the University of Texas's Southwestern Medical School and completed her residency at Baylor College of Medicine. Dr. Agrawala completed her fellowship in Reproductive Endocrinology and Infertility at Duke University, whose fertility center is ranked third best in the country by Newsweek.

Dr. Agrawala brings a personalized, empathetic approach to every patient interaction, and was inspired to pursue a career in reproductive endocrinology by her personal experience with PCOS. In addition to PCOS, her specialties include endometriosis, oncofertility, and fertility preservation.

"I am excited to return to Texas and join the extraordinary team at Dallas IVF," said Dr. Agrawala. "They have become one of the top-ranked fertility clinics in Texas for their compassion and cutting-edge care. We are like-

minded in our empathetic and patient-centered approach, and I know they will be the perfect partners for the next step of my career."

About Ivy Fertility

Ivy Fertility is globally recognized as pioneers and innovators in the field of advanced reproductive technologies, in-vitro fertilization, third-party reproduction, andrology, and fertility research.
