

Apex Systems Recognized as Best Place to Work for Women in Mexico

4/3/2024

Company's nearshore Mexico Delivery Center reinforces commitment to diversity, inclusion, and women's empowerment

RICHMOND, Va. & GUADALAJARA, Mexico--(BUSINESS WIRE)-- Apex Systems, a leading technology services firm and ASGN (NYSE: ASGN) brand, is proud to announce that the Company has earned the recognition as one of the Best Places to Work™ for Women in Mexico 2024, a certification awarded by Great Place to Work™.

Apex received the top four ranking in Great Place to Work's (GPTW®) 500-plus employees' category. This award highlights a company's commitment to diversity, inclusion, and female empowerment. GPTW® captures valuable feedback using a research-driven Trust Index™ survey, which aims to measure the experience of employees working at their individual companies. The recertification of Apex as one of the best places for women to work in Mexico for the second year in a row, reflects the Company's commitment to promoting a culture of trust in which employees can grow, learn, and succeed in their individual careers.

"Being recognized as a superior place to work in the information technology industry where women are often a minority, makes us very proud of our commitment to provide our female employees with a safe, inspiring place to work," said Alejandra Mancera, Apex Systems' Director for Human Resources for the Mexico Branch. "We are on the right path by prioritizing our talent and working hard to offer ways to expand one's career development, while also increasing female participation across our Company."

"Providing an inclusive and diverse culture is core to our belief systems and corporate policies," said Michele McCauley, Chief Human Resources Officer of ASGN and Apex Systems. "At Apex, we work diligently to foster an environment in which all of our employees can develop their careers, while also being satisfied with the quality and type of work they perform. We are so honored to receive this award, as it is a testament to our Company's commitment to inclusion and career development for all."

Apex Systems welcomed the Mexico Delivery Center (MDC) in October 2019 through ASGN's acquisition of Intersys Consulting. This nearshore capability is an important part of ASGN's consulting growth, offering clients strong technical capabilities at competitive rates. Advantages of time zone and language have also contributed to the MDC's outsized growth over the past five years.

About Apex Systems

Apex Systems is a world-class technology services business that incorporates industry insights and experience to
