# Key Investment Highlights

| Large, Attractive End Markets | • The staffing industry has an estimated market size of $117 billion in revenue and is forecasted to reach $129 billion in 2012 and projected to grow to $138 billion in 2013\(^1\)  
|                            | • Highly skilled temps are in high demand but short supply, with increasing usage among customers as qualified candidates become more and more scarce |
| Strong Position in Critical High-End Skill Sets | • On Assignment (“ASGN” or the “Company”) participates in most attractive sub-segments of staffing: Healthcare, Life Sciences, Locum Tenens and IT/Engineering  
|                            | • High-end focus yields higher bill rates, longer assignments and stickier customers  
|                            | • Customer diversification enhances revenue visibility and insulates margins |
| Attractive Organic and Strategic Growth Opportunities | • Capture operating leverage  
|                            | • Accelerate growth of newer practices  
|                            | • Focus on cash generation to rapidly deleverage the balance sheet |
| Attractive Financial Characteristics | • All segments operate in high demand, high bill rate sub sectors of the broader staffing market, which drives organic revenue growth and stable gross margins  
|                            | • Highly scalable front and back office creates operating margin expansion opportunities  
|                            | • Low working capital & CapEx requirements result in strong EBITDA to FCF conversion |
| Experienced Management Team | • Senior management has extensive experience in the staffing sector and a strong track record with public investors  
|                            | • Veteran cadre of seasoned industry professionals leading each division |

Staffing Industry Growth Drivers

Catalyst For Continued Growth

- An economic slowdown reminds companies of the benefits for using contract labor
- Variable cost structure provides money saving alternative to companies and flexibility to ramp up quickly in periods of expansion
- Aging U.S. population may constrain supply of available workforce
- Healthcare reform may stimulate demand for staffing in the long-term
- Economic headwinds have forced companies to remain cautious and restrain from hiring full-time labor forces as evidenced by stubborn unemployment rates and meager job growth

Secular Trends

- Math/science skills are in short supply and becoming more and more scarce
- American workers in the science and engineering professions has fallen over the past decade; the first decline in a decade period since 1950
- Companies are utilizing temporary labor as a larger percentage of their workforce; end users continue to increase the use of temps, especially in professional staffing, as buyers/clients become more sophisticated in managing their workforce and face increasing need to adapt to evolving technologies and environments
- Temporary penetration rates still below historical peak levels of 2% and well below European penetration rates north of 4%

Note:
1 Bureau of Labor Statistics' (“BLS”) Employment Situation publication (Feb 2012)
2 Prior recession period penetration rate bottomed in December of 2001
Structural Shift in Temporary Staffing

A Structural Change Has Occurred in Staffing Towards Professional Staffing

- The shift is driven in part by IT staffing, by far the largest segment of the industry, which accounts for almost half of the professional staffing market and a quarter of the temp staffing industry.
- The rate of technological change has become so rapid, companies don’t want to invest in full time resources that quickly become obsolete.

Specialization & Client “Stickiness”

### Industrial Staffing
- Areas of focus: light industrial; clerical and administrative; less specialized skills
- Widely available skill sets
- Providers seek large placements and compete on price (bulk selling)

### Generalist Staffing

### Specialist Staffing
- Areas of focus: healthcare, scientific, IT, engineering, finance/accounting, legal
- Skills in short supply and critical to revenue potential of clients
- Competition based on quality of professional and speed and relevancy of response

---

1 Revenue growth is based on year-over-year change
2 Adjusted EBITDA presented is one of the non-GAAP financial measures used by the Company and is defined as earnings before interest, taxes, depreciation, and amortization of identifiable intangible assets plus equity-based compensation expense, impairment charges, and acquisition related expenses, which terms might not be calculated in the same manner as, and thus might not be comparable to, similarly titled measures reported by other companies

The Company provides flexible and permanent staffing solutions through a network of 871 staffing consultants in 76 branch offices across the United States, Canada, and Europe.
Clinical/Scientific – Life Sciences

The U.S. market for outsourced Clinical/Scientific staffing is forecasted to be $2.0 billion in 2012¹

- Lab support professionals assist clients in the life sciences industries with research and development, product production, quality control and assurance, regulatory affairs and compliance, engineering, consumer testing and clinical research

### Industry Highlights

- Highly fragmented; market dynamics are favorable
- Middle market, small/medium clients favor personalized service
- Clinical trials already in progress tend to carry through the length of assignments which can last several months or even years
- The industry is saturated with start-up companies with venture capital-back funding that, in many cases, use temporary help or “temp-to-perm” staffing models as a way of managing start-up costs

Locum Tenens

**Locum Tenens forecasted revenues to be $2.1 billion in 2012**

- Locum Tenens: involves placing physicians, which include both general practitioners and specialists, on temp assignments in a variety of healthcare settings

**High Barriers To Entry**
- Need for malpractice insurance
- Complexities involved in recruiting and marketing physicians
- High level of specialized positions requiring specific training and experience
- Lack of licensing reciprocity between states (unlike nursing)
- Greater lead time needed to successfully fill positions

**Physician Shortage**
- Over the next 15 yrs, the U.S. could face a shortage of 150,000 doctors, according to the Association of American Medical Colleges

**Physician Workforce Demographics**
- The proportion of physicians reported as working part-time increased to 19% in 2007 from 13% in 2005
- Flexible work hours or part-time options were reported as one of the top three ongoing retention initiatives that medical group leaders have found to be effective

