Safe Harbor

Certain statements made in this presentation should be considered forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. These include statements about our future results of operations and operating targets, our ability to integrate Apex Systems into our operations successfully, the size of the markets in which we operate, and our efforts to increase our market share. We caution investors that these forward-looking statements are not guarantees of future performance, and actual results may differ materially. Investors should consider the important risks and uncertainties that may cause actual results to differ, including those discussed in our annual report on Form 10-K for the year ended December 31, 2012, Form 10-Q for the quarter ended March 31, 2013, Proxy Statement filed on April 13, 2012 and other filings we make with the Securities and Exchange Commission. We assume no obligation to update this presentation, which speaks as of today's date.
Key Investment Highlights

• Large and Growing Provider of Professional Staffing Services

• Strategically Positioned to Capitalize on Secular Shift in Professional Staffing

• Differentiated Platform Featuring High-end and Mission Critical Skill Sets

• Established Domestic Footprint with Significant Scale

• Experienced Management Team with a Proven Track Record to Execute On Assignment’s Growth

• Attractive Financial Characteristics – Strong Operating Margins and Substantial Free Cash Flow Generation
Large and Growing Provider of Professional Staffing Services

- One of the largest professional staffing companies in the U.S.
- $1.5 billion LTM revenues
- Approximately 11,600 contract professionals at ~2,800 clients
- Focused on placing professionals with higher-end math and science skills
- 1,583 staffing consultants in 129 branch offices in the U.S., Canada, U.K., Belgium, Netherlands, Spain and Ireland
- Deliver fast, quality sales and fulfillment services
- Staffing industry revenue projected to be $139.4 billion in 2014
- Participates in the most attractive sub-segments of staffing: IT/Engineering, Life Sciences, Locum Tenens, Healthcare
- 2nd largest publicly-traded U.S. professional staffing firm
- One of the highest gross margins in the industry – 30.3%
- High gross margin despite low contribution (~2%) from permanent placement revenue
- High operating efficiency

Revenues by Segment

- Apex 54%
- Oxford 24%
- Life Sciences 11%
- Healthcare 4%
- Physician 7%

Gross Margin by Segment

- Oxford 35.0%
- Life Sciences 34.2%
- Healthcare 31.9%
- Physician 30.0%
- Apex 27.3%

1 LTM (3/31/13). Pro forma for acquisition of Apex Systems and divestiture of the Nurse Travel
2 Based on Q1 2013 average and pro forma for the divestiture of the Nurse Travel Division
3 As of March 31, 2013
4 Staffing Industry Analysts Insight: Staffing Industry Forecast (April 2013)
Strategically Positioned to Capitalize on Secular Shift in Professional Staffing

Professional Staffing Industry Revenue

- **CAGR '10-'14: 8.8%**
- 2010: $44 billion
- 2011: $49 billion
- 2012: $53 billion
- 2013: $57 billion
- 2014: $61 billion

Growth Drivers
- Variable cost structure provides potential cost savings and staff flexibility
- Aging U.S. population may constrain workforce supply
- Healthcare reform may stimulate staffing demand
- Companies are utilizing temporary labor as a larger percentage of their workforce

Commercial vs. Professional Staffing Trend

1995
- Industry Revenue: $55.4 billion
- Commercial 64%
- Professional 36%

2013
- Industry Revenue: $131.4 billion
- Commercial 46%
- Professional 54%

Structural Change Towards Professional Staffing
- Driven in part by IT staffing (the largest segment)
- Rapid rate of technological change driving companies to flexible workforces
- Increasing scarcity of math & science skills and new graduates
- Specialized expertise eliminates the need for training or long lead times to reach full productivity

---

**Bill Rates & Gross Margins**

**Specialization & Client “Stickiness”**

**Industrial Staffing**
- Areas of focus: light industrial; clerical and administrative; less specialized skills
- Widely available skill sets
- Providers seek large placements and compete on price (bulk selling)

**Generalist Staffing**

**Professional Staffing**
- Areas of focus: healthcare, scientific, IT, engineering, finance/accounting, legal
- Skills in short supply and critical to revenue potential of clients
- Competition based on quality of professional and speed and relevancy of response

