Strategically Positioned to Capture Favorable Trends in Professional Staffing

Professional Staffing Industry Revenue

Growth Drivers
- Variable cost structure provides potential cost savings and staff flexibility
- Aging U.S. population may constrain workforce supply
- If implemented, healthcare reform may stimulate staffing demand
- Companies are utilizing temporary labor as a larger percentage of their workforce

Structural Change Towards Professional Staffing
- Driven in part by IT staffing (the largest segment)
- Rapid rate of technological change driving companies to flexible workforces

1 Revenue growth is based on year-over-year change of combination of ASGN and Apex revenue for 2010 and 2011

2 Adjusted EBITDA presented is one of the non-GAAP financial measures used by the Company and is defined as earnings before interest, taxes, depreciation, and amortization of identifiable intangible assets plus equity-based compensation expense, impairment charges, and acquisition related expenses, which terms might not be calculated in the same manner as, and thus might not be comparable to, similarly titled measures reported by other companies and other one-time items. Refer to Appendix for EBITDA reconciliation.

1. LTM as of March 31, 2012
A Powerful Combination

Size and Scale
- Together creates 2nd largest IT staffing provider in the U.S.
- Full spectrum of staffing services (high-end to mission critical)
- Benefit from favorable industry tailwinds

Highly Complementary Acquisition
- Focused on different sets of IT skills – no channel conflicts
  - Oxford: High-end IT
  - Apex: Mission Critical IT
- Limited integration required
- Similar business models and corporate cultures

Revenue Diversification
- Broaden services offering across IT skills
- New business verticals and geographical diversification
- Expand permanent placement business
- Cross-selling opportunities

Attractive Financial Characteristics
- Accretive to revenue growth and earnings
- Strong conversion of EBITDA to cash flow
- Significant cash tax savings, resulting in anticipated rapid debt paydown
In January 2007, On Assignment acquired VISTA Staffing Solutions

- On Assignment purchased VISTA for $49 million
- Helped On Assignment increase participation in healthcare staffing by entering them into the locum tenens industry
- VISTA has over 200 physicians on assignment daily with an average bill rate of approximately $185 per hour

In January 2007, On Assignment acquired Oxford Global Resources

- On Assignment purchased Oxford for $212 million, or 9.6x enterprise value to LTM EBITDA
- Acquisition represented On Assignment’s entry into the large and growing Information Technology and Engineering Services market
- Oxford supported On Assignment’s growth strategy and provided a niche offering in the IT sector

In May 2012, On Assignment acquired Apex Systems

- On Assignment purchased Apex Systems for $600 million, or 9.2x enterprise value to 2011 EBITDA
- Acquisition created the second largest IT staffing provider in the U.S. with approximately $1 billion of revenue from IT staffing
- Expands On Assignment’s business into new verticals (financial services, telecom) and new geographies (within the U.S.)

Purchase Price

Rationale

Integration

- Oxford supported On Assignment’s growth strategy and provided a niche offering in the IT sector
- Allows for greater cross-selling opportunities because of minimal overlap in client base

- No customer overlap and seamless front and back office integration with legacy On Assignment
- 55 out of 60 managers from the Oxford acquisition are still with On Assignment

- Apex and Oxford do not compete against one another
- Expected to be immediately accretive on both a GAAP and cash EPS basis (excluding potential synergies)
Information Technology – Market Overview

**Forecasted IT staffing revenues to be $23.5 billion in 2012**

- IT staffing involves providing temporary professionals and placing full-time employees in areas ranging from multiple platform systems integration to end-user support, including specialists in programming, networking systems integration, database design and help desk support.

**Growth Characteristics**

- IT staffing industry is forecasted to grow by 14% in 2012 and 12% in 2013

**Industry Potential**

- IT has recovered quicker than most other staffing segments; and is the only professional staffing segment expected to surpass 2008 levels in the current year

- Growth in 2012 is expected to be driven by demand in the healthcare industry, given deadlines for conversions implemented by the US Dept. of Health & Human Services

**Shortage of Talent**

- One of the main constraints on growth in this segment is a shortage of talent, and not necessarily demand, due to a variety of organizational, candidate-specific and environmental/market factors

Physician Staffing (Locum Tenens) – Market Overview

**Locum Tenens forecasted revenues to be $2.1 billion in 2012**

- Locum Tenens: involves placing physicians on temp assignments in a variety of healthcare settings

### High Barriers To Entry

- Need for malpractice insurance
- Complexities involved in recruiting and marketing physicians
- High level of specialized positions requiring specific training and experience
- Lack of licensing reciprocity between states (unlike nursing)
- Greater lead time needed to successfully fill positions

### Physician Shortage

- Over the next 15 yrs, the U.S. could face a shortage of 150,000 doctors

### Physician Workforce Demographics

- The proportion of physicians reported as working part-time increased to 19% in 2007 from 13% in 2005
- Flexible work hours or part-time options were cited as one of the top three ongoing retention initiatives by medical group leaders

### Growth Characteristics

- Long-term growth may be fueled by a growing shortage, an aging population, and accessible healthcare insurance to more citizens with healthcare reform, if implemented
- Physicians are “revenue generators”

<sup>1</sup> Adjusted EBITDA presented is defined as earnings before interest, taxes, depreciation, and amortization of identifiable intangible assets plus equity-based compensation expense, impairment charges, and acquisition related expenses
On Assignment’s Strategic Growth Opportunities

| Cyclical Stabilization and Growth | • Temporary help penetration rate still below peak historical levels  
| | • Labor markets indicate job recovery continues to strengthen, albeit at an anemic rate  
| | • Companies will look to temporary staffing to meet cyclical recovery in demand |
| Secular Trends Will Favor On Assignment | • Aging U.S. population may constrain supply of available workforce  
| | • If implemented, healthcare reform should stimulate demand for staffing in the long term  
| | • On Assignment focuses on the highly-skilled component of the labor force, which companies typically have the hardest time staffing |
| Numerous Areas of Opportunity for Incremental Revenues | • Permanent placement  
| | • Healthcare IT  
| | • GSA contracts  
| | • Clinical research |
| Acquisition Environment Is Favorable | • Smaller, private companies may look to partner with larger, well capitalized firms or private equity as activity and valuations increase  
| | • On Assignment is well positioned to enhance its market position and/or add new capabilities / service offerings once acquisition stabilization has been completed |
| Significant Sources of EPS Leverage | • Revenue growth vs. fixed costs creates margin opportunity  
| | • Strong cash flow generation provides liquidity for rapid deleveraging  
| | • 338(h)(10) election yields an estimated $20 million in annual cash tax savings |