**Growth Characteristics**
- Long-term growth may be fueled by a growing shortage, an aging population, and accessible healthcare insurance to more citizens with healthcare reform
- Physicians are “revenue generators”

Healthcare Staffing

**Healthcare Staffing forecasted revenues to be $9.2 billion in 2012**

- Demand for healthcare staffing services is expected to be driven by:
  - An aging U.S. population
  - Continuous shift by healthcare organizations to increased outsourcing
  - Flexible business models to respond to immediate changes in demand
  - An acute shortage of physicians, nurses and other healthcare professionals in the long-term
  - Need for workers with specialized science and medical skills due to advances in technology
  - Accessible healthcare to more individuals provided by healthcare reform

Allied Healthcare

**Allied Staffing forecasted revenues to be $3.0 billion in 2012**

- Allied healthcare staffing involves placing professionals other than physicians and nurses, such as rehabilitation and respiratory therapists, physician assistants, nurse practitioners, nurse anesthetists, pharmacists, surgical technicians and radiologic technologists, in a variety of healthcare settings.

### Industry Highlights

- Allied healthcare staffing assignments generally last 13 weeks.
- Allied healthcare staffing consists of higher bill rate modalities, usually requiring specialized skills.
- Within these specialties, health information technology is projected to grow the fastest.

### Growth Characteristics

- Allied healthcare staffing is estimated to have increased 11% in 2011, with revenues of $2.7 billion and is projected to grow 12% in 2012.
- The segment still has low temporary penetration rates, which is a driver for long-term growth.

Information Technology

**Forecasted IT staffing revenues to be $23.5 billion in 2012**

- IT staffing involves providing temporary professionals and placing full-time employees in areas ranging from multiple platform systems integration to end-user support, including specialists in programming, networking systems integration, database design and help desk support.

**Growth Characteristics**

- IT segment is forecasted to grow by 14% in 2012 and 12% in 2013

**Projected Market Size**

- IT staffing involves providing temporary professionals and placing full-time employees in areas ranging from multiple platform systems integration to end-user support, including specialists in programming, networking systems integration, database design and help desk support.

**Industry Potential**

- IT has recovered quicker than most other staffing segments; and is the only professional staffing segment expected to surpass 2008 levels in the current year
- Growth in 2012 is expected to be driven by demand in the healthcare industry, given deadlines for conversions implemented by the US Dept. of Health & Human Services

**Shortage of Talent**

- One of the main constraints on growth in this segment is a shortage of talent, and not necessarily demand, due to the exodus of many mid-career professionals following the tech bubble and a steady decline in new computer science graduates

### On Assignment’s Strategic Growth Opportunities

| **Cyclical Stabilization and Growth** | • Temporary help penetration rate still below peak historical levels  
| | • Labor markets indicate job recovery continues to strengthen, albeit at an anemic rate  
| | • Companies will look to temporary staffing to meet cyclical recovery in demand |
| **Secular Trends Will Favor On Assignment** | • Aging U.S. population may constrain supply of available workforce  
| | • Healthcare reform should stimulate demand for staffing in the long term  
| | • On Assignment focuses on the highly-skilled component of the labor force, which companies typically have the hardest time staffing |
| **Numerous Areas of Opportunity for Incremental Revenues** | • Permanent placement  
| | • Healthcare IT  
| | • GSA contracts  
| | • Clinical research |
| **Acquisition Environment Is Favorable** | • Smaller, private companies may look to partner with larger, well capitalized firms or private equity as activity and valuations increase  
| | • On Assignment is well positioned to enhance its market position and/or add new capabilities / service offerings |
| **Significant Sources of EPS Leverage** | • Revenue growth vs. fixed costs creates margin opportunity  
| | • Strong cash flow generation provides liquidity for acquisitive growth  
| | • 338(h)(10) election yields an estimated $5.5 million in annual cash tax savings  
| | • Low leverage gives ample room under credit facility to support acquisition growth |

\(^1\) Adjusted EBITDA presented is defined as earnings before interest, taxes, depreciation, and amortization of identifiable intangible assets plus equity-based compensation expense, impairment charges, and acquisition related expenses
# Key Investment Highlights

| Large, Attractive End Markets | • The staffing industry has an estimated market size of $117 billion in revenue and is forecasted to reach $129 billion in 2012 and projected to grow to $138 billion in 2013\(^1\)  
• Highly skilled temps are in high demand but short supply, with increasing usage among customers as qualified candidates become more and more scarce |
| Strong Position in Critical High-End Skill Sets | • On Assignment ("ASGN" or the "Company") participates in most attractive sub-segments of staffing: Healthcare, Life Sciences, Locum Tenens and IT/Engineering  
• High-end focus yields higher bill rates, longer assignments and stickier customers  
• Customer diversification enhances revenue visibility and insulates margins |
| Attractive Organic and Strategic Growth Opportunities | • Capture operating leverage  
• Accelerate growth of newer practices  
• Focus on cash generation to rapidly deleverage the balance sheet |
| Attractive Financial Characteristics | • All segments operate in high demand, high bill rate sub sectors of the broader staffing market, which drives organic revenue growth and stable gross margins  
• Highly scalable front and back office creates operating margin expansion opportunities  
• Low working capital & CapEx requirements result in strong EBITDA to FCF conversion |
| Experienced Management Team | • Senior management has extensive experience in the staffing sector and a strong track record with public investors  
• Veteran cadre of seasoned industry professionals leading each division |