---

¹ LTM (3/31/13). Pro forma for the acquisition of Apex Systems and the divestiture of the Nurse Travel Division
² Adjusted EBITDA presented is one of the non-GAAP financial measures used by the Company and is defined as earnings before interest, taxes, depreciation, and amortization of identifiable intangible assets plus equity-based compensation expense, impairment charges, and acquisition related expenses, which terms might not be calculated in the same manner as, and thus might not be comparable to, similarly titled measures reported by other companies and other one-time items

Disciplined Acquisition Strategy

In January 2007, On Assignment acquired VISTA Staffing Solutions

- On Assignment purchased VISTA for $49 million
- Rationale: On Assignment increased participation in the higher end of healthcare staffing by entering them into the locum tenens industry
- VISTA offers permanent placement and contract services with average bill rates of approximately $180 per hour

In January 2007, On Assignment acquired Oxford Global Resources

- On Assignment purchased Oxford for $212 million, or 9.6x enterprise value to LTM EBITDA
- Rationale: Acquisition represented On Assignment’s entry into the large and growing Information Technology and Engineering Services market
- Oxford supported On Assignment’s growth strategy and provided a niche offering in the IT sector

In May 2012, On Assignment acquired Apex Systems

- On Assignment purchased Apex Systems for $600 million, or 9.2x enterprise value to 2011 EBITDA
- Rationale: Acquisition created the second largest IT staffing provider in the U.S. with approximately $1 billion of revenue from IT staffing
- Expands On Assignment’s business into new verticals (financial services, telecom) and new geographies (within the U.S.)

Purchase Price

Integration

- Integrated corporate support functions and IT systems with legacy On Assignment
- Allows for greater cross-selling opportunities with legacy allied healthcare segment because of minimal overlap in client base
- 55 out of 60 managers from the Oxford acquisition are still with On Assignment
- Apex and Oxford do not compete against one another
- Expected to be immediately accretive on both a GAAP and cash EPS basis (excluding potential synergies)
A Powerful Combination

Size and Scale
- Together, in 2011, creates a Top 3 IT staffing provider in the U.S., according to SIA rankings\(^1\)
- Based on year-to-date performance above market growth, we believe we will be the 2\(^{nd}\) largest IT staffing provider by the end of 2012
- Full spectrum of staffing services (high-end to mission critical)

Highly Complementary Acquisition
- Focused on different sets of IT skills – no channel conflicts
  - Oxford: High-end IT
  - Apex: Mission Critical IT
- Limited integration required
- Similar business models and corporate cultures

Revenue Diversification
- Broaden services offering across IT skills
- New business verticals and geographical diversification
- Expand permanent placement business
- Cross-selling opportunities

Attractive Financial Characteristics
- Accretive to revenue growth and earnings
- Strong conversion of EBITDA to cash flow
- Significant cash tax savings, resulting in rapid debt paydown

Source: Staffing Industry Analysts Insight: 2012 List of Largest U.S. IT Staffing Firms (July 2012)
\(^1\) Based on FY 2011 estimated revenues
Information Technology – Market Overview

Forecasted IT staffing revenues to be $24.5 billion in 2013\(^1\)

- IT staffing involves providing temporary professionals and placing full-time employees in areas ranging from multiple platform systems integration to end-user support, including specialists in programming, networking systems integration, database design and help desk support.

**Industry Potential**

- IT is one of the fastest growth areas of staffing, fueled by the penetration of technology. Companies continue to spend on capital projects driving demand for temporary labor needs.

- Growth in 2013 is expected to be driven by demand in the healthcare industry, given deadlines for conversions implemented by the US Dept. of Health & Human Services

**Shortage of Talent**

- One of the main constraints on growth in this segment is a shortage of talent, and not necessarily demand, due to a variety of organizational, candidate-specific and environmental/market factors

**Growth Characteristics**

- IT staffing industry is forecasted to grow by 8% in 2013 and 8% in 2014\(^1\)

**Projected Market Size\(^1\)**

Apex – Segment Overview

• Provides mission critical IT skill sets to Fortune 500 and mid-market companies

• 100+ National Accounts with a presence in 53 markets
  – Over 16,000 temporary IT professionals staffed annually

• Service clients in:
  – Information technology, business services, financials, healthcare, pharmaceuticals, government services, consumer industrials and telecommunications industries

