

# Experian Named to Fortune's 2024 "100 Best Workplaces in Technology" List

2024-09-11

Spotlights exceptional culture, employee focus and quality of workplace

COSTA MESA, Calif.--(BUSINESS WIRE)-- Experian North America has been named to the prestigious Fortune Best Workplaces in Technology™ 2024 rankings. This honor spotlights Experian's high-performing workplace culture that promotes innovation, inclusivity and equity, and team member well-being, growth and advancement.

In determining this year's 100 Best list, Fortune partnered with the people analytics firm Great Place to Work® to survey more than 870,000 employees and gathered data from companies representing more than 6.1 million employees. The survey enabled employees to share confidential feedback about their organization's culture by responding to 60 statements that – when put together – describe a great employee experience, defined by high levels of trust, respect, credibility and more.

"This recognition reflects our team members' hard work in harnessing advanced technology to solve complex problems for our clients and our continuous improvement in building an even stronger, more connected workplace," said Jennifer Schulz, Chief Executive Officer of Experian North America. "The honor serves as a testament to Experian's commitment to our people, and their needs inside and outside the workplace . "

Experian was recognized in the Large Workplace category, and a significant factor in receiving the award was the feedback provided by the company's employees in the Great Place to Work survey.

This is the third notable recognition for Experian in the past two months, having also had **Experian's Sentinel™** Commercial Entity Fraud Suite awarded a silver medal for "Best Know Your Customer/Business (KYC/KYB)

Innovation” by **Datos Insights** and being ranked 7th on the 2024 IDC FinTech Rankings, placing in the top 10 providers for the third consecutive year.

Experian is an AnitaB.org Top Company for Women Technologists since 2017 and honored by Forbes as one of America’s Best Employers for Tech Workers. The company champions diverse recruitment in tech through support of organizations, including AfroTech, Grace Hopper, Lesbians Who Tech and Out In Tech.
