

Apex Systems Mexico Certified by Great Place to Work® for Second Year in a Row

8/16/2023

Apex Mexico Delivery Center reinforces commitment to employees and employee satisfaction

RICHMOND, Va. & GUADALAJARA, Mexico--(BUSINESS WIRE)-- Apex Systems, a leading technology services firm and ASGN (NYSE: ASGN) brand, has been certified as a Great Place to Work® (GPTW) in Mexico for 2023 to 2024. This is Apex's second year in a row receiving the GPTW® in Mexico certification.

GPTW® captures valuable feedback using their research-driven Trust Index™ survey, which aims to measure the experience of our employees working at Apex. The recertification reflects our commitment to promoting a culture of trust in which our employees can grow, learn, and succeed in their careers.

"We are extremely proud of our Mexico Delivery Center and its continuous growth over the past few years; doubling the size of our team in one year to over 1,000 employees while maintaining the Great Place to Work® certification shows Apex's commitment to our employees and customers on providing a workspace that attracts and retains the best and the brightest talent," said Daniel Guzman, Senior Vice President, Consulting Services - Mexico.

Recognizing diversity, inclusion, and women's empowerment

In addition, we are proud to share that we have earned recognition as one of The Best Places to Work™ for Women in Mexico 2023. This recognition highlights our commitment to diversity, inclusion, and female empowerment within our company.

At Apex, we continue to work every day to provide an inclusive and diverse culture, in which all members of our company can develop, and be satisfied with their work. We are committed to the well-being and success of all our employees.

Apex Systems welcomed the Mexico Delivery Center (MDC) in October 2019 through ASGN's acquisition of Intersys Consulting. This nearshore capability is an important part of ASGN's consulting growth, offering clients strong technical capabilities at competitive rates. Advantages of time zone and language have also contributed to the MDC's outsized growth.

About Apex Systems
