Time: 12:25 pm ET

About Umoja Biopharma

Umoja Biopharma, Inc. is a clinical-stage biotechnology company aiming to develop off-the-shelf therapeutics that improve the reach, effectiveness, and access of CAR-T cell therapies in both oncology and autoimmunity. Umoja's VivoVec™ in vivo gene delivery technology empowers a patient's own immune system to fight disease. Enabling its core technology is the Company's state-of-the-art lentiviral vector development and manufacturing facility in Louisville, Colorado. Umoja believes its approach can provide broader access and improved effectiveness of the most advanced immunotherapies, enabling more patients to live better, fuller lives.
