Together for a Cure: Fundraising Event Aims to Unite the Community for Breast Cancer Research and Support

ATLANTA--(BUSINESS WIRE)-- Susan G. Komen®, the world's leading breast cancer organization, today announced it will host a MORE THAN PINK Walk this Fall. The Walk will take place on Saturday, October 26, 2024, bringing together survivors, supporters and advocates to raise critical funds to advance Komen's mission and provide support for people facing this disease now.

Every 12 minutes, a woman in the U.S. dies from breast cancer. In 2024 alone, an estimated 9,840 women in Georgia will be diagnosed with breast cancer and 1,420 will lose their lives to the disease. Experts say one-third of breast cancer deaths in the U.S. could be prevented with universal access to modern treatments. Funds raised at the Walk will allow Komen to meet the immediate needs of breast cancer patients through its free Breast Care Helpline and offer services such as patient navigation, financial assistance and emotional support. It will also fund research breakthroughs that allow more lives to be saved from breast cancer and bring us closer to the cures for all breast cancers.

In 2024, the Komen Financial Assistance program provided financial assistance totaling \$712,750 to 1,260 people in Georgia who are in breast cancer treatment or living with metastatic breast cancer. Additionally, Komen's Patient Care Center provided 3,909 services to 3,181 people living in Georgia, working to address 4,202 barriers to care that may otherwise prevent someone from getting the breast health care or support they need.

"We are thrilled to welcome the community to the Georgia MORE THAN PINK Walk this year, where together we can

make a profound impact in the fight against breast cancer," said Celestine Hankerson, Komen Development Director for Georgia. "Supporting individuals in our community who are facing breast cancer is essential to our mission, but we cannot do it alone. This year's Walk is not just an event; it is a pivotal moment to secure vital funds that will make equitable care available to all. We hope you can join us as we take a powerful stand against this devastating disease."