• Provides highly skilled professionals:
  – Network Engineers
  – Application Developers
  – Social & Mobile App. Developers
  – Help Desk

• Current statistics:
  – Approximately 6,600 contract professionals at ~600 clients
  – Average bill rate at $60 an hour
  – Top 10 clients represent ~33% of segment revenue

---

1 Q1 2013 Average
Oxford – Segment Overview

Oxford’s disciplined focus on the high-end of IT and engineering markets yields industry leading bill rates, success rates and margins

• “The Right Talent. Right now.®”

• Four divisions:
  – Oxford International - nation-wide recruitment for nation-wide vacancies
  – Oxford & Associates - local recruitment through branch network
  – Healthcare IT - functional and technical recruitment in all aspects of healthcare IT
  – Centerpoint - fills permanent staffing needs

• High-end IT and engineering focus
  – Time sensitive project requirements
  – Average assignment length of ~5 months
  – Average bill rate of $122 per hour

• Proactive, recruiting-driven organization
  – Significantly higher success rate filling engagements than competitors

• Attractive financial characteristics
  – Minimal client and industry business concentration; no customer accounts for more than 6% of sales
  – Top 10 clients represent ~17% of segment revenue

\[ \dagger \text{Q1 2013 Average} \]
Life Sciences – Market Overview

The U.S. market for outsourced Clinical/Scientific staffing is forecasted to be $2.1 billion in 2013¹

- Lab support professionals assist clients in the life sciences industries with research and development, product production, quality control and assurance, regulatory affairs and compliance, engineering, consumer testing and clinical research

### Industry Highlights

- Highly fragmented; market dynamics are favorable
- Middle market, small/medium clients favor personalized service
- Clinical trials already in progress tend to carry through the length of assignments which can last several months or even years
- The industry is saturated with start-up companies with venture capital-backed funding that, in some cases, may have a need for the use temporary help or “temp-to-perm” staffing models as a way of managing a flexible workforce

  – Clinical Research (Valesta)
  – Engineering
  – Sharpstream (permanent placement)

• Operations in the U.S., Canada, and Europe

• Service clients in:
  – Biotechnology, pharmaceutical, food and beverage, medical device, personal care, materials science chemical, nutraceutical, petrochemical consumer products, environmental, and contract manufacturing industries

• Provides highly skilled professionals:
  – Chemists, clinical research associates, clinical lab assistants, engineers, biologists, biochemists, microbiologists, molecular biologists, food scientists, regulatory affairs specialists, lab assistants, and other skilled scientific professionals

• Current statistics:
  – Approximately 2,200 contract professionals at ~900 clients\(^1\)
  – Average bill rate at $35 an hour\(^1\)
  – Top 10 clients represent ~25% of segment revenue

\(^1\) Q1 2013 Average
Healthcare – Market Overview

Allied Staffing market revenues forecasted to be $3.2 billion in 2013\(^1\)

- Allied staffing provides locally-based and traveling professionals to clients, including hospitals, clinics, physician offices, managed care organizations, rehabilitation facilities, long-term care facilities, etc. Contract professionals in the field include a wide range skilled positions such as specialty nurses, health information management, dialysis and surgical technicians, pharmacists, therapists, hygienists, and dental professionals, etc.

Industry Highlights

- ~13 week assignments
- Within allied healthcare specialties, health information technology is projected to grow the fastest
- It is estimated that 60 percent of healthcare workers are in the allied healthcare field\(^2\)
- Significant shortage due to growth in population needing care

- The Healthcare lines of business:
  - Local Healthcare Staffing
  - Health Information Management
  - Allied Travel
  - Allied Search

- Allied Healthcare professionals:
  - Offer contract professionals on both a local and traveling basis ranging from x-ray technicians to phlebotomists to billing and coding professionals

- Current statistics:
  - Average bill rate approx. $38 an hour\(^1\)
  - Approximately 900 contract professionals at ~500 clients\(^1\)
  - Top 10 clients represented ~30% of segment revenue

\(^1\) Q1 2013 Average
Physician Staffing (Locum Tenens) – Market Overview

Locum Tenens market revenues forecasted to be $2.4 billion in 2013
- Locum Tenens: involves placing physicians on temp assignments in a variety of healthcare settings

