## Key Investment Highlights

| Large, Attractive End Markets | • The staffing industry is a large market, with estimated total revenues of $103 billion in 2010 and projected to be $115 billion in 2011\(^1\)  
| • Highly skilled temps are in high demand but short supply, with greater resistance to economic cycles, especially in areas like healthcare and highly specialized professional services |
|---|---|
| Strong Position in Critical High-End Skill Sets | • On Assignment ("ASGN" or the "Company") participates in most attractive sub-segments of staffing: Healthcare, Life Sciences, Locum Tenens and IT/Engineering  
| • High-end focus yields higher bill rates, longer assignments and stickier customer relationships  
| • Customer diversification enhances revenue visibility and insulates margins |
| Attractive Organic and Strategic Growth Opportunities | • Capture operating leverage  
| • Accelerate growth of newer practices  
| • Execute against strategic five year plan |
| Attractive Financial Characteristics | • All segments operate in high demand, high bill rate sub sectors of the broader staffing market, which drives organic revenue growth and stable gross margins  
| • Highly scalable front and back office creates operating margin expansion opportunities  
| • Low working capital and CapEx requirements result in strong conversion of EBITDA to FCF |
| Experienced Management Team | • Senior management has extensive experience in the staffing sector and a strong track record with public investors  
| • Veteran cadre of seasoned industry professionals leading each division |

**Staffing Industry Growth Drivers**

**Catalyst For Continued Growth**
- An economic slowdown reminds companies of the benefits for using contract labor
- Variable cost structure provides money saving alternative to companies and flexibility to ramp up quickly in periods of expansion
- Aging U.S. population may constrain supply of available workforce
- Healthcare reform may stimulate demand for staffing in the long-term

**Recent Market Trends**
- GDP continues to increase at an annual rate of 1.3% in Q2 ’11
- Companies may have reduced permanent staff below sustainable levels; firms may look to temp staffing to bridge the gap
- Temporary help penetration (1.7% in Apr ’11) still only slightly above prior trough period of 1.6%\(^1\)

**Potential for M&A Activity**
- M&A activity continues to gain traction as large companies and private equity announce more deals
- Escalating access to credit markets may spur appetite for acquisitive growth
- Smaller, private companies may look to partner with larger, well capitalized firms or private equity as activity and valuations increase

---

Note:  
1 Prior recession period penetration rate bottomed in December of 2001
Staffing Industry Market Opportunity

Total U.S. staffing industry revenues forecasted to be $115 billion in 2011\(^1\)

**The U.S. Staffing Market Growth:**

Life Sciences

The U.S. market for outsourced Clinical/Scientific staffing is forecasted to be $1.7 billion in 2011\(^1\)

- Lab support professionals assist clients in the life sciences industries with research and development, product production, quality control and assurance, regulatory affairs and compliance, engineering, consumer testing and clinical research

Industry Highlights

- Highly fragmented; market dynamics are favorable
- Middle market, small/medium clients favor personalized service
- Clinical trials already in progress tend to carry through the length of assignments which can last several months or even years
- The industry is saturated with start-up companies with venture capital-back funding that, in many cases, use temporary help or “temp-to-perm” staffing models as a way of managing start-up costs

Healthcare Staffing

**Healthcare Staffing forecasted revenues to be $7.9 billion in 2011**

- Demand for healthcare staffing services is expected to be driven by:
  - An aging U.S. population
  - Continuous shift by healthcare organizations to increased outsourcing
  - Flexible business models to respond to immediate changes in demand
  - An acute shortage of physicians, nurses and other healthcare professionals in the long-term
  - Need for workers with specialized science and medical skills due to advances in technology
  - Accessible healthcare to more individuals provided by healthcare reform

2010 Trends Augur Well For 2011 And Beyond

*Indicators give positive outlook for continued growth this year…*

**Sequential growth for sectors of staffing have stayed course**
- IT/Engineering and Life Sciences staffing continue to produce strong growth as companies spend on capital expenditures and R&D projects
- Healthcare has shown signs of potential for improvement in the near term
- Volume of temps working and average hours worked per week continues to rise - forward looking indicators of revenue growth

