Baird’s 2018 Global Consumer, Technology & Services Conference
June 6, 2018
Ted Hanson, President
Ed Pierce, CFO
This presentation contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and involves a high degree of risk and uncertainty. Forward-looking statements include statements regarding the Company's anticipated future financial and operating performance. All statements in this presentation, other than those setting forth strictly historical information, are forward-looking statements. Forward-looking statements are not guarantees of future performance, and actual results might differ materially. In particular, the Company makes no assurances that estimates of revenues, gross margin, SG&A, Adjusted EBITDA, cash flow and other financial metrics will be achieved. Factors that could cause or contribute to such differences include actual demand for our services, our ability to attract, train and retain qualified staffing consultants, our ability to remain competitive in obtaining and retaining staffing clients, the availability of qualified temporary and permanent placement professionals, management of our growth, continued performance of our enterprise-wide information systems, the successful integration of our acquired subsidiaries, and other risks detailed from time to time in our reports filed with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2017, as filed with the SEC on March 1, 2018, and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2018, as filed with the SEC on May 10, 2018. We specifically disclaim any intention or duty to update any forward-looking statements contained in this presentation.

A webcast will be available at http://wsw.com/webcast/baird51/asgn/.

ASGN is Well-Positioned to Benefit From Market Forces

The World of Work is Changing
- More task and project-based work
- Variable human capital cost to improve productivity
- Increased adoption of shared resources delivery model
- Increasing client demand for value-added services

Increasing Technology Adoption & Specialization
- Increasing demand for specialized technical talent
- Specialized in skillsets and specific industry technologies
- Cybersecurity, Analytics, AI, Cloud & Digital are fastest-growing

Favorable Labor and Immigration Legislation
- Increasing risk of worker misclassification
- Ever-changing laws impacting worker usage
- Increasing demand for domestic technical resources

Improving U.S. Government Market
- Federal spending raised by $300B over two years, increasing both military and non-defense spending
- Large, pent-up demand for modernization of high-visibility IT systems
Staff Augmentation is the Original Shared Resources Model

- No risk of worker misclassification
- Constant access to large skilled labor network
- Improved ability to source talent to meet specific project needs
- Flexibility by converting fixed costs into variable costs
- Higher productivity, nearing 100% utilization with contracted employees; compares to ~70% productivity with FTE
- Greater control, visibility and quality over project and deliverables

Internal Staff
- Less flexibility
- Higher fixed costs
- Limited to available network
- Costs to repurposing employees

Project Consulting
- High cost
- Limited ability to source talent to meet specific project needs
- Locked into contract resources

Offshore Labor
- Limited to vendor resources
- Less control of deliverables
- Limited ability to source talent to meet specific project needs

Outsourcing
- Less control over deliverables
- Limited ability to source talent to meet specific project needs

Higher Utilization  More Flexibility
ASGN’s Strong and Differentiated Market Position

ASGN’s Contingent Labor/Shared Resources delivery model provides:

- Direct access to deep, talented technical labor pool
- Sophisticated project delivery capabilities

and delivers:

- Market share gains
- Consistent growth above industry average
ASGN is Gaining Market Share

- Size and service offerings have allowed ASGN to consistently grow faster than published industry growth rates.
  - Early mover in the creation of the “shared economy” through staff augmentation & shared resources delivery model
  - Well positioned in large and growing end markets
  - Expanding value-added services, our consulting services “light deliverable” model

¹ Pro forma is presented on basis that assumes the acquisition of ECS occurred at the beginning of the periods presented, but does not include the related one-time acquisition expenses or financing costs related to the acquisition.

² Includes depreciation related to ECS project that is included in cost of services ($2.2 million in Q1 2017 and $2.5 million in Q1 2018).

³ Does not include the "Cash Tax Savings on Indefinite-lived Intangible Assets." These savings total $6.8 million each quarter, or $0.13 per diluted share, and represent the economic value of the tax deduction that we receive from the amortization of goodwill and trademarks.

1 Includes $2.7 million in depreciation related to an ECS project that is included in costs of services.
2 These estimates do not include acquisition, integration and strategic planning expenses.
3 Includes $5.8 million ($4.3 million after tax) in one-time expenses related to the amendment of the credit facility in April 2018; however, these expenses are “added back” in the calculation of Adjusted Net Income.
4 Adjusted Net Income, a non-GAAP financial measure, is defined as net income adjusted for, (i) acquisition, integration and strategic planning expenses and (ii) amortization of identifiable intangible assets. Does not include the “Cash Tax Savings” on Indefinite-lived Assets.” These savings total $6.8 million per quarter, or $0.13 per diluted share, and represent the economic value of the tax deduction from the amortization of goodwill and trademarks.

Key Assumptions Underlying 5-Year Financial Targets

- Assumes continuation of current growth rates
  - IT staffing industry estimated to grow 4 percent rate in 2018
  - Government services estimated to grow 2.9 percent rate in 2018

- Operating Assumptions (before any contribution from acquisitions)
  - Annual revenue growth of 6 to 7 percent (which is 2 to 3 percentage points above the estimated IT industry staffing space)
  - Maintain gross margin at current levels
  - Reduce cash SG&A margin by 60 to 80 basis points related to improved operating leverage
  - Estimated amortization of intangible assets (based on preliminary allocation of ECS purchase price)
  - Assumes approximately 125 basis point increase in LIBOR over the 5-year period
  - Effective tax rate of 27 percent and an estimated cash tax rate of 19 percent
  - Estimated cumulative free cash flow generation of $1.4 billion - $1.5 billion
  - Assumes all excess free cash flow generated from current operations will be used to pay down debt
    - Expected to deleverage to 2.5x by the end of 2019
    - All outstanding debt will be repaid by 2022
  - Assumes no stock repurchases

- Acquisition Assumptions
  - Acquire businesses generating $500 million to $700 million in revenues by 2022 to achieve $5 billion revenue target
  - Aggressively pursue once leverage is at or below 2.5x, which is expected to occur by the end of 2019
  - Include acquisitions necessary for ECS to achieve $1 billion revenue target on or before 2021
  - Financial and operating profile of acquisitions expected to be similar to our existing business
  - Financial model assumes all acquisitions will occur mid-2021 and does not include acquisition and financing-related expenses
  - Acquisitions are expected to be accretive to consolidated free cash flow and Adjusted Net Income
