

ECS Achieves AWS Public Safety & Disaster Response Competency

Company recognized for technical expertise in cloud solutions and infrastructure support for emergency response and recovery

FAIRFAX, Va.--([BUSINESS WIRE](#))--ECS , a leader in advanced technology, science, and engineering solutions, announced that it has achieved Amazon Web Services (AWS) Public Safety & Disaster Response Competency status. This designation recognizes ECS' deep expertise and proficiency in helping organizations including U.S. law enforcement agencies to prepare for, respond to, and recover from natural or man-made emergencies, disasters, and public safety concerns by leveraging AWS solutions.

Protection of infrastructure and secure, uninterrupted access to data are important aspects of public safety, law enforcement, and emergency management. The AWS Public Safety & Disaster Response Competency serves to differentiate ECS as an AWS Partner Network (APN) member that provides specialized, demonstrated technical skill and proven customer success with implementing workloads focused on public safety operational tools, analytics tools, and infrastructure recovery tools. To receive the designation, ECS was required to demonstrate experience, operational tools, thought leadership, and expertise delivering solutions seamlessly on AWS.

"ECS is honored to achieve AWS Public Safety & Disaster Response Competency status," said [John Sankovich](#) , vice president of cloud solutions at ECS. "As we continue to expand our customers' capabilities, including our support of federal law enforcement agencies focused on citizen and national public safety, we are pleased to support innovations in the area of cloud for emergency response."

"Our longstanding relationship with AWS has been an important element of our cloud practice," said [George Wilson](#) , president of ECS. "This designation is evidence of our commitment to best practices, continued growth, and service to our customers."

ECS is an APN Premier Consulting Partner and an [AWS Audited Managed Service Provider \(MSP\)](#) that has achieved AWS Machine Learning (ML) Competency and AWS DevOps Competency status. In addition, ECS participated in the launch of [AWS Gov Cloud \(US-East\)](#) and [Amazon FSx for Windows File Server](#) .

AWS is enabling scalable, flexible, and cost-effective solutions from startups to global enterprises. To support the seamless integration and deployment of these solutions, AWS established the [AWS Competency Program](#) to help customers identify APN Consulting and Technology Partners with deep industry experience and expertise.

Through its [Cloud Center of Excellence](#) , ECS provides expert cloud consulting, managed services, and full direct resale access to the leading cloud service providers. The ECS Cloud Center of Excellence uses best practices and frameworks to provide customers with expert certified architects, optimized scalable solutions, and full compliance with all security standards and requirements in its delivery of cloud solutions.

About ECS