High Barriers To Entry
- Need for malpractice insurance
- Complexities involved in recruiting and marketing physicians
- High level of specialized positions requiring specific training and experience
- Lack of licensing reciprocity between states (unlike nursing)
- Greater lead time needed to successfully fill positions

Physician Shortage
- Over the next 15 yrs, the U.S. could face a shortage of 140,000 doctors

Physician Workforce Demographics
- The proportion of physicians reported as working part-time increased to 22% for male physicians and 44% for female physicians, up from 7% and 29%, respectively, in 2005
- Flexible work hours or part-time options were cited as one of the top three ongoing retention initiatives by medical group leaders

Growth Characteristics
- Long-term growth may be fueled by a growing shortage, an aging population, and accessible healthcare insurance to more citizens with healthcare reform, if implemented
- Physicians are “revenue generators”

Projected Market Size
($ in billions)

Physician Staffing – Segment Overview

- Full-service physician recruitment and staffing company
  - Offering contract staffing solutions to commercial, government, and correctional facilities in a variety of physician specialties
- Places physicians throughout the United States, Australia and New Zealand
- Summary statistics:
  - Approximately 30 specialties through 13 employee teams
  - Pool of 1,300+ physicians worldwide, with a range of medical specialties
  - Approximately 270 physicians on assignment daily\(^1\)
- Average domestic locum tenens assignment lasts 6 weeks
  - New line of business for longer engagements

### On Assignment’s Strategic Growth Opportunities

<table>
<thead>
<tr>
<th>Category</th>
<th>Description</th>
</tr>
</thead>
</table>
| **Cyclical Stabilization and Growth**         | • Temporary help penetration rate still below peak historical levels  
• Labor markets indicate job recovery continues to strengthen, albeit at an anemic rate  
• Companies will look to temporary staffing to meet cyclical recovery in demand |
| **Secular Trends Will Favor On Assignment**   | • Aging U.S. population may constrain supply of available workforce  
• Healthcare reform should stimulate demand for staffing in the long term  
• On Assignment focuses on the highly-skilled component of the labor force, which companies typically find most difficult to fill/hire |
| **Numerous Areas of Opportunity for Incremental Revenues** | • Healthcare IT  
• Locum tenens  
• Clinical research  
• Permanent placement |
| **Acquisition Environment Is Favorable**      | • On Assignment is well positioned to enhance its market position and/or add new capabilities / service offerings  
• Low borrowing costs and quick deleveraging since the acquisition of Apex Systems allow for an acquisition strategy to be redeployed |
| **Significant Sources of EPS Leverage**       | • Revenue growth vs. fixed costs creates margin opportunity  
• Strong cash flow generation provides liquidity for rapid deleveraging and executing acquisition strategies with internally generated cash  
• 338(h)(10) elections yield approximately $19 million in annual cash tax savings<sup>1</sup> |

<sup>1</sup> Represents combined estimated cash tax shields from elections associated with the acquisitions of Apex, Oxford, and HealthCare Partners

1 Pro forma assumes acquisition of Apex Systems occurred at the beginning of 2012.

2 Adjusted Net Income is GAAP-based net income adjusted for amortization of identifiable intangible assets, cash tax savings on indefinite-lived intangible assets and excess capital expenditures over depreciation, net of tax.

3 Adjusted EBITDA presented is one of the non-GAAP financial measures used by the Company and is defined as EBITDA adjusted primarily for equity-based compensation expense, acquisition-related expenses and other one-time items.

Adjustments to GAAP EPS mainly relate to certain acquisition-related items:

- Amortization of identifiable assets (mainly customer relationships) related to acquisitions
  - Estimated 2013 amortization expense of $21 million
  - Declines annually as assets are amortized on an accelerated basis
- Cash tax savings on indefinite-lived assets (goodwill & trademarks)
  - Assets are amortized for tax purposes, but not for financial reporting purposes
  - Indefinite-lived assets of $593 million
  - Annual tax amortization is $39.5 million ($15.4 million tax effected)
  - For GAAP purposes, the cash tax savings are fully offset by a deferred income tax provision
- Excess capital expenditures over depreciation is difference between estimated capital expenditures of $15.9 million for 2013 less estimated book depreciation of $9.0 million, after tax
- Analysis does not consider an add-back for equity-based compensation expense, which is estimated to be $14.5 million for 2013
Putting *People First* since 1985.
