

Vesta Announces Partnership With Lender Price to Enable a More Fully Digital Mortgage Experience

10/2/2023

SAN FRANCISCO--(BUSINESS WIRE)-- **Vesta**, a modern and intelligent loan origination system, has announced a new integration with **Lender Price**, a premier pricing engine in lending, to allow lenders to instantly quote and manage locking without ever leaving the Vesta platform.

Vesta's next-generation mortgage LOS is designed to streamline and enhance the mortgage origination experience for both lenders and borrowers. With a focus on automation, flexibility, and compliance, Vesta's LOS has earned a reputation for delivering state-of-the-art solutions that drive operational efficiency and customer satisfaction.

Mortgage lenders using Vesta's LOS will now have direct access to Lender Price's sophisticated pricing engine, enabling them to offer competitive, market-driven rates to borrowers with accuracy and speed. Furthermore, the integration includes robust locking and lock management functionality, which traditionally hasn't been offered directly through the LOS.

"We're enthusiastic about partnering with Lender Price to integrate our LOS with their advanced pricing engine," said Vesta CEO, Mike Yu. "This aligns with our commitment to equip lenders for success in today's dynamic mortgage landscape. Through this integration, we hope to further empower lenders to make data-driven decisions, enhancing borrower satisfaction and driving business growth."

"We are thrilled to integrate with Vesta," said Lender Price CEO, Dawar Alimi. "By combining Vesta's powerful loan origination capabilities with Lender Price's cutting-edge pricing technology, we are delivering a unified and comprehensive solution for lenders to provide their borrowers, employees, and loan officers with an exceptional lending experience."
