

NEWS RELEASE

Protecht Appoints New EMEA Managing Director

10/10/2023

LONDON--(BUSINESS WIRE)-- **Protecht**, a leader in risk and resilience software, today announced the appointment of Gary Lynam as its new EMEA Managing Director.

Lynam has been an integral part of establishing and growing Protecht since he joined as Director of ERM Advisory five years ago. Prior to Protecht Lynam served as a risk advisory consultant to three major banks, including NatWest. He started his career in Risk Advisory at KPMG.

During his time at Protecht, Lynam has led the customer success division, overseen multiple successful global GRC system implementations, and contributed significantly to helping its customers achieve their risk management objectives.

"Gary has been instrumental in growing Protecht's brand in the EMEA region and is a proven expert in Governance Risk and Compliance (GRC)," said **David Bergmark, CEO at Protecht**. "We are very confident Gary will guide our EMEA business through the next phase in its journey and drive adoption of the Protect ERM platform in the region."

Gary Lynam comments: "I am delighted to have the opportunity to build on Protecht's success in EMEA. I look forward to bringing continued value to organisation's who want to gain an actionable view of operational risk, resilience and compliance to prepare for every eventuality and regulatory obligation on the horizon."

The appointment of Lynam comes at a pivotal time for Protecht, with recent announcement of its enhanced Operational Resilience module to enable businesses to minimise disruption risk and ensure good customer outcomes. Protecht, a single, interconnected platform that produces a holistic view of risk has also recently been

named as a Leader in Operational Risk Management for the overall market in the **G2 Fall 2023 Reports** and leader in Mid-Market GRC Platforms badge.

About Protecht

With offices in London, Sydney and Los Angeles, Protecht provides complete risk solutions, including the world-class Protecht ERM enterprise risk management platform as well as training and advisory services to businesses, government organisations and regulators across the world.

Protecht is passionate about solving the challenges customers face in managing risks. Protecht ERM provides a single, interconnected platform that produces a holistic view of risk while being simple and easy to use. Protecht has helped hundreds of organisations move away from spreadsheets and email to a more efficient and effective way to manage risk.