**Economic recovery continues to strengthen**
- GDP increased at an annual rate of 1.3% in Q2 2011
- Economic data points in manufacturing and services are favorable and indicate expansion over the next several months
- Labor markets are improving and job recovery is on the rise

**Employment data**
- Unemployment dipped below 9% with temp help having the fastest growth in job recovery
- Temp penetration rates are at their highest levels since June ‘08 but still at historic lows

---

1 Bureau of Economic Analysis – July 29, 2011 advanced estimate
Recent Industry Trends

- Private payrolls are up but U.S. employment growth has been anemic
  - April’s BLS report indicated an increase of 244k jobs, the strongest growth since April 2010 (excl. temporary Census impact) and beating consensus estimates of 185k
  - Non farm payrolls have increased for the seventh consecutive month
- After a slow January, temporary help employment has rebounded to show strong growth in March (+34k) and February’s payroll numbers were revised up
  - Thus far, temporary staffing has outpaced the recovery of full time employment

1 Adjusted EBITDA presented is one of the non-GAAP financial measures used by the Company and is defined as earnings before interest, taxes, depreciation, and amortization of identifiable intangible assets plus equity-based compensation expense, impairment charges, and acquisition related expenses, which terms might not be calculated in the same manner as, and thus might not be comparable to, similarly titled measures reported by other companies.
## On Assignment's Strategic Growth Opportunities

### Cyclical Stabilization and Growth
- Temporary help penetration rate slightly above prior trough period (2001-'02 recession)
- Labor markets indicate that job recovery continues to strengthen, albeit at an anemic rate
- Companies will look to temporary staffing to meet cyclical recovery in demand

### Secular Trends Will Favor On Assignment
- Aging U.S. population may constrain supply of available workforce
- Healthcare reform should stimulate demand for staffing in the long term
- On Assignment focuses on the highly-skilled component of the labor force, which companies typically have the hardest time staffing

### Numerous Areas of Opportunity for Incremental Revenues
- Permanent placement
- Healthcare IT
- GSA contracts
- Clinical research

### Acquisition Environment Is Favorable
- M&A activity continues to increase during 2011; closer to 2008 levels
- Smaller, private companies may look to partner with larger, well capitalized firms or private equity as activity and valuations increase
- On Assignment is well positioned to enhance its market position and/or add new capabilities / service offerings

### Significant Sources of EPS Leverage
- EBITDA profitability remains toward low end of historical trends
- Revenue growth vs. fixed costs creates margin opportunity
- Strong cash flow generation provides liquidity for acquisitive growth
- 338(h)(10) election yields an estimated $4.8 million in annual cash tax savings
- Credit facility refinancing will reduce interest costs and provide flexibility for acquisitions

## Key Investment Highlights

| Large, Attractive End Markets | • The staffing industry is a large market, with estimated total revenues of $103 billion in 2010 and projected to be $115 billion in 2011¹  
|                            | • Highly skilled temps are in high demand but short supply, with greater resistance to economic cycles, especially in areas like healthcare and highly specialized professional services  |
| Strong Position in Critical High-End Skill Sets | • On Assignment (“ASGN” or the “Company”) participates in most attractive sub-segments of staffing: Healthcare, Life Sciences, Locum Tenens and IT/Engineering  
|                            | • High-end focus yields higher bill rates, longer assignments and stickier customer relationships  
|                            | • Customer diversification enhances revenue visibility and insulates margins  |
| Attractive Organic and Strategic Growth Opportunities | • Capture operating leverage  
|                            | • Accelerate growth of newer practices  
|                            | • Execute against strategic five year plan  |
| Attractive Financial Characteristics | • All segments operate in high demand, high bill rate sub sectors of the broader staffing market, which drives organic revenue growth and stable gross margins  
|                            | • Highly scalable front and back office creates operating margin expansion opportunities  
|                            | • Low working capital and CapEx requirements result in strong conversion of EBITDA to FCF  |
| Experienced Management Team | • Senior management has extensive experience in the staffing sector and a strong track record with public investors  
|                            | • Veteran cadre of seasoned industry professionals leading each division  |
