About Oscar Health

Oscar Health, Inc. ("Oscar") is the first health insurance company built around a full stack technology platform and a relentless focus on serving its members. At Oscar, our mission is to make a healthier life accessible and affordable for all. Headquartered in New York City, Oscar has been challenging the health care system's status quo since our founding in 2012. The company's member-first philosophy and innovative approach to care has earned us the trust of nearly one million members, as of June 30, 2023. We offer Individual & Family, Small Group and Medicare Advantage plans, and +Oscar, our full stack technology platform, to others within the provider and payor space. Refactor is a term used in software engineering that means to improve the design, structure, and implementation of the software, while preserving its functionality.

At Oscar, we take this definition a step further. We improve our members' experience by building trust through deep engagement, personalized guidance, and rapid iteration.
